Lost Empire The Fall Of Rj Reynolds Tobacco Company:

Lost Empire Frank Tursi, Susan E. White, Steve McQuilkin, 2000 Katharine and R.J. Reynolds Michele Gillespie, 2020-10-07 A tour de force a top notch study of a powerful couple negotiating the shifting socioeconomic world of the New South and early corporate America *Journal of American History* Separately they were formidable together they were unstoppable Despite their intriguing lives and the deep impact they had on their community and region the story of Richard Joshua Reynolds and Katharine Smith Reynolds has never been fully told Now Michele Gillespie provides a sweeping account of how R J and Katharine succeeded in realizing their American dreams From relatively modest beginnings R J launched the R J Reynolds Tobacco Company which would eventually develop two hugely profitable products Prince Albert pipe tobacco and Camel cigarettes His marriage in 1905 to Katharine Smith a dynamic woman thirty years his junior marked the beginning of a unique partnership that went well beyond the family As a couple the Reynoldses conducted a far ranging social life and under Katharine s direction built Reynolda House a breathtaking estate and model farm Katharine and R J Reynolds is an engrossing study of a power couple extraordinaire Telling us much about an unusual relationship Michele Gillespie also provides a new way to understand how the post Reconstruction New South elite helped construct business structures social relations and racial hierarchies The result is an important addition to our understanding of the industrial South in the North Carolina Piedmont heartland William A Link author of *The Paradox of Southern Progressivism* Ms Gillespie uses Katharine s life and work as a kind of prism through which to view the prejudices and predilections of Southern culture in the 1910s and 1920s *The Wall Street Journal* *Golden Holocaust* Robert N. Proctor, 2012-02-28 The cigarette is the deadliest artifact in the history of human civilization It is also one of the most beguiling thanks to more than a century of manipulation at the hands of tobacco industry chemists In *Golden Holocaust* Robert N Proctor draws on reams of formerly secret industry documents to explore how the cigarette came to be the most widely used drug on the planet with six trillion sticks sold per year He paints a harrowing picture of tobacco manufacturers conspiring to block the recognition of tobacco cancer hazards even as they ensnare legions of scientists and politicians in a web of denial Proctor tells heretofore untold stories of fraud and subterfuge and he makes the strongest case to date for a simple yet ambitious remedy a ban on the manufacture and sale of cigarettes **Smoking under the Tsars** Tricia Starks, 2018-09-15 Approaching tobacco from the perspective of users producers and objectors *Smoking under the Tsars* provides an unparalleled view of Russia s early adoption of smoking Tricia Starks introduces us to the addictive nicotine soaked Russian version of the cigarette the papirosa and the sensory medical social cultural and gendered consequences of this unique style of tobacco use Starting with the papirosa s introduction in the nineteenth century and its foundation as a cultural and imperial construct Starks situates the cigarette s emergence as a mass use product of revolutionary potential She discusses the papirosa as a moral and medical problem tracks the ways in which it was marketed as a liberating object and concludes that it has become a point of

increasing conflict for users reformers and purveyors The heavily illustrated *Smoking under the Tsars* taps into bountiful material in newspapers industry publications etiquette manuals propaganda posters popular literature memoirs cartoons poetry and advertising Starks frames her history within the latest scholarship in imperial and early Soviet history and public health anthropology and addiction studies The result is an ambitious social and cultural exploration of the interaction of institutions ideas practice policy consumption identity and the body Starks has reconstructed how Russian smokers experienced understood and presented their habit in all its biological psychological social and sensory inflections providing the reader with incredible images and a unique application of anthropology and sensory analysis to the experience of tobacco dependency

Up in Smoke Martha A. Derthick, 2011-07-26 In recent years tobacco politics has been a multi layered issue fraught with significant legal commercial and public policy implications From the outset Martha A Derthick's *Up in Smoke* took a nuanced look at tobacco politics in a new era of adversarial legalism and the consequences both intended and unintended of the MSA Master Settlement Agreement Now with a brand new 3rd edition the book returns to ordinary politics and the passage of the Family Smoking Prevention and Tobacco Control Act which gave the FDA broad authority to regulate both the manufacture and marketing of tobacco products Derthick shows our political institutions working as they should even if slowly with partisanship and interest group activity playing their part in putting restraints on cigarette smoking

The Cigarette Century Allan M. Brandt, 2009-01-06 The invention of mass marketing led to cigarettes being emblazoned in advertising and film deeply tied to modern notions of glamour and sex appeal It is hard to find a photo of Humphrey Bogart or Lauren Bacall without a cigarette No product has been so heavily promoted or has become so deeply entrenched in American consciousness And no product has received such sustained scientific scrutiny The development of new medical knowledge demonstrating the dire harms of smoking ultimately shaped the evolution of evidence based medicine In response the tobacco industry engineered a campaign of scientific disinformation seeking to delay disrupt and suppress these studies Using a massive archive of previously secret documents historian Allan Brandt shows how the industry pioneered these campaigns particularly using special interest lobbying and largesse to elude regulation But even as the cultural dominance of the cigarette has waned and consumption has fallen dramatically in the U S Big Tobacco remains securely positioned to expand into new global markets The implications for the future are vast 100 million people died of smoking related diseases in the 20th century in the next 100 years we expect 1 billion deaths worldwide

The Foundations of Organizational Evil Carole L. Jurkiewicz, 2015-02-24 Numerous reprehensible corporate governmental and nonprofit activities over recent years have highlighted the existence of organizational evil Unlike other works on the topic this book fully develops the concept of organizational evil conceptually weaving the interchange between evil individuals microlevel who ultimately create the organizational environment that is evil and the macrolevel elements of policy culture and manipulations of the social environment

The Box Marc Levinson, 2016-04-05 In April 1956 a refitted oil tanker carried fifty eight shipping

containers from Newark to Houston From that modest beginning container shipping developed into a huge industry that made the boom in global trade possible The Box tells the dramatic story of the container s creation the decade of struggle before it was widely adopted and the sweeping economic consequences of the sharp fall in transportation costs that containerization brought about But the container didn t just happen Its adoption required huge sums of money both from private investors and from ports that aspired to be on the leading edge of a new technology It required years of high stakes bargaining with two of the titans of organized labor Harry Bridges and Teddy Gleason as well as delicate negotiations on standards that made it possible for almost any container to travel on any truck or train or ship Ultimately it took McLean s success in supplying U S forces in Vietnam to persuade the world of the container s potential Drawing on previously neglected sources economist Marc Levinson shows how the container transformed economic geography devastating traditional ports such as New York and London and fueling the growth of previously obscure ones such as Oakland By making shipping so cheap that industry could locate factories far from its customers the container paved the way for Asia to become the world s workshop and brought consumers a previously unimaginable variety of low cost products from around the globe Published in hardcover on the fiftieth anniversary of the first container voyage this is the first comprehensive history of the shipping container Now with a new chapter The Box tells the dramatic story of how the drive and imagination of an iconoclastic entrepreneur turned containerization from an impractical idea into a phenomenon that transformed economic geography slashed transportation costs and made the boom in global trade possible The Modern American Wine Industry Ian M Taplin,2015-10-06 This study is both a history of the American wine industry and an examination of its current structure and performance In analysing market formation Taplin focuses on a complex network of winery owners winemakers and grape growers to see how relationships have shaped the evolution of this sector Kid Carolina Heidi Schnakenberg,2010-02-17 The Reynolds tobacco family was an American dynasty like the Rockefellers Vanderbilts and Astors R J Dick Reynolds Jr was born into privilege and decadence but his disastrous personal life eventually destroyed almost every relationship he cherished and stole his health at a relatively young age Dick Reynolds was dubbed Kid Carolina when as a teenager he ran away from home and stowed away as part of the crew on a freighter For the rest of his life he d turn to the sea instead of his friends and family for comfort Dick disappeared for months at a time leading the dual life of a business mogul and troubled soul both of which became legendary Despite his personal demons Dick played a pivotal role in shaping twentieth century America through his business savvy and politics He developed Delta and Eastern Airlines single handedly secured FDR s third term election and served as mayor of Winston Salem where his tobacco fortune was built Yet below the gilded surface lay a turbulent life of alcoholism infidelity and loneliness His chaotic existence culminated in a surprise fourth marriage and was shortly followed by a strange death the end of a life every bit as awe inspiring as it was disturbing
