Lost In The Black Range:

Hidden Treasures of the Black Range Marshall Bulle, Larry Ditzer, 2015-09-01 For those who have never heard of the Lost Adams Diggings this book will introduce you to a story that is almost beyond belief We would not have believed it ourselves had it not been for the overwhelming evidence we found This story not only actually happened but it took place in 1863 in the wild and rugged Black Range of New Mexico For those of you who know the story well you are in for a surprise The Black Range once referred to as The Devil Mountains by the Spanish had long hidden this lost gold mine from the outside world along with other dark secrets for well over a century When Larry Ditzer and I first began searching some of the higher elevations of New Mexico's wild and rugged Black Range for an old Spanish cannon once seen there by cowboy Walt Nichols in the 1950s we sure never dreamed it would eventually lead us to the location of the famous Lost Adams Diggings The location of the Lost Adams Diggings is in one of the roughest and most treacherous places to get around in the Black Range we had ever been
