Kafka and Wittgenstein Rebecca Schuman, 2015-11-15 In *Kafka and Wittgenstein* Rebecca Schuman undertakes the first ever book length scholarly examination of Ludwig Wittgenstein's philosophy of language alongside Franz Kafka's prose fiction In groundbreaking readings she argues that although many readers of Kafka are searching for what his texts mean in this search we are sorely mistaken Instead the problems and illusions we portend to uncover the important questions we attempt to answer Is Josef K guilty If so of what What does Gregor Samsa's transformed body mean Is Land Surveyor K a real land surveyor themselves presuppose a bigger delusion that such questions can be asked in the first place Drawing deeply on the entire range of Wittgenstein's writings Schuman can not only shed new light on the enigmatic Kafka *A Culture of Ambiguity* Thomas Bauer, 2021-06-08 In the Western imagination Islamic cultures are dominated by dogmatic religious norms that permit no nuance Those fighting such stereotypes have countered with a portrait of Islam's medieval Golden Age marked by rationality tolerance and even proto secularism How can we understand Islamic history culture and thought beyond this dichotomy In this magisterial cultural and intellectual history Thomas Bauer reconsiders classical and modern Islam by tracing differing attitudes toward ambiguity Over a span of many centuries he explores the tension between one strand that aspires to annihilate all uncertainties and establish absolute uncontested truths and another competing tendency that looks for ways to live with ambiguity and accept complexity Bauer ranges across cultural and linguistic ambiguities considering premodern Islamic textual and cultural forms from law to Quranic exegesis to literary genres alongside attitudes toward religious minorities and foreigners He emphasizes the relative absence of conflict between religious and secular discourses in classical Islamic culture which stands in striking contrast to both present day fundamentalism and much of European history Bauer shows how Islam's encounter with the modern West and its demand for certainty helped bring about both Islamicist and secular liberal ideologies that in their own ways rejected ambiguity and therefore also their own cultural traditions Awarded the prestigious Leibniz Prize *A Culture of Ambiguity* not only reframes a vast range of Islamic history but also offers an interdisciplinary model for investigating the tolerance of ambiguity across cultures and eras **Legacy Of Franz Rosenzweig** Luc Anckaert, Martin Brasser, Norbert Max Samuelson, 2004 A representative survey of the contemporary Rosenzweig research gathering the state of affairs of the main spearheads of the research and it highlights the incentives for the programs to come *Language Behavior in Therapy Groups* Ruth Wodak, 1986-01-01 *Letters of Love* Ephraim Meir, 2006 Rosenzweig's and Margrit Gritli Rosenstock Huessy's letters numbered more than 1000 This does not make a full study of the philosopher's life and thought 1000 times more difficult instead the letters illuminate and explain much about Rosenzweig's ideas and works particularly his *Star of Redemption* Meir's modern Jewish philosophy Bar Han U Israel starts the process of analyzing the letters with his commentary on their

implications to Rosenzweig's ideas on dialogical thinking Rosenzweig's building of the Star of Redemption in terms of personal and relational thought anti monism creation revelation redemption and miracle as relational categories the perspectives of the letters on Judaism and Christianity the relevance of the letters to key words and central ideas in Star of Redemption such as transition threshold and gate and the impact on communication sickness and the New Law

Benjamin's Passages Alexander Gelley, 2014-12-15 In transposing the Freudian dream work from the individual subject to the collective Walter Benjamin projected a macrosomic journey of the individual sleeper to the dreaming collective which through the arcades communes with its own insides Benjamin's effort to transpose the dream phenomenon to the history of a collective remained fragmentary though it underlies the principle of retrograde temporality which it is argued is central to his idea of history The passages are not just the Paris arcades They refer also to Benjamin's effort to negotiate the labyrinth of his work and thought Gelley works through many of Benjamin's later works and examines important critical questions the interplay of aesthetics and politics the genre of The Arcades Project citation language messianism aura and the motifs of memory the crowd and awakening For Benjamin memory is not only antiquarian it functions as a solicitation a call to a collectivity to come Gelley reads this call in the motif of awakening which conveys a qualified but crucial performative intention of Benjamin's undertaking Jenseits von Partei-Ideologien Alexander Plitsch, 2014-04-11 Inhaltsangabe
