*Maigret, Lognon and the Gangsters*

Georges Simenon, 2017-08-01 A writer as comfortable with reality as with fiction with passion as with reason John Le Carr  
Inspector Maigret goes up against a group of American gangsters and finds he just might have met his match In Maigret's latest adventure the Inspector learns that his hapless colleague Lognon is being menaced by some notorious American mobsters and he makes it his mission to bring them to justice despite threatening warnings that he is out of his depth As the stakes get higher Maigret must rely on intel from his FBI friend in Washington D C as well as his own ingenuity to smoke the Americans out before they can complete the job and silence his star witness permanently *A Theory of Local Entrepreneurship in the Knowledge Economy* Pierre-André Julien, 2008-01-01 The principal audience for this book seems to be deliberately and most certainly an academic one that said those practitioners from a business management or central local government support agency background might also find the text a useful resource Intrinsically those employed teaching and researching within the fields of entrepreneurship or regional economic development will find this publication an invaluable and indispensable reference tool After an excellent cohesive and informative introductory chapter which places the book firmly in the field of regional entrepreneurship theory development the reader is effortlessly prepared for the intellectually challenging read ahead this book is well laid out and it is easy for the reader to pick up the thread of the argument even after a lay off The endnotes after each chapter are useful and comprehensive adding richness to the text through the additional information The bibliography is as comprehensive as it is exhaustive Professor Julien has given us a book that presents both an interesting and alternative perspective to the field of entrepreneurial cross disciplinary research Paul J Ferri International Journal of Entrepreneurial Behaviour and Research it is my view that this book gives a very important contribution for the understanding of development of local entrepreneurship through its cross disciplinary approach I see the book is especially interesting from an entrepreneurship and a regional development perspective this book should inspire research that takes a more holistic approach using different levels of analysis and applies it to economic development at a local territorial level when studying entrepreneurship Einar Lier Madsen International Small Business Journal The reader who is interested in entrepreneurship and or regional development will find this book a welcome contribution to the field Rainer Harms Entrepreneurship and Innovation For too long researchers have regarded local dynamism as the result of the actions of certain entrepreneurs If this were the case how could we explain the simultaneous presence of winning stagnating or declining areas with very similar socioeconomic profiles within the same region Departing from this restrictive and somewhat inadequate approach Pierre Andr Julien considers entrepreneurship as a collective behaviour specifically related to the dynamism of the milieu in which it develops The author introduces a complex innovative theory of local entrepreneurship demonstrating that the emergence of new ventures and the development of existing enterprises cannot be understood without taking into account certain factors locale social capital networking and entrepreneurial culture within a given area are all crucial to entrepreneurial growth Expanding upon this theory the book

demonstrates how entrepreneurship can be fostered in order to support collective development Various forms of partnership among socioeconomic actors are then analysed to highlight the social conventions and entrepreneurial culture that connect and intensify the energies at the root of local dynamism This highly original book represents a departure from entrepreneurship literature that is largely limited to the study of entrepreneurs behaviour Its dynamic presentation of holistic theory will prove an extremely absorbing read for those with an academic or professional interest in business and management entrepreneurship and regional development
