*The Unfinished Business of the Civil Rights Movement* Frank Simpkins, 2014-02 The Unfinished Business of the Civil Rights Movement Failure of America's Public Schools to Properly Educate its African American Student Populations by Frank Simpkins The Unfinished Business of the Civil Rights Movement Failure of America's Public Schools to Properly Educate its African American Student Population vividly describes the current crisis of America's inability to properly educate its African American students Many of the details and cited statistics indicate alarming illiteracy rates and high dropout rates for disadvantaged Black and Latino students across the country These rates stand in sharp contrast to those of their White peers and the Black White academic achievement gap continues to widen The author mentions other problems that afflict the Black community including the horrendous incarceration rates of young Black males the shocking rates of Black abortions and the precarious and implosive condition of the Black family in America He contends that the core of these problems lay with America's failure to properly educate its Black students These alarming figures are more than just statistics they have widespread consequences upon American society The author highlights a proven and scientifically tested dialect reading program that showed promising results for Black functionally illiterate inner city students in grades 7-12 He urges that a Second Civil Rights movement is

needed to gain equal quality educational opportunities for all of America's children. We cannot deny these rights to some children without disparaging all children and the nation. **International Handbook of English Language Teaching** Jim Cummins, Chris Davison, 2007-12-31 This two-volume handbook provides a comprehensive examination of policy, practice, research, and theory related to English language teaching (ELT) in international contexts. Nearly 70 chapters highlight the research foundation for the best practices, frameworks for policy decisions, and areas of consensus and controversy in the teaching and development of English as a second and/or additional language for kindergarten through to adult speakers of languages other than English. In doing so, it problematizes traditional dichotomies and challenges the very terms that provide the traditional foundations of the field. A wide range of terms has been used to refer to the key players involved in the teaching and learning of the English language and to the enterprise of English language teaching as a whole. At various times and in different contexts, the following labels have been used in countries where English is the dominant language to describe programs, learners, or teachers of English: English as a second language (ESL), English as an additional language (EAL), limited English proficient (LEP), and English language learners (ELL). In contexts where English is not the dominant language, the following terms have been used: English as a foreign language (EFL), English as an international language (EIL), and English as a lingua franca (ELF).

ignorance If the truth sets people free then power will work to obscure it Hence the rise of misinformation as a political weapon is a strategy of dominant power to undermine the political advancement of marginalized groups
