Rulers and Rulership in the Arc of Medieval Europe, 1000-1200 Christian Raffensperger, 2023-08-24 *Rulers and Rulership in the Arc of Medieval Europe* challenges the dominant paradigm of what rulership is and who rulers are by decentering the narrative and providing a broad swath of examples from throughout medieval Europe Within that territory the prevalent idea of monarchy and kingship is overturned in favor of a broad definition of rulership This book will demonstrate to the reader that the way in which medieval Europe has been constructed in both the popular and scholarly imaginations is incorrect Instead of a king we have multiple rulers male and female ruling concurrently Instead of an independent church or a church striving for supremacy under the Gregorian Reform we have a pope and ecclesiastical leaders making deals with secular rulers and an in depth interconnection between the two Finally instead of a strong centralizing polity growing into statehood we see weak rulers working hand in glove with weak subordinates to make the polity as a whole function Medievalists Byzantinists and Slavists typically operate in isolation from one another They do not read each other's books or engage with each other's work This book requires engagement from all of them to point out that the medieval Europe that they work in is one and the same and demands collaboration to best understand it
