Fashion Stylists Ane Lynge-Jorlen, 2020-08-06 Stylists have become increasingly influential in shaping fashion imagery. They have moved from the backstage as unrecognised players to the frontstage of fashion becoming celebrated for their creative work as image makers for magazines, advertising and fashion designers. Yet little is known about the profession, its diverse incarnations and its aesthetic economy. Featuring contributions from leading experts and stylists, this collection is the first to explore the history, meaning and practice of fashion styling through interviews and historic and present day case studies. Featuring in-depth contributions from prominent fashion scholars, chapters span historical periods, cultural contexts and theoretical frameworks, employing a range of methodologies in the international case studies upon which they are based. Interspersed with interviews with innovative fashion stylists working today and drawing on examples from advertising, the catwalk and magazines, this book explores the challenges faced by stylists in a fashion system increasingly shaped by commercial pressures and by growing numbers of collections and seasons. **Fashion Stylists** is an invaluable resource for students and professionals interested in image making, the representation of style and fashion entrepreneurship and the history of fashion professionals.

Staging Family Nan Mullenneaux, 2018-12-01 Breaking every prescription of ideal femininity, American actresses of the mid nineteenth century appeared in public alongside men, financially supported nuclear and extended families, challenged domestic common law and traveled the globe in the transnational theater market. While these women expanded professional, artistic and geographic frontiers, they expanded domestic frontiers as well. Publicly, actresses used the traditional rhetoric of domesticity to mask their very nontraditional personal lives, instigating historically significant domestic innovations to circumvent the gender constraints of the mid nineteenth century, reinventing themselves and their families in the process. Nan Mullenneaux focuses on the personal and professional lives of more than sixty women who, despite their diverse backgrounds, each made complex conscious and unconscious compromises to create profit and power. Mullenneaux identifies patterns of macro and micro negotiation and reinvention and maps them onto the waves of legal, economic and social change to identify broader historical links that complicate notions of the influence of gendered power and the definition of feminism, the role of the body, embodiment in race, class and gender issues, the relevance of family history to the achievements of influential Americans and national versus inter and transnational cultural trends. While **Staging Family** expands our understanding of how nineteenth century actresses both negotiated power and then hid that power, it also informs contemporary questions of how women juggle professional and personal responsibilities, achieving success in spite of gender constraints and societal expectations.
