**In the Shadow of Arnhem** Ken Tout, 2016-08-04 The Battle of Arnhem in September 1944 has been much publicised with its extraordinary parachute drop and gallant defence by Frost's few men of the bridge at Arnhem. Although the campaign came close to success its relative failure left the Allies trapped within a thirty mile stretch of road. The Arnhem debacle saw vast stretches of Holland to the left and right of the salient occupied by enemy forces. These areas of Holland criss crossed by unfordable rivers and closely populated by small villages had to be cleared by Allied troops in platoon or company strength fighting in tight situations against bitter skilled resistance. There was none of the awesome and inspirational massing of troops seen in the battle of Normandy for Arnhem itself. Interweaving his engaging narrative style with the eyewitness accounts and personal reminiscences of British Canadian and Polish troops Ken Tout reveals how these men performed their heroic deeds. They suffered and died in unheralded largely forgotten minor skirmishes but on a scale far exceeding the casualties of the immediate assault on Arnhem. They deserve to be remembered. This is their story Kiddie Lit Beverly Lyon Clark, 2005-01-02 Honor Book for the 2005 Book Award given by the Children's Literature Association. The popularity of the Harry Potter books among adults and the critical acclaim these young adult fantasies have received may seem like a novel literary phenomenon. In the nineteenth century however readers considered both Tom Sawyer and Huckleberry Finn as works of literature equally for children and adults only later was the former relegated to the category of boys books while the latter even as it was canonized came frequently to be regarded as unsuitable for young readers. Adults women and men wept over Little Women. And America's most prestigious literary journals regularly reviewed books written for both children and their parents. This egalitarian approach to children's literature changed with the emergence of literary studies as a scholarly discipline at the turn of the twentieth century. Academics considered children's books an inferior literature and beneath serious consideration. In Kiddie Lit Beverly Lyon Clark explores the marginalization of children's literature in America and its recent possible reintegration both within the academy and by the mainstream critical establishment. Tracing the reception of works by Mark Twain, Louisa May Alcott, Lewis Carroll, Frances Hodgson Burnett, L. Frank Baum, Walt Disney and J. K. Rowling Clark reveals fundamental shifts in the assessment of the literary worth of books beloved by both children and adults whether written for boys or girls. While uncovering the institutional underpinnings of this transition Clark also attributes it to changing American attitudes toward childhood itself a cultural resistance to the intrinsic value of childhood expressed through sentimentality, condescension and moralizing. Clark's engaging and enlightening study of the critical disregard for children's books since the end of the nineteenth century which draws on recent scholarship in gender, cultural and literary studies offers provocative new insights into the history of both children's literature and American literature in general and forcefully argues that the books our children read and love demand greater respect Talking Walking Rachel Bowlby, 2018-02-16 When something called theory first broke onto the seemingly stagnant scene of literary

studies it offered bright new ways and fields for critical reading new methods and subjects and also new words to speak them The syllabus and the styles would never be the same and reading was proudly claimed as a mode of social critique The short pieces brought together in Talking Walking engage with all sorts of arguments then now and earlier about the uses and history of critical reading of literature and also of other cultural forms There is much on the changing styles of literary critical writing and on the place of particular writers Virginia Woolf or Jacques Derrida in contemporary critical culture There are pieces on clichés on footnotes on the language of the university job interview on the use of domesticity as a catch all negative term There are also essays on cultural questions informed by critical theory For instance why has the topic of walking been such a fruitful thinking theme in literature and philosophy How does the history of shopping and marketing theory intersect with those of literature and subjectivity How in the light of reproductive technologies and new social forms has becoming a parent turned into a culturally prominent kind of story These are some of the questions that arise in the interview and essays that make up Rachel Bowlby's book which derives from several decades of working and writing and talking and walking within the changing contemporary landscape of literary and critical studies Old and new arrivals into this world will find pleasures of reading and matter for thinking on every page

**Representations of Childhood in American Modernism** Mason Phillips, 2016-10-31 This book documents American modernism's efforts to disenchant adult and child readers alike of the essentialist view of childhood as redemptive originary and universal For James Barnes Du Bois and Stein the twentieth century's move to position the child at the center of the self and society raised concerns about the shrinking value of maturity and prompted a critical response that imagined childhood and children's narratives in ways virtually antagonistic to both In this original study Mason Phillips argues that American modernism's widespread critique of childhood led to some of the period's most meaningful and most misunderstood experiments with interiority narration and children's literature
