Through the portal Wesley Wang,2024-11-22 Once there was only a whisper the legend of a being caught between life and death a master of shadows who bore the secrets of forgotten magic This legend was forgotten until today Reborn in iron armor and with a sword as cold as the grave a new power has arisen bound to a destiny as twisted as the dark magic that flows through his veins But the world is no longer the same Old empires have crumbled gods have fallen silent and humanity clings to survival under the shadow of cruel beasts and tyrants In a realm full of ancient terrors a lone warrior rises a fragile spark in an endless storm armed with cursed magic and an unbending will Now a path of rebellion is forged through this unforgiving world With every step secrets come to light that would have been better left buried and powers emerge that can hardly be restrained Forged anew in the fire of revenge unstoppable and implacable this new champion marches toward an uncertain destiny This world has not yet known true darkness but that will soon change Welcome to the edge of the unknown

On my return from the first exploration of the canyons of the Colorado I found that our journey had been the theme of much newspaper writing A story of disaster had been circulated with many particulars of hardship and tragedy so that it was currently believed throughout the United States that all the members of the party were lost save one A good friend of mine had gathered a great number of obituary notices and it was interesting and rather flattering to me to discover the high esteem in which I had been held by the people of the United States In my supposed death I had attained to a glory which I fear my continued life has not fully vindicated The exploration was not made for adventure but purely for scientific purposes geographic and geologic and I had no intention of writing an account of it but only of recording the scientific results Immediately on my return I was interviewed a number of times and these interviews were published in the daily press and here I supposed all interest in the exploration ended But in 1874 the editors of Scribner s Monthly requested me to publish a popular account of the Colorado exploration in that journal To this I acceded and prepared four short articles which were elaborately illustrated from photographs in my possession In the same year 1874 at the instance of Professor Henry of the Smithsonian Institution I was called before an appropriations committee of the House of Representatives to explain certain estimates made by the Professor for funds to continue scientific work which had been in progress from the date of the original exploration Mr Garfield was chairman of the committee and after listening to my account of the progress of the geographic and geologic work he asked me why no history of the original exploration of the canyons had been published I informed him that I had no interest in that work as an adventure but was interested only in the scientific results and that these results had in part been published and in part were in course of publication Thereupon Mr Garfield in a pleasant manner insisted that the history of the exploration should be published by the government and that I must understand that my scientific work would be continued by additional appropriations only upon my promise that I would publish an account of the exploration I made the promise and the task was immediately undertaken Worlds of Wonder C.
