Love An Unromantic Discussion:

Love Mary Evans,2002-12-13 Since the end of the eighteenth century the pursuit of true love has been enshrined in the expectations of Western societies We regard this pursuit as our right and organize our lives around it However the possibility that love is becoming more difficult to achieve in the West has begun to attract considerable attention The consensus is that love is both deeply desirable and extremely difficult to find This highly original book explores two aspects of the nature of the apparently socially essential glue of love The first theme concerns the sources of our ideas about love where the concept originated and most importantly what its relationship has been to morality and moral systems The second theme is our determination to find love whatever the social and personal costs the desire for identification with another person drives us to impossible expectations and occasionally damaging alternatives In a compelling critique this book rejects the high romantic version of love as well as what could be described as a contractual version of love In their place it describes a love that depends upon reasoned care and commitment and argues that we should abandon love in its romanticized and commercialized form

Atheism and Love in the Modern Era Colby Dickinson,2025-04-17 Discussing the decline of faith and the rise of love in the modern era Colby Dickinson proposes a critique of religious belief which addresses how a secular world can continue to mine religious traditions for their conceptual and emotional riches Atheism and Love in the Modern Era argues that theism and atheism taken together can peel back the layers of abstraction alienation and disillusionment that always accompany our humanity in order to help us really see how it is to exist in this world To illuminate this vision Dickinson takes up the notion of love as a cultivation and practice of indifference as a letting go of one's identity a crucial concept that unites both religion and atheism through a concerted effort to detach from them both The book is organized into four sections each situating the concept of love in relation to a distinct theme the first outlines modern secularized versions of various religious concepts such as technology in the place of miracles or art in the place of religious

revelation The second argues that in a pluralistic world the actual lived realities of various religious communities and persons defy the static categories and classifications grouped under the umbrella of religion The third section discusses and defines non absolute love The fourth section discusses how atheism in its critiques of religion misses the significance of de centring the act of love Dickinson elaborates his reflections through lucid engagement with a variety of thinkers including i ek Agamben Irigaray Derrida Erich Fromm Charles Taylor and Philip Kitcher This is essential reading for those interested in popular debates around theism and atheism as well as those concerned with the ways in which continental and analytic philosophy have addressed the continued significance of religious traditions

Erotic Love in Sociology, Philosophy and Literature Finn Bowring, 2019-08-22 Why is love taken for granted as a part of human experience And why is sexual or romantic love in particular so important to us This book aims to find out tracing the intellectual history of sexual love from the ancient Greeks to the modern day *Erotic Love in Sociology Philosophy and Literature* shows how discourses of love have intersected with social and cultural trends as well as with personal events and experiences Beginning with the queering of love in Greek antiquity it looks at how sexual love has been sung about fictionalized and theorized as a cornerstone of the formation of Western culture From the courtly love of twelfth century troubadours and the rise of affective individualism in the eighteenth century to the way the novel helped catalyze and crystallize the hopes and contradictions of love and marriage these are decisive episodes in the history of romantic love Lastly the book deals with how sociologists and feminist theorists have made sense of the liberalization of sexuality over the last fifty years especially given the post romantic pragmatism of commercialized dating practices Arguing against the over rationalism of intimate life *Erotic Love in Sociology Philosophy and Literature* recognizes the need to liberate love from patriarchal racist and homophobic prejudices and highlights the value of literary and sociological traditions to emphasize how they dignify the rhapsodies and the sufferings of love

Love Anna G.

Jónasdóttir, Ann Ferguson, 2013-11-12 This unique timely book of original essays sets the stage for a new materialist feminist debate on the analysis ethics and politics of love The contributors raise questions about social power and domination situating their research in a materialist feminist perspective that investigates love historically in order to understand changing ideologies representations and practices The essays range from studies of particular representations and examples of love feminist translation mass media images and internet love blogs to feminist theories of love and marriage to ethical and political theories describing critiquing or advocating the use of love in groups as a radical force They break new ground in bringing together questions of gendered interests in love temporal dimensions of loving practices and the politics of love in radical transformations of society *Love: Bondage or Liberation?* Deirdre Johnson, 2018-03-26 Much has been written

about the function of falling in love in the course of therapy itself This book has a much broader aim The author a Jungian analyst and psychotherapy trainer uses her teaching and clinical experience to illuminate the whole range of this near universal human experience How and why does falling in love affect us so profoundly How can it enhance who we are or must it ultimately fade without lasting value The author argues that the many valuable studies by psychoanalysts relational psychologists anthropologists neuroscientists and philosophers have all made valuable contributions and uses these to highlight and explore the many values and dangers inherent in passionate love However she claims that a more holistic approach is required to show how these various accounts can be seen as complementary rather than competing and can be accommodated within an overarching view of the integration of the human being in its heights and depths **Romantic**

Modern Couples? Jenny van Hooff,2016-04-15 Have heterosexual relationships become more intimate and equal over the past forty years Simply put this is the central question underpinning this book Within the context of late modern social processes including most notably individualization and detraditionalization authors such as Giddens Beck and Beck Gernsheim and Bauman have come to focus on a posited transformation of personal relationships This has culminated in a sociological debate over the nature of contemporary relationships with proponents of change celebrating the emergence of an intimacy based on personal satisfaction rather than traditional obligations Detractors reject this interpretation and instead lament what they consider to be the destruction of commitment and the demoralisation of personal relationships by the rise of individualism and consumerism While these two entrenched positions have dominated the debate a third marginalised perspective has emerged which questions the extent to which contemporary relationships have become detraditionalized and emphasises evidence of continuing gender inequalities This book is essentially a qualitative empirical investigation of the changes and continuities posited within the debate which evaluates existing work and details the findings of van Hooff s research into the relationships of two generations of heterosexual couples It provides the reader with a grounded interpretation of the evidence questioning to what extent lived reality has matched the rhetoric within contemporary relationships

Transnational Homosexuals in Communist Poland Lukasz Szulc,2017-07-03 This book traces the fascinating history of the first Polish gay and lesbian magazines to explore the globalization of LGBT identities and politics in Central and Eastern Europe during the twilight years of the Cold War It details the emergence of homosexual movement and charts cross border flows of cultural products identity paradigms and activism models in communist Poland The work demonstrates that Polish homosexual activists were not locked behind the Iron Curtain but actively participated in the transnational construction of homosexuality Their magazines were largely influenced by Western magazines used similar words discussed similar topics or simply translated Western texts and

reproduced Western images. However, the imported ideas were not just copied but selectively adopted as well as strategically and creatively adapted in the Polish magazines so their authors could construct their own unique identities and build their own original politics.

Making Our Own Destiny Lynne Y. Nakano, 2022-03-31 In East Asia's largest cities, hundreds of thousands of women remain single into middle age and beyond, giving rise to a demographic transformation with profound implications for their societies. Labeled in the media as loser dogs and parasites in Japan and leftover women in mainland China and Hong Kong, single women in East Asia are criticized for being choosy, selfish, and overly independent. Based on ethnographic research and interviews with more than a hundred single women in Shanghai, Hong Kong, and Tokyo, *Making Our Own Destiny* is the first study to comprehensively compare the views and experiences of single women living in these three great cities, cities that stand at the forefront of the region's movement toward later marriage and rising singlehood. This well-researched book explores how single women attempt to take advantage of unprecedented opportunities for success in education and work while navigating marriage and family expectations. Unlike their counterparts in Europe and North America, many do not have romantic partners and most do not have children. What do these women want? How do they see themselves and their place in society? What are their values, goals, and dreams? As they work to balance opportunities with expectations, single women in urban East Asia find themselves deeply embedded in the caregiving systems of their societies. In Shanghai, author Lynne Nakano finds single women rushing to marry to enter intergenerational relationships of care. In Hong Kong, they consider the risks of marriage as they tend to the needs of natal and extended families. In Tokyo, many single women hope to marry to have children, while others find a place for themselves in their families as elder caregivers. Nakano's intimate portrayals not only expose meticulously planned family strategies gone awry, engagements broken, and careers abandoned, but also highlight the experiences of women embracing the joys of remaining single. Hers is a fascinating study of modern women finding meaning in their lives while offering an insightful glimpse into the future of urban families in an age of low fertility and long transitions into adulthood.

The Tenacity of the Couple-Norm Sasha Roseneil, Isabel Crowhurst, Tone Hellesund, Ana Cristina Santos, Mariya Stoilova, 2020-11-05 *The Tenacity of the Couple Norm* explores the ongoing strength and insidious grip of couple normativity across changing landscapes of law, policy, and everyday life in four contrasting national contexts: the UK, Bulgaria, Norway, and Portugal. By investigating how the couple norm is lived and experienced, how it has changed over time, and how it varies between places and social groups, this book provides a detailed analysis of changing intimate citizenship regimes in Europe and makes a major intervention in understandings of the contemporary condition of personal life. The authors develop the feminist concept of intimate citizenship and propose the new concept of intimate citizenship regime, offering a study of intimate citizenship regimes as normative systems that have been undergoing profound change in recent decades. Against the backdrop of processes of depatriarchalization, liberalization, pluralization, and homonormalization, the ongoing potency of the couple norm becomes ever clearer.
