## **Magical Practice Applying Magical Training To You:**

*The Covert Side of Initiation* Virgil, For decades members of the esoteric community have considered anyone with magical skills and abilities to be a magician As a result there are few magical training systems designed to turn students into magicians and many magical training systems designed to turn students into people with magical skills and abilities The magical training system developed by the Czech adept Franz Bardon and contained in his three books *Initiation into Hermetics* *The Practice of Magical Evocation* and *The Key to the True Quabbalah* is designed to turn students into magicians Unfortunately many students of the system seek only to become people with magical skills and abilities rather than genuine magicians For this reason they often spend years stuck on the system's basic exercises In this book Virgil discusses some key components of magical training that are hinted at but not expounded upon in the text of Bardon's books Completion of these components is what distinguishes people who are magicians from people who merely possess magical skills and abilities In the process of discussing these components Virgil also elaborates on magical principles explained in his previous books offers helpful advice for common problems magicians will encounter during their training and elucidates one of the most misunderstood exercises of Bardon's training system

High Magic U. D. (Frater), Frater U.:D.:2005 Of course Magic is Magic wherever But Ceremonial Magic with or without a k ending is perceived as largely European in origin and practice The Golden Dawn Aurum Solis O T O were European and even AMORC B O T A G B G were mostly European inspired As valid as these esoteric orders were and are they are at best schools and the knowledge taught is now widely available What is key is not the knowledge but the self accomplishment that comes only through personal experience otherwise known as self initiation The essence of Magic is a simple formula based on the exercise of Will Imagination and Gnosis or Magical Trance It is a technology and must be mastered like any technology through understanding and practice Like playing the piano it takes discipline to continue practicing basic exercises until it all becomes second nature and can function as an art as well And what for Not to perform tricks or miracles Not to wear fancy robes and chant barbarous words Not to reach high degrees with grand titles in a secret order No it is to transform and transmute your own self and thus to become more than you were not merely to accelerate normal human evolution but to actually move beyond and be a co creator And to finally answer those questions Who am I Where did I come from Where am I going High Magic is an active program for self discovery and Self Realization This book by a famed contemporary German magician self instructs the student through a series of basic exercises and real magical practices that train the magician through a consistent program combined with examples and explanations Each step is thorough without extravagance the program is effective and entirely self directed as must be all real learning the book is encyclopedic in depth and inclusive even of chaos and cyber magic Tables and Charts simplify the learning process The system starts with immediate immersion in ritual practice starting with the Kabbalistic Cross and Lesser Banishing Ritual of the Pentagram and moves through beginning to advanced levels of Practical Sigil Magic Ritual

Magic Elemental Magic the Greater Ritual of the Pentagram Planetary Magic the Hexagram Ritual Mantra Meditation the Magical Gaze Magical Trance the Pan Ritual Money Magic Talisman Magic Moon Magic Chaos Magic and Cyber Magic In each case practice is used to instruct nothing is presented as theory only You will find everything analyzed explained and justified with refreshing and truly uncommon common sense The author fully dispels the myths and subterfuges of archaic magical orders and explores the role of the Unconscious Mind the issues of Religion and Mysticism the nature of High and Low Magic the function of Myth and the role of Drama in Ritual the Magical Nature of Reality and Magical Perception Dream Work in relation to Magical Training the Magical Imagination and training for Visualization Psychic Protection Invocation and Evocation the Calling and Movement of Energies Charging Paradigm Shifting what is really means to Keep Silent the power of Intention definition of Magical Goals the ritual use of Symbols and Gestures the power of Words the Magician s Universe the magical pronunciation of Hebrew Letters the Magician s Tools Mantric Sigils the IAO formula and much more High Magic is as central to Western culture as are science technology the rule of law democracy and the entrepreneurial economy Its practice and application should be part of your daily life starting now

**Secrets of Western Sex Magic** U. D. Frater, U. D. (Frater), 2001

**HARNESS THE MOST POWERFUL ENERGIES YOU HAVE EVER EXPERIENCED** Unlock the powerful energies raised during the sex act and use them to manifest your deepest desires During the sex act your attention becomes focused into a laser beam of concentration This power of concentrated thought is the foundation of all magical systems Sex Magic s secret is that it s a tremendously powerful and easily learned way to consciously direct sexual energy and accomplish material and personal goals Male and female energies are often entirely different and it would be folly to deny this but experience shows that female magicians can be particularly successful in using and developing Sex Magic Consequently this book is aimed at both male and female readers unlike more traditional teachings written for men Of all secret lore Sex Magic has been reputed through the centuries to be the most dangerous Today we know that this attitude was largely a reflection of the hostility held towards the flesh held by repressive religions If we learn one thing from the shamanic cultures it is the strong emphasis upon the role of the body in magic Mind and Body are two facets of the One Thing in which Will Imagination and Gnostic Trance are the three pillars of success Contrary to the principles of Eastern Tantra Western Sex Magic emphasizes the importance of actual orgasm both male and female Orgasm is the moment when the walls between consciousness and subconsciousness are sundered and direct access to the deeper levels of the psyche become possible freeing up possible paranormal powers Orgasm itself is sufficient to achieve gnostic trance provided that control is maintained and one does not simply lose consciousness as most people do at the moment of ecstasy Secrets Western Sex Magic teaches one of the oldest disciplines of this secret lore It is a complete system of Sex Magic in theory and practice with exercises to develop related abilities for visualization concentration breath control psychic energy arousal and flow along with full instructions on the projection of sexual energies for healing and manifestation their use in Sigil Magic and the
