**World Class** Teru Clavel,2020-10-06 An upbeat chronicle of Clavel s children s school experiences in Hong Kong Shanghai and Tokyo offering advice about vetting schools and enriching children s education Kirkus Reviews An intriguing volume on the differences in global education Library Journal A must read firsthand

exploration of why Asian students are outpacing their American counterparts and how to help our children excel in today's competitive world When Teru Clavel had young children she watched her friends and fellow parents vie for spots in elite New York City schools Instead of losing herself in the intensive applications and interview process Teru and her family moved to Asia embarking on a decade long journey through the public schools of Hong Kong Shanghai and Tokyo These schools were low tech and bare bones with teachers who demanded obedience and order In Hong Kong her children's school was nicknamed The Prison for its foreboding facilities yet her three year old loved his teachers and his nightly homework In Tokyo the students were responsible for school chores like preparing and serving school lunches Yet Teru was amazed to discover that her children thrived in these academically competitive cultures they learned to be independent self confident resilient and above all they developed a deep love of learning When the family returned to the States the true culture shock came when the top schools could no longer keep up with her children Written with warmth and humor World Class is a compelling story about how to inspire children to thrive academically Studded with lists of useful tips about choosing schools and hiring tutors for parents who must advocate for their children and supplement gaps in their educations Publishers Weekly and an insightful guide to set your children on a path towards lifelong success      On the Outskirts of Form Michael Davidson,2012-01-01 This new book by eminent scholar Michael Davidson gathers his essays concerning formally innovative poetry from modernists such as Mina Loy George Oppen and Wallace Stevens to current practitioners such as Cristina Rivera Garza Heriberto Y pez Lisa Robertson and Mark Nowak The book considers poems that challenge traditional poetic forms and in doing so trouble normative boundaries of sexuality subjectivity gender and citizenship At the heart of each essay is a concern with the politics of form the ways that poetry has been enlisted in the constitution and critique of community Davidson speculates on the importance of developing cultural poetics as an antidote to the personalist and expressivist treatment of postwar poetry A comprehensive and versatile collection On the Outskirts of Form places modern and contemporary poetics in a cultural context to reconsider the role of cultural studies and globalization in poetry      Artistic Transfer Ursula Bertram,2018-11-09 Non conformist non linear unruly thought and action have always led to great works of art pathbreaking inventions and forward looking perspectives But how can this precious good find its way into our everyday working life to help us deal with social ecological and economic challenges The crucial step Ursula Bertram contends is to reach a synergy of logically justifiable knowledge and the capacity to navigate in open systems To find out how such synergy could come about Ursula Bertram has observed the strategies and principles of artists choreographers musicians and unruly thinkers and compared them with the statements of physicists mathematicians managers and researchers She shows that when artistic thought is circulated and probed in non artistic fields an extremely efficient pattern called artistic transfer emerges With contributions by Werner Prei ing and others      **Peace by Design** Dawn Brancati,2009 Why does political decentralization reduce intrastate conflict more in some countries than in others Can political institutions be designed to

engender peace If so how Addressing these questions Dawn Brancati's *Peace by Design* advances the current debate on decentralization beyond a discussion of whether or not decentralization is effective in reducing conflict to when and under what conditions it is successful The book bridges opposing views while offering an original one arguing that decentralization's ability to reduce conflict hinges on the electoral strength of regional parties which in turn varies according to different institutional features of decentralization Various aspects of political systems likewise affect the extent to which regional parties stimulate conflict and conversely the degree to which statewide parties mitigate it Rich in scholarly as well as policymaking insights and grounded in extensive qualitative and quantitative research *Peace by Design* illuminates the exigent issue of how to design political institutions in order to promote peace Dawn Brancati is an Assistant Professor at Washington University in St Louis Previously she taught at Harvard University and held fellowships from the Harvard MIT Data Center and the Center for the Study of Democratic Politics at Princeton University

**Selling Sustainability Short?** Janina Grabs, 2020-05-14 Can private standards bring about more sustainable production practices This question is of interest to conscientious consumers academics studying the effectiveness of private regulation and corporate social responsibility practitioners alike Grabs provides an answer by combining an impact evaluation of 1 900 farmers with rich qualitative evidence from the coffee sectors of Honduras Colombia and Costa Rica Identifying an institutional design dilemma that private sustainability standards encounter as they scale up this book shows how this dilemma plays out in the coffee industry It highlights how the erosion of price premiums and the adaptation to buyers preferences have curtailed standards effectiveness in promoting sustainable practices that create economic opportunity costs for farmers such as agroforestry or agroecology It also provides a voice for coffee producers and value chain members to explain why the current system is failing in its mission to provide environmental social and economic co benefits and what changes are necessary to do better

Comparative Models of Development Howard J. Wiarda Ph.D., 2017-09-05 Howard J Wiarda who was the Dean Rusk Professor of International Relations at the School of Public and International Affairs at the University of Georgia outlines a paradigm shift in world politics that has been driven by two overarching trends the shift from a U S and Western favored model of development to different models and the decline of a Western system of world order In examining these two trends he seeks to answer questions such as Why are the gaps increasing rather than shrinking between the rich and the poor both within countries and between the developed countries and developing ones Why have some countries and regions adapted to the newer pressures of globalization democratization and new markets and others have not Why does the Middle East Southeast Asia Sub Saharan Africa and much of Latin America still lag behind while others are forging ahead By taking a
