## **Maidens Consent:**

**The Maiden's Consent** Leandro Fernández de Moratín, 1962      *Vanishing Sensibilities* Kristina Muxfeldt, 2012-01-19

*Vanishing Sensibilities* examines once passionate cultural concerns that shaped music of Schubert Beethoven Schumann and works of their contemporaries in drama or poetry Music especially music with text was a powerful force in lively ongoing conversations about the nature of liberty which included such topics as the role of consent in marriage same sex relationships freedom of the press and the freedom to worship or not Among the most common vehicles for stimulating debate about pressing social concerns were the genres of historical drama and legend or myth whose stories became inflected in fascinating ways during the Age of Metternich Interior and imagined worlds memories and fantasies were called up in purely instrumental music and music was privately celebrated for its ability to circumvent the restrictions that were choking the verbal arts Author Kristina Muxfeldt invites us to listen in on these cultural conversations dating from a time when the climate of censorship made the tone of what was said every bit as important as its literal content At this critical moment in European history such things as a performer's delivery spontaneous improvisation or the demeanor of the music could carry forbidden messages of hope and political resistance flying under the censor's radar like a carrier pigeon Rather than trying to decode or fix meanings Muxfeldt concerns herself with the very mechanisms of their communication and she confronts distortions to meaning that form over time as the cultural or political pressures shaping the original expression fade and are eventually forgotten In these pages are accounts of works successful in their own time alongside others that failed to achieve more than a liminal presence among them Schubert's *Alfonso und Estrella* and his last opera project *Der Graf von Gleichen* whose libretto was banned even before Schubert set to work composing it Enlivening the narrative are generous music examples reproductions of artwork and facsimiles of autograph material      *The Cambridge History of European Romantic Literature* Patrick Vincent, 2023-11-09 Examining Romanticism's pan European circulation of people ideas and texts this history re-analyses the period and Britain's place in it      *Adapting Spanish Classics for the New Millennium* Linda M. Willem, 2022-08-30 The twenty first century's turn away from fidelity based adaptations toward more innovative approaches has allowed adapters from Spain Argentina and the United States to draw upon Spain's rich body of nineteenth century classics to address contemporary concerns about gender sexuality race class disability celebrity immigration identity social justice and domestic violence This book provides a snapshot of visual adaptations in the first two decades of the new millennium examining how novelistic material from the past has been remediated for today's viewers through film television theater opera and the graphic novel Its theoretical approach refines the binary view of adapters as either honoring or opposing their source texts by positing three types of adaptation strategies salvaging which preserves old stories by giving them renewed life for modern audiences utilizing which draws upon a pre-existing text for an alternative purpose building upon the story and creating a shift in emphasis without devaluing the source material and appropriation

which involves a critique of the source text often with an attempt to dismantle its authority Special attention is given to how adapters address audiences that are familiar with the source novels and those that are not This examination of the vibrant afterlife of classic literature will be of interest to scholars and educators in the fields of adaptation media Spanish literature cultural studies performance and the graphic arts
