Mondo Bizarro ,1966 Docufictions Gary D. Rhodes, John Parris Springer, 2014-10-01 Through most of the 20th century the distinction between the fictional narrative film and the documentary was vigorously maintained The documentary tradition developed side by side with but in the shadow of the more commercially successful feature film In the latter part of the century however the two forms merged on occasion and mockumentaries fictional works in a documentary format and docudramas reality based works in a fictional format became part of the film and television landscape The 18 essays here examine the relationships between narrative fiction films and documentary filmmaking focusing on how each influenced the other and how the two were merged in such diverse films and shows as Citizen Kane M A S H This Is Spinal Tap and Destination Moon Topics include the docudrama in early cinema the industrial film as faux documentary the fear evoked in 1950s science fiction films the selling of reality in mockumentaries and reality television and documentary forms The essays provide a foundation for significant rethinking of film history and criticism offering the first significant discussion of two emerging and increasingly important genres Instructors considering this book for use in a course may request an examination copy here Performing New Orleans Stuart Andrews, Patrick Duggan, 2025-08-20 Performing New Orleans examines the value of arts and culture in managing complex urban challenges offering new perspectives on how artistic and everyday performances can be pivotal modes of practicing resilience Through an exploration of understudied forms of performance in New Orleans Stuart Andrews and Patrick Duggan highlight the centrality of the city's arts ecosystems as a vital aspect of its ability to perform resiliency Performing New Orleans resists conventional definitions of arts practice instead it uses a diverse array of case studies to illustrate what arts practices are what they do and how they can enhance our understanding of people place and resilience The case studies in this volume range from playing in the streets to painting murals from tourist flourishes to the performative effect of infrastructure projects from the design and leadership of arts centers to the unfolding of festivals theater performances art installations and even public health messaging The authors also review critique and rethink resilience theory and the often problematic idea of being resilient Andrews and Duggan bring together ideas from art and architecture cultural geography hazard mitigation resilience theory sustainability theater and water management to explore performances of the city to radically expand our understanding of urban adaptability Performing New Orleans argues that a truly resilient city is one that recognizes arts and culture professionals as crucial critical innovators **Mondo Bizarro** Dan Piraro, 1989 Do you ever get the feeling that there's something odd going on If so then Dan Piraro is the cartoonist for you The remarkable peculiarity of the world the strange the stranger and the strangest
