Barz, Timothy J. Cooley, 2008-09-09 Ethnomusicological fieldwork has significantly changed since the end of the the 20th century Ethnomusicology is in a critical moment that requires new perspectives on fieldwork perspectives that are not addressed in the standard guides to ethnomusicological or anthropological method The focus in ethnomusicological writing and teaching has traditionally centered around analyses and ethnographic representations of musical cultures rather than on the personal world of understanding experience knowing and doing fieldwork Shadows in the Field deliberately shifts the focus of ethnomusicology and of ethnography in general from representation text to experience fieldwork The new fieldwork moves beyond mere data collection and has become a defining characteristic of ethnomusicology that engages the scholar in meaningful human contexts In this new edition of Shadows in the Field renowned ethnomusicologists explore the roles they themselves act out while performing fieldwork and pose significant questions for the field What are the new directions in ethnomusicological fieldwork Where does fieldwork of the past fit into these theories And above all what do we see when we acknowledge the shadows we cast in the field The second edition of Shadows in the Field includes updates of all existing chapters a new preface by Bruno Nettl and seven new chapters addressing critical issues and concerns that have become increasingly relevant since the first edition      *Christians and Jews in the Ottoman Arab World* Bruce Masters, 2004-03-25 Masters explores the history of Christians and Jews in the Arab provinces of the Ottoman empire and how their identities as non Muslims evolved over four hundred years At the start of this period in the sixteenth century social community was circumscribed by religious identity and non Muslims lived within the hierarchy established by Muslim law In the nineteenth century however in response to Western influences a radical change took place Conflict erupted between Muslims and Christians in different parts of the empire in a challenge to that hierarchy This marked the beginning as the author illustrates of the tensions which have to a large extent inspired the nationalist and religious rhetoric in the empire s successor states throughout the twentieth century In this way Masters negotiates the present through the past His book will make a major contribution to an understanding of the political and religious conflicts of the modern Middle East      **Ethnicity and Race in the U.S.A** Richard Alba, 2022-11-30 First published in 1988 Ethnicity and Race in the U S A is a collection of studies by leading scholars of ethnicity and race in the U S A Including chapters on Blacks American Indians Hispanics Asian Americans and white ethnicities it provides a data based
