Mainie Jellett And The Modern Movement In Ireland:

Mainie Jellett and the Modern Movement in Ireland Bruce Arnold, 1991-01-01 Mainie Jellett and the Modern Movement in Ireland examines one of Ireland's most highly respected 20th century exponents of Irish art. The book is being published to coincide with an exhibition at the Museum of Modern Art Dublin which runs from 9th December 1991 to 28th February 1992. *The Yeats Circle, Verbal and Visual Relations in Ireland, 1880-1939* Karen E. Brown, 2011 Focusing on W B Yeats's ideal of mutual support between the arts and on the cultural production of the Yeats circle members, Karen Brown explores the artistic relationships and outcome of Yeats's vision in five case studies. In so doing, the author makes use of primary materials and fresh archival evidence and delves into a variety of media including embroidery, print, illustration, theatre costume design, poetry, and painting. *"The Yeats Circle, Verbal and Visual Relations in Ireland, 1880-1939"* Karen E. Brown, 2017-07-05 Focusing on W B Yeats's ideal of mutual support between the arts, Karen Brown sheds new light on how collaborations and differences between members of the Yeats family circle contributed to the metamorphosis of the Irish Cultural Revival into Irish Modernism. Making use of primary materials and fresh archival evidence, Brown delves into a variety of media including embroidery, print, illustration, theatre costume design, poetry, and painting. Tracing the artistic relationships and outcome of W B Yeats's vision through five case studies, Brown explores the poet's early engagement with artistic tradition, contributions to the Dun Emer and Cuala Industries, collaboration between W B Yeats and Norah McGuinness, analysis of Thomas MacGreevy's pictorial poetry, and a study of literary influence and debt between Jack Yeats and Samuel Beckett. Having undertaken extensive archival research relating to word and image studies, Brown considers her findings in historical context with particular emphasis on questions of art and gender and art and national identity. Interdisciplinary, this volume is one of the first full-length studies of the fraternal arts surrounding W B Yeats. It represents an important contribution to word and image studies and to debates surrounding Irish Cultural Revival and the formation of Irish Modernism. **Modern Ireland and Revolution** Cormac O'Malley, 2016-11-11 In 1922, following a decade of political ferment and much bloodshed, the Irish Free State was established, became stabilised, and developed along conservative lines. During these years, the prevailing impulse was to reprove the actions of republicans who had rejected the Anglo-Irish Treaty, and many significant revolutionary voices were left unheeded. One mind more agile than most of his contemporaries belonged to Ernie O'Malley. It was through his vastly popular, clipped lyric memoirs, especially *On Another Man's Wound* in 1936, that many of the complexities of the republican mindset were brought to light for readers worldwide. In *Modern Ireland and Revolution*, leading Irish and American historians and academics deliver critical essays that consider the life, writings, and monumental influence of Ernie O'Malley and the modern arts that influenced him. After his involvement in the War of Independence and the Civil War, O'Malley developed a modernist approach while living abroad for ten years; he was devoted to the arts, moved in circles that included Georgia O'Keeffe and Paul Strand, and through his probing mind counteracted any

notion that republicans of his era were dull inflexible idealists In this fascinating collection art and revolution coincide enriching every preconception of the minds that supported both sides of the Treaty and revealing untoward truths about the Irish Free State's process of remembrance New Perspectives on Witchcraft, Magic, and Demonology: Witchcraft in the British Isles and New England Brian P. Levack, 2001 Art and the Nation State Róisín Kennedy, 2021 Explores the contribution of Irish modernist art to post independence cultural debate and notions of Irish national identity Through analysis of major controversies it argues that the reception of modern art in the Republic of Ireland was moulded by demands of modernization dynamics of the international art world and competing ideologies *A New History of Ireland, Volume VI* W. E. Vaughan, 2010-04-01 A New History of Ireland is the largest scholarly project in modern Irish history In 9 volumes it provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory from the earliest geological and archaeological evidence through the Middle Ages down to the present day Volume VI opens with a character study of the period followed by ten chapters of narrative history and a study of Ireland in 1914 It includes further chapters on the economy literature the Irish language music arts education administration and the public service and emigration *The Irish Revival* Joseph Valente, Marjorie Howes, 2023-06-15 The Irish Revival has inspired a richly diverse and illuminating body of scholarship that has enlarged our understanding of the movement and its influence The general tenor of recent scholarly work has involved an emphasis on inclusion and addition exploring previously neglected texts authors regional variations and international connections Such work while often excellent tends to see various revivalist figures and projects as part of a unified endeavor such as political resistance or self help In contrast *The Irish Revival A Complex Vision* seeks to reimagine the field by interpreting the Revival through the concept of complexity a theory recently developed in the information and biological sciences Taken as a whole these essays show that the Revival's various components operated as parts of a network but without any overarching aim or authority In retrospect the Revival's elements can be seen as having come together under the heading of a single objective for example decolonization broadly construed But this volume highlights how revivalist thinkers differed significantly on what such an aspiration might mean or lead to ethnic authenticity political autonomy or greater collective prosperity and well being Contributors examine how relationships among the Revival's individual parts involved conflict and cooperation difference and similarity continuity and disruption It is this combination of convergence without unifying purpose and divergence within a broad but flexible coherence that Valente and Howes capture by reinterpreting the Revival through complexity theory Twentieth-Century Ireland (New Gill History of Ireland 6) Dermot Keogh, 2005-09-27 Professor Dermot Keogh's Twentieth Century Ireland the sixth and final book in the New Gill History of Ireland series is a wide ranging informative and hugely engaging study of the long twentieth century surveying politics administrative history social and religious history culture and censorship politics literature and art It focuses on the consolidation of the new Irish state over the course of the twentieth century Professor Keogh highlights the

long tragedy of emigration its effect on the Irish psyche and on the under performance of the Irish economy He emphasises the lost opportunities for reform of the 1960s and early 70s Membership of the EU had a diminished impact due to short term and sectionally motivated political thinking and an antiquated government structure Professor Keogh looks at how the despair of the 1950s revisited the country in the 1980s as almost an entire generation felt compelled to emigrate very often as undocumented workers in the United States Professor Keogh also argues that the violence in Northern Ireland from the late 1960s was an Anglo Irish failure which was turned around only when Britain acknowledged the role of the Irish government in its resolution He extends his analysis of the twentieth century to include a wide ranging survey of the most contentious events financial corruption child sexual abuse scandals in the Catholic Church between 1994 and 2005

Expressions of Nationhood in Bronze & Stone Síghle Bhreathnach-Lynch, 2019-06-21 At the time of his death in 1945 Albert Power was the leading nationalist sculptor in the Irish Free State yet within a few decades he was almost forgotten This first major examination of his life and career tells of one artist's contribution to national identity before and after political independence In sculpture at that time the emphasis was on creating a pantheon of new Irish heroes by means of monumental and portrait commissions Power's work however sprang from deeply held nationalist beliefs and he felt that subject matter alone was insufficient to ensure a distinctive Irish art Wherever possible he deliberately chose native stone believing that this best conveyed a nationalist sentiment such as the limestone he used in the beloved monument to Padraic Conaire in Galway His political commissions from 1922 onward reveal the new State's desire for a national political and cultural identity and in this book Power's sculpture is explored both at the time of its production and within the broader context of writers and artists who wished to contribute to the new nation's cultural identity a legacy that modern Ireland enjoys today
