Love's Oneing Kerrie Hide, 2022-11-08

Grounded in Christian love mysticism, *Love's Oneing* gives voice to the luminous consciousness that awakens from within our oneness in God in contemplation. With great sensitivity, the book offers nuanced insight into the marriage of kenosis and desire in contemplation through the rich tapestry of writings from nine mystics: Julian of Norwich, the Cloud of Unknowing, author Meister Eckhart, Mechthild of Magdeburg, Clare of Assisi, John of the Cross, Teilhard de Chardin, Beatrice Bruteau, and Ilia Delio. With the delicate eye of a spiritual director immersed in mystical literature, Kerrie Hide situates these mystical teachings within contemplative prayer whilst offering a scholarly exploration of contemplative practice to embody the insights. Deeply grounded in traditional and contemporary mystical classics, Hide celebrates how the Christian mystical tradition lays a foundation for the evolutionary growth of communion consciousness and the insights of quantum science, highlighting key moments in contemplation that when surrendered into open, into divine love, born of intellectual reflection, lived experience, and contemplative wisdom, *Love's Oneing* makes a unique contribution to the existing literature on contemplation at a time when the recovery of the mystical dimension of life is crucial for the future of our planet in this climate crisis moment.

Love as Common Ground Paul S. Fiddes, 2021-09-23

This book explores the way in which the study and practice of love creates a common ground for different faiths and different traditions within the same faith. For the contributors, common ground in this context is not a minimal core of belief or a lowest common denominator of faith, but a space or area in which to live together, consider together the meaning of the love to which various faiths witness and work together to enable human flourishing. Such a space, the contributors believe, is possible because it is the place of encounter with the divine. This book is the fruit of a Project for the Study of Love in Religion which aims to create this space in which different traditions of love converge from Islam, Judaism, and the Christianity of both East and West. Tools employed by the contributors in exploring this space of love include exegesis of ancient texts, theology, accounts of mystical experience, philosophy, and evolutionary science of the human. Insights about human and divine love that emerge include its nature as a form of knowing, its sacrificial and erotic dimensions, its inclination towards beauty, its making of community, and its importance for a just political and economic life.
