Magic, Witchcraft, and Ghosts in the Enlightenment Taylor & Francis Group, 2022-03-18 Magic Witchcraft and Ghosts in the Enlightenment argues for the centrality of magical practices and ideas throughout the long eighteenth century Although the hunt for witches in Europe declined precipitously after 1650 and the intellectual justification for natural magic came under fire by 1700 belief in magic among the general population did not come to a sudden stop The philosophes continued to take aim at magical practices alongside religion as examples of superstitions that an enlightened age needed to put behind them In addition to a continuity of beliefs and practices the eighteenth century also saw improvement and innovation in magical ideas the understanding of ghosts and attitudes toward witchcraft The volume takes a broad geographical approach and includes essays focusing on Great Britain England and Ireland France Germany and Hungary It also takes a wide approach to the subject and includes essays on astrology alchemy witchcraft cunning folk ghosts treasure hunters and purveyors of magic With a broad chronological scope that ranges from the end of the seventeenth century into the early nineteenth century this volume is useful for undergraduates postgraduates scholars as well as those with a general interest in magic witchcraft and spirits in the Enlightenment

Magic and Witchcraft George Moir, 2016-04-02 From the Preface WE have long wished that some English or foreign university would offer a prize for a history of Magic and Witchcraft The records of human opinion would contain few chapters more instructive than one which should deal competently with the Black Art For gross and painful as the details of superstition may be yet superstition by its very etymology implies a dogma or a system of practice standing upon some basis of fact or truth and however vain or noxious the superstructure may be the foundation of it is in some way connected with those deep verities upon which rest also the roots of philosophy and religion For a grand error and such alone can at any time essentially affect the opinions of mankind in general is ever the imitation or caricature of some grand truth From one soil spring originally the tree which yields good fruit and the plant which distils deadly poison The very discernment of the causes of error is a step towards the discovery of its opposite The bewilderments of the mind of man when fully analyzed afford a clue to the course of its movements from the right track or at least enable us to detect the point at which began the original separation between Truth and Error Alchemy led by no very circuitous route to the science of chemistry the adoption of false gods by the majority of the human race rendered necessary the dispensations of the Jewish and Christian schemes and the corruption of true reverence for the Good the Beautiful and the Holy was the parent of those arts which under the several appellations of Magic Witchcraft Sorcery etc drew their professors at first and the multitude afterwards to put faith in the evil the deformed and the impure Magic and Witchcraft are little more than the religious instincts of mankind first inverted then polluted and finally like all corrupted matter impregnated with the germs of a corrupt vitality So universal is the belief in spiritual influences and more especially in their malignant influences that no race of men no period of time no region of the globe have been exempt from it It meets us in the remote antiquity of Asiatic life in the comparatively recent barbarism of the American borigines in the creeds of all the nations who ranged off thousands of years ago eastward and westward from their Caucasian cradle in the myths he observances and the dialects of nations who have no other affinity with one another than the mere form of man No nation indeed can reproach another nation with its addiction to magic without in an equal degree condemning itself All the varieties of mankind have in this respect erred alike at different periods of their social existence and all accordingly come under the same condemnation of making and loving a lie The Chaldean erred when dissatisfied with simple observation of the heavenly bodies through the luminous atmosphere of his plains he perverted astronomy into astrology the Egyptian erred when he represented the omnipresence of the Deity by the ubiquity of animal worship the Hindoo erred when having conceived the idea of an incarnation he clothed with flesh and fleshly attributes the members of his monstrous pantheon the Kelt and Teuton erred when in their silent and solitary forests they stained the serenity of nature with the deified attributes of war and the more settled and civilized races who built and

inhabited the cities of the ancient world erred in their conversion of the indivisible unity of the Demiourgos or World Creator into an anthropomorphic system of several gods Rethinking the Anthropology of Magic and Witchcraft Phillips Stevens, Jr.,2023-12-12 This book introduces students to the anthropology of magic and witchcraft terms widely used but with no widely accepted definitions It takes a new approach to this area within the anthropology of religion demonstrating that the bases for these beliefs and alleged practices are inherent in human cognition and psychology even instinctual and likely rooted in our evolutionary biology It shows how magic and magical thinking are regular elements in people s daily lives and that understanding the components of the witchcraft complex offers surprisingly important insights into patterns of thinking and social behavior The book reviews the many meanings of magic and witchcraft and introduces the best anthropological meanings of the terms The components of these beliefs are timeless and universal this fact and recent advances in the brain sciences suggest that the principles of magic are derived from basic processes of human thinking and the attributes of the witch derive from neurobiologically based fears and fantasies The propensity for such beliefs probably had adaptive significance in the evolutionary development of the human species they are inherently human This book is intended to focus anew on the core concepts of magic witchcraft and the supernatural while also serving as an introduction to the anthropology of religion for undergraduate and graduate level courses **Exorcising our Demons: Magic, Witchcraft and Visual**

Culture in Early Modern Europe Charles Zika,2021-10-11 This collection of sixteen essays deals with the role of magic religion and witchcraft in European culture 1450 1650 and the critical role of the visual in that culture It covers the relationship of humanism and magic the intersection of religious ritual orthodoxy and power the discursive links between the visual language of witchcraft and contemporary anxieties about sexuality and savagery The introductory chapter urges us to exorcise our tendency to reduce historical experiences of the demonic to forms of unreason created in a distant past Only then can we understand the role of the demonic in our historical definition of the self and the other Richly illustrated with 112 images the book will interest historians and art historians **A History of Magic, Witchcraft and Occultism** William Bernard Crow,1970 *Magic and Superstition in Europe* Michael D. Bailey,2007 The only comprehensive single volume survey of magic available this compelling book traces the history of magic and superstition in Europe from antiquity to the present Focusing mainly on the medieval and early modern era Michael Bailey also explores the ancient Near East

Examining issues of identity gender and morality the author argues that the otherworld forms a central defining characteristic of magical practice Integrating an experiential ethnographic approach with an analysis of magic this book asks penetrating questions about the nature of otherworldly knowledge and argues that our scientific frameworks need re envisioning It is unique in providing an insider s view of how magic is practised in contemporary western culture **The Complete book of magic and witchcraft** Kathryn Paulsen,1980 Magic and Witchcraft Michael David Bailey,2014 This new four volume collection part of Routledge s Critical Concepts in Historical Studies series brings together the key writing from the vast body of literature on magic and witchcraft Fully indexed and including a new introduction by the editor it is an essential research resource for student and scholar
