Lost Millennium:

The Lost Millennium Florin Diacu, 2010-07-23 Have you ever wondered how we really know what year it is Part detective story part conspiracy theory part scientific history The Lost Millennium explores the astonishing possibility that our calendar is out by a thousand years A chance conversation at a conference in Mexico started mathematician Florin Diacu on an amazing journey to make sense of one of the strangest and if true most revolutionary theories you ll ever encounter To understand how scientists could be sceptical about what year it is Florin Diacu explores the fascinating history of chronology from Egyptian horoscopes to the work of Isaac Newton with cameos by Voltaire and Edmund Halley making the startling discovery that our calendar is far from ironclad It all depends rather on the dating of ancient events about which there is real controversy At once accessible and profound The Lost Millennium examines the arguments of present day chronological revisionists such as the Russian scholar Anatoli Fomenko who claims that our system of dating is horribly askew Fomenko cites evidence from ancient astronomy linguistics and cartography and a crucial manuscript by Ptolemy staking his scientific prestige on a theory so controversial that it will change the way you think about time history and the calendar on your wall The field has also inspired its share of now discredited cranks such as Immanuel Velikovsky a media celebrity of the 1950s His notorious book *Worlds in Collision* argued that biblical events are incorrectly dated Beautifully written and peopled with fascinating characters from past and present The Lost Millennium is essential reading for anyone who believes they re living in the year 2005

Life After Life Mark Meynell, 2024-06-20 The resurrection of Jesus Christ is compelling because it puts everything into perspective In the middle of desperation there is hope After tragedy there can be redemption Even in the face of death there is a promise of new life In *Life After Life* Mark Meynell begins by unpacking how Jesus resurrection from the dead fulfilled God s plan of salvation It then explores the ways in which the eternal life won by Christ is available to us even now through the Holy Spirit Finally readers are invited to imagine how this life might continue into a heaven and an Earth that have been gloriously remade In Christ we can all be raised to life So let a fresh vision of the Resurrection encourage you to live boldly with purpose and hope

Mercy Among the Children David Adams Richards, 2011-07-27 *Mercy Among the Children* received effusive praise from the critics was nominated for a Governor General s Award and won the Giller Prize It was named one of 2000 s best books became a national bestseller in hardcover for months and would be published in the US and UK It is seen however as being at odds with literary fashion for concerning itself with good and evil and the human freedom to choose between them an approach that puts Richards as Maclean s magazine says firmly in the tradition of Tolstoy and Dostoevsky Author Wayne Johnston recounts hearing Richards read in 1983 and being struck by his unqualified love for every one of his characters even though it was not then fashionable to love

your characters Pottersfield Portfolio editor Tony Tremblay calls Richards the most misunderstood Canadian writer of the century and a great moralist comparing him to Morley Callaghan Kafka and Melville As a boy Sydney Henderson thinks he has killed Connie Devlin when he pushes him from a roof for stealing his sandwich He vows to God he will never again harm another if Connie survives Connie walks away laughing and Sydney embarks upon a life of self immolating goodness In spite of having educated himself with such classics as Tolstoy and Marcus Aurelius he is not taken seriously enough to enter university because of his background of dire poverty and abuse which leads everyone to expect the worst of him His saintly generosity of spirit is treated with suspicion and contempt especially when he manages to win the love of beautiful Elly Unwilling to harm another in thought or deed or to defend himself against false accusations he is exploited and tormented by others in this rural community and finally implicated in the death of a 19 year old boy Lyle Henderson knows his father is innocent but is angry that the family has been ridiculed for years and that his mother and sister suffer for it He feels betrayed by his father s passivity in the face of one blow after another and unable to accept his belief in long term salvation Unlike his father he cannot believe that evil will be punished in the end While his father turns the other cheek Lyle decides the right way is in fighting and embarks on a morally empty life of stealing drinking and violence A compassionate powerful story of humanity confronting inhumanity it is a culmination of Richards last seven books beginning with Road to the Stilt House It takes place in New Brunswick s Miramichi Valley like all of his novels so far which has led some urban critics to misjudge his work as regional a criticism leveled at Thomas Hardy Joseph Conrad and Emily Bronte in their own day Like his literary heroes Richards aims to evoke universal human struggles through his depiction of the events of a small rural place where one person s actions impact inevitably on others in a tragic web of interconnectedness The setting is extremely important in Richards work because the characters come from the soil but as British Columbia author Jack Hodgins once told Richards every character you talk about is a character I ve met here in Campbell River

Dating the Passion C. Philipp E.

Nothaft,2011-10-06 The beginnings of scientific chronology are usually associated with the work of the great Renaissance philologist Joseph Scaliger 1540 1609 but this perspective is challenged by the existence of a vivid pre modern computistical tradition in which technical chronological questions especially regarding the life of Jesus played an essential role Christian scholars such as Roger Bacon made innovative breakthroughs in the field of historical dating by applying astronomical calculations critical exegesis and the study of the Jewish calendar to chronological problems Drawing on a wide selection of sources that range from late antiquity to 1600 this book uses the history of the date of Christ s Passion to shed new light on the medieval contribution to science and scholarship

The Politics of Eurasianism Mark Bassin,Gonzalo Pozo,2017-01-12

In the course of Vladimir Putin s third presidential term many of the doctrines and ideas associated with Eurasianism have moved to the center of public political discourses in Russia Eurasianism both Russian and non Russian is politically active influential and contested in debates about identity popular culture or foreign policy narratives Deploying a variety of

theoretical frameworks and perspectives the essays in this volume work together to shed light on both Eurasianism's plasticity and contemporary weight and examine how its tropes and discourses are appropriated interpreted modulated and deployed politically by national groups oppositional forces left or right prominent intellectuals artists and last but not least government elites In doing so this collection addresses essential themes and questions currently shaping the Post Soviet world and beyond

Monarch: The New Phoenix Program Marshall Thomas, **Mortal Thought** James Luchte, 2016-07-28 Mortal Thought seeks to illustrate the artistic and philosophical contexts for Heidegger's poetic thought and to trace his profound impact upon subsequent philosophy most notably Nietzsche the Frankfurt School Heidegger and Post structuralism Beginning with the point of departure of Heidegger in Kant and Fichte Mortal Thought outlines the novel philosophical innovations of Heidegger and their influence upon philosophy from the 19th century to the present day A renewed appreciation of Heidegger will allow us to retrieve an authentic philosophy for our own era Mortal Thought lays out a concise clear and comprehensive account of the emergence of Heidegger as philosopher and poet of his influence upon the four dominant strands of Continental philosophy Nietzsche Heidegger Critical Theory and Post structuralism and of his relevance for us in our own era

Rhapsody Hal Duncan, 2014 Acclaimed author and critic Hal Duncan turns his analytic eye towards the development and current state of speculative fiction in American and English writing in the pages of Rhapsody Duncan's trademark wry humor and suffer no fools approach to critiquing the genre will make this book more than a resource for students of the field anyone who enjoys reading tales of the fantastical and strange can find Duncan's insight worthwhile to read again and again

Megadisasters Florin Diacu, 2010 The history and science behind efforts to predict major disasters from tsunamis to stock market crashes Can we predict cataclysmic disasters such as earthquakes volcanic eruptions or stock market crashes The Indian Ocean tsunami of 2004 claimed more than 200 000 lives Hurricane Katrina killed over 1 800 people and devastated the city of New Orleans The recent global financial crisis has cost corporations and ordinary people around the world billions of dollars Megadisasters is a book that asks why catastrophes such as these catch us by surprise and reveals the history and groundbreaking science behind efforts to

forecast major disasters and minimize their destruction Each chapter of this exciting and eye opening book explores a particular type of cataclysmic event and the research surrounding it including earthquakes tsunamis volcanic eruptions hurricanes rapid climate change collisions with asteroids or comets pandemics and financial crashes Florin Diacu tells the harrowing true stories of people impacted by these terrible events and of the scientists racing against time to predict when the next big disaster will strike He describes the mathematical models that are so critical to understanding the laws of nature and foretelling potentially lethal phenomena the history of modeling and its prospects for success in the future and the enormous challenges to scientific prediction posed by the chaos phenomenon which is the high instability that underlies many processes around us Yielding new insights into the perils that can touch every one of us Megadisasters shows how the science of predicting disasters holds the promise of a safer and brighter tomorrow Clean Air Act Oversight United States. Taylor,2015-05-20 This work is the first academic biography of North Carolina poet laureate James Larkin Pearson 1879 1981 Using material from Pearson s personal archive in Wilkes County from the North Carolina Collection and the Southern Historical Collection at the University of North Carolina at Chapel Hill and from contemporary examinations of his life and work this study offers deeply personal insights into his life and provides extensive examinations of his hopes joys fears pains and sorrows The work also includes lengthy studies of his poetry and his journalistic efforts and examines their place within the larger cultural milieu In the process the book addresses two themes that become apparent in Pearson s life and work his Tar Heel spirit and his individualism He was a fighter who overcame poverty a poor education personal tragedies and professional neglect to achieve great success He also abided by his own set of religious artistic and political values regardless of the consequences This work thus offers the first personal and professional examination of James Larkin Pearson provides insights on North Carolina and its people and examines the benefits and drawbacks of following one s own path

Egyptomaniacs Nicky Nielsen,2020-08-30 An examination of the popular view of ancient Egypt as an exotic esoteric and mystical culture that questions if that view is entirely accurate The Greek historian Hecataeus of Abdera declared during the 4th century BCE that the Egyptian civilization was unsurpassed in the arts and in good governance surpassing even that of the Greeks During the Renaissance several ecclesiastical nobles including the Borgia Pope Alexander VI claimed their descent from the Egyptian god Osiris In the 1920s the discovery of Tutankhamun s tomb in the Valley of the Kings prompted one of the first true media frenzies in history For thousands of years the Pharaonic culture has been a source of almost endless fascination and obsession But to what extent is the popular view of ancient Egypt at all accurate In *Egyptomaniacs* How We Became Obsessed With Ancient Egypt Egyptologist Dr Nicky Nielsen examines the popular view of Egypt as an exotic esoteric mystical culture obsessed with death and overflowing with mummies and pyramids The book traces our obsession with ancient Egypt throughout history and methodically investigates explains and strips away some of the most

popular misconceptions about the Pharaohs and their civilization Praise for Egyptomaniacs I have always been attracted to and fascinated by Ancient Egypt In this superb book Nicky Nielsen explains why we are so caught up in what happened in Ancient Egypt Books Monthly UK

A Big History of Globalization Julia Zinkina,David Christian,Leonid Grinin,Ilya Ilyin,Alexey Andreev,Ivan Aleshkovski,Sergey Shulgin,Andrey Korotayev,2019-04-12 This book presents the history of globalization as a network based story in the context of Big History Departing from the traditional historic discourse in which communities cities and states serve as the main units of analysis the authors instead trace the historical emergence growth interconnection and merging of various types of networks that have gradually encompassed the globe They also focus on the development of certain ideas processes institutions and phenomena that spread through those networks to become truly global The book specifies five macro periods in the history of globalization and comprehensively covers the first four from roughly the 9th 7th millennia BC to World War I For each period it identifies the most important network related developments that facilitated or even spurred on such transitions and had the greatest impacts on the history of globalization By analyzing the world system s transition to new levels of complexity and connectivity the book provides valuable insights into the course of Big History and the evolution of human societies

The Illuminati Adam Weishaupt,2011-10-18 No secret society is more controversial than the Illuminati yet almost nothing of the truth of this mysterious ancient Order is available in the public record Propaganda disinformation paranoia and downright fantasy are rife Some have even described the Illuminati as pan dimensional shape shifting Reptilians from another world The Illuminati have become the peg upon which anyone can hang their favorite and most outlandish conspiracy theories They are the men behind the curtain the ultimate puppetmasters fascists communists bankers Jews monarchists anti monarchists lizards They support big government high taxes and the sinister New World Order based on a single global currency They want to build death camps and reduce the world s population to one billion souls So much for the penny dreadful nonsense churned out by the simple minded pied pipers of Conspiracy World The truth of the real Illuminati is enormously more fascinating and concerns the Holy Grail itself

Heroes, Sages & Madmen A. Roy Horn,2009-08-12 Heroes Sages and Madmen is not a book for everyone but its potent message is about everyone It reveals a direct and honest no nonsense revelation for spiritual aspirants who with courage heroism and sincerity are ready to go beyond the limitations of popular religion academic philosophy physical exercise yoga and mental meditation It is a revealing new fresh and amazing look into the four major traditional Paths of Enlightenment It takes you where very few will go It takes you into the midst of the personal attainments blisses challenges pitfalls and dangers of spiritual practices And it takes you into the consciousness and personal strategies of the far reaching socially popular and pretentious pop guru The seventy nine short conversations in this book are guaranteed to convey many key secret spiritual teachings of the past These secret spiritual teachings are traditionally known only by true and ripe spiritual Heroes and authentic Sages Saints and Yogis Within these pages you can discover what causes the social bondage personal

dissatisfaction and the failing habitual struggles for inner Happiness and Peace In the midst of the enigma and quagmire of ordinary thinking and analytical minds the author reveals and restates many ancient esoteric secrets of spirituality And most importantly the author shows how you can find a way out of your spiritual social and personal dilemmas In the questions and answers in these conversations many universal truths are delineated from major philosophies religions and spiritual practices and then their apparent differences are explored summed up and reconciled The questions and answers in this book originated from dozens of sincere spiritual aspirants from group sessions e mails personal notes formal letters telephone conversations and one on one sessions since the early 1980s Each question and answer is paraphrased by the author The information knowledge and wisdom in this book have been distilled directly from personal experience from a lifetime of spiritual study and practices The questions and answers are direct and sometimes surprising At other times the authors direct answers may challenge the spiritual assumptions of many neophyte and mature spiritual aspirants The purpose of each answer was to directly serve the sincere spiritual aspirants spiritual development and awakening beyond their popular religious academic philosophical and social belief assumptions In addition popular misunderstandings surrounding classical spiritual teachings and their four major traditional Paths of Enlightenment and practice of yoga are described evaluated and discussed in depth And lastly the thinking analytical meditation methods of popular spiritual movements in the West European cultures are considered in contrast to the contemplative meditations of the great Sages Saints and Yogis of the classical East Non European cultures Unfortunately the English language does not lend itself to explain and define the metaphysical principles and concepts of contemplative spirituality Contemporary English is predominately a language of definitions names forms and objects as demonstrated in English as used throughout the material world for business and commerce Other languages such as Sanskrit Pali Tamil and Hebrew are spoken and written to understand and verbally communicate both the dual physical world of objects and the multidimensional transcendental spiritual world beyond social psychology and formulative physics For this reason the author has modified many spelling grammar and syntax rules to emphasize and endeavor to explain contemplative concepts that cannot be explained by academic English Therefore you may discover that many sections may contain imperfect spelling grammar and syntax that are ordinarily absent from professionally produced books To assure the authors metaphysical meani *From Woe to Go!* Clifford J.
