Diekema,Mark R. Mercurio,Mary B. Adam,2011-09-08 This volume provides a practical overview of the ethical issues arising in pediatric practice The case based approach grounds the bioethical concepts in real life situations covering a broad range of important and controversial topics including informed consent confidentiality truthfulness and fidelity ethical issues relating to perinatology and neonatology end of life issues new technologies and problems of justice and public health in pediatrics A dedicated section also addresses the topics of professionalism including boundary issues conflicts of interests and relationships with industry ethical issues arising during training and dealing with the impaired or unethical colleague Each chapter contains a summary of the key issues covered and recommendations for approaching similar situations in other contexts Clinical Ethics in Pediatrics A Case Based Textbook is an essential resource for all physicians who care for children as well as medical educators residents and scholars in clinical bioethics      **Moral Economies** Ute Frevert,2019-03-11 Is there a moral economy of capitalism The term moral economy was coined in pre capitalist times and does not refer to economy as we know it today It was only in the nineteenth century that economy came to mean the production and circulation of goods and services At the same time the term started to be used in an explicitly critical tone references to moral economy were normally critical of modern forms of economy which were purportedly lacking in morals In our times too the morality of capitalism is often the topic of debate and controversy Moral Economies engages in these debates Using historical case studies from the eighteenth nineteenth and twentieth centuries the book discusses the

degree to which economic actions and decisions were permeated with moral good vs bad classifications Moreover it shows how strongly antiquity s concept of embedded economy is still powerful in modernity The model for this was often the private household in which moral social and economic behavior patterns were intertwined The do it yourself movement of the late twentieth and early twenty first centuries was still oriented towards this model thereby criticizing capitalism on moral grounds

*Global Bioethics* Henk ten Have,2016-02-10 The panorama of bioethical problems is different today Patients travel to Thailand for fast surgery commercial surrogate mothers in India deliver babies to parents in rich countries organs body parts and tissues are trafficked from East to Western Europe physicians and nurses migrating from Africa to the U S thousands of children or patients with malaria tuberculosis and AIDS are dying each day because they cannot afford effective drugs that are too expensive Mainstream bioethics as it has developed during the last 50 years in Western countries is evolving into a broader approach that is relevant for people across the world and is focused on new global problems This book provides an introduction into the new field of global bioethics Addressing these problems requires a broader vision of bioethics that not only goes beyond the current emphasis on individual autonomy but that criticizes the social economic and political context that is producing the problems at global level This book argues that global bioethics is a necessity because the social economic and environmental effects of globalization require critical responses Global bioethics is not a finished product that can simply be applied to solve global problems but it is the ongoing result of interaction and exchange between local practices and global discourse It combines recognition of differences and respect for cultural diversity with convergence towards common perspectives and shared values The book examines the nature of global problems as well as the type of responses that are needed in order to exemplify the substance of global bioethics It discusses the ethical frameworks that are available for global discourse and shows how these are transformed into global governance mechanisms and practices
