Focusing on usage guides and usage problems, the book takes a three fold approach to present an in depth analysis of the topic, featuring a detailed study of the advice provided in usage guides over the years, an authoritative comparison of this advice with actual usage as recorded in British and American corpora including the HUGE Hyper Usage Guide of English database developed specifically to enable this line of study, as well as more mainstream corpora such as COCA, COHA and the BNC, a close analysis of the attitudes to particular usage problems among the general public based on surveys distributed online through the Bridging the Unbridgeable research project's blog. With extensive case studies to illustrate and support claims throughout, this comprehensive study is key reading for students and researchers of prescriptivism, the history of English and sociolinguistics.
