The Magic of Forgiveness Tian Dayton, 2003-04-30 In midlife our brains rewire us to resolve old wounds become more self reflective and grow personally and spiritually The Magic of Forgiveness Tian Dayton, 2010-01-01 Forgiveness is not an event it is a process Forgiveness is most powerful when a woman reaches midlife a natural time for reflection when she stands at a biological and emotional crossroads In this groundbreaking book the first of its kind for women acclaimed therapist Tian Dayton shows women how assessing their lives and forgiving old wounds is as essential to their well being as proper nutrition and retirement planning In forgiving we must work through layers of issues pain and resentment Because of this the process is of great psychological emotional and spiritual benefit Left unresolved past hurts wield their power from within and can contribute to depression and anxiety undermining the immune system and ultimately opening the door to a multitude of diseases And harboring resentment prevents us from engaging in deep meaningful relationships Through solid research poignant case studies and personal examples Dr Dayton guides women through the sometimes painful but healing process to provide the comfort that may have eluded them for years This beautifully written book will open women's eyes to the liberating power of forgiveness and provide the ability to find true joy Emotional Sobriety Tian Dayton, 2010-01-01 Picking up right at the point where Janet Woititz's 1990 hit book *Adult Children of Alcoholics* left off clinical psychologist Tian Dayton's latest contribution contains fresh perspectives and new analysis on how to gain back emotional stability after growing up with the trauma of addiction abuse and dysfunction Dr Dayton accomplishes this by presenting and explaining the latest research in neuropsychology and the role trauma plays on chemically altering the brain With compassion and clear explanations and her own personal journey Dayton teaches readers how to undo the neuropsychological damage of trauma to rewire the brain and reverse the negative effects trauma has on our future relationships and behaviors to gain emotional sobriety In *Emotional Sobriety* Dr Dayton teaches readers How to understand the mind body relationship of addiction and relationship trauma How to rewire your brain to undo the negative effects trauma has on personal career and romantic relationships How changing the way one lives and perceives adult relationships can change the way one thinks and feels and vice versa **The Father Factor** Stephan B. Poulter, Ph.D, 2010-12 The father factor is the conscious understanding awareness and appreciation of the critical influence that your father had still has or could have in your career development and future potential Noting that the father son or father daughter relationship is one of the least understood relationships in adult life Dr Poulter helps you become acutely aware of the immeasurable impact negative or positive that your father has on your ability to relate to other people From this recognition you will also learn to move past the career roadblocks that frequently stem from the lingering effects of your father's influence Defining five main styles of fathering Dr Poulter devotes a chapter each to The Superachiever Father The Time Bomb Father The Passive Father The Absent Father whether physically or emotionally The Compassionate Mentor Father By becoming aware of how your father related to you

particularly in a destructive relationship you'll understand how your career relationships in many ways mirror your degree of comfort with your father's emotional legacy. In this way career roadblocks often based on interactions with people on the job will be more easily transformed into career building blocks that will lead to advancement and success. On the Shoulders of Giants Rhondalynn Korolak, 2008. On the Shoulders of Giants is not another book about how to develop a positive attitude or use the law of attraction; it's about what really works and why. Based on her struggle to rebuild her life after the senseless murder of her mother, Rhondalynn brilliantly demonstrates how to make profound shifts in your life: work, finances, health, relationships, and more. Whether you are going through a troubled time or just looking for real ways to live better, much better.

Hormone Treatment Is Called Harmful. Washington Post 7-10-02. Estrogen Use Linked to Higher Cancer Risk. Boston Globe 7-17-02. 31.2 million women facing menopause in America are concerned by these headlines. Most women today will live over one-third of their lives post-menopausal, but what about the age-old solution of hormone replacement therapy? In 2002 the U.S. government halted a major study of hormone therapy because it increased the risk of invasive breast cancer. Now millions of women are left wondering whether they should approach menopause without hormones, suffering from hot flashes and low sex drive, or take hormones and live in fear of being another statistic. Suza Francina has a simpler solution: Yoga. In this practical book, Francina, a leading yogi and author of *The New Yoga for People Over 50*, shows how yoga can be a powerful tool to help women turn menopause into a positive and empowering experience, both physically and spiritually. Included are easy-to-follow, indexed photos of yoga poses that alleviate key menopausal problems, including hormonal changes, hot flashes, irregular bleeding, fibroids, stress, and anxiety, mood swings, depression, and fatigue, bone loss, heart disease, and cancer. Francina delivers a timely and truly heartening message to women: you don't have to get weaker or depressed when facing menopause; it can truly be an empowering, restorative time.
