Claim to Fame Publisher of many books found on Lulu Amazon Barnes and Noble and many bookstores worldwide A Sideways Look at Clouds Maria Mudd Ruth, 2017-08-18 Here's somebody who is down to earth enough to talk to the 99.9 percent of us who walk underneath clouds all the time but don't have a clue about how they form why they assume different shapes and different colors and what makes them precipitate Kitsap Sun Silver Nautilus Book Award in Science and Cosmology Written by a critically acclaimed natural history author Shares author's fun journey to understanding clouds Written for the curious but non science minded Author Maria Mudd Ruth fell in love with clouds the same way she stumbles into most passions madly and unexpectedly A Sideways Look at Clouds is the story of her quite accidental infatuation with and education about the clouds above When she moved to the soggy Northwest a decade ago Maria assumed that locals would know everything there was to know about clouds in the same way they talk about salmon tides and the Seahawks Yet in her first two years of living in Olympia Washington she never heard anyone talk about clouds only the rain Puzzled by this lack of cloud savvy she decided to create a 10 question online survey and sent it to everyone she knew Her sample size of 67 people included men and women new friends in Olympia family on the East Coast outdoorsy and indoorsy types professional scientists and liberal arts majors like herself The results showed that while people knew a little bit about clouds most were like her they had a hard time identifying clouds or remembering their names As adults they had lost their curiosity and sense of wonder about clouds and were essentially not in the habit of looking up A Sideways Look at Clouds acknowledges the challenges of understanding clouds and so uses a very steep and bumpy learning curve the author's as its plot line The book is structured around the ten words used in most definitions of a cloud a visible mass of water droplets or ice crystals suspended in the atmosphere above the earth A captivating story teller Maria blends science wonder and humor to take the scenic route through the clouds and encourages readers to chart their own rambling idiosyncratic course Whether you are outside under the clouds inside planning your next adventure or curled up anywhere with a good book A Sideways Look at Clouds will engage inform and inspire **Coloratura** Li Er, 2019-03-14 Li Er whose innovative works of fiction have earned the admiration of scholars and critics and a passionate fan base of readers is one of China's most prominent writers This landmark publication of his Coloratura a tour de force of literary innovation marks the first translation of the author's novels into English Set against the turbulent backdrop of the Chinese Civil War Coloratura revolves around the mysterious Ge Ren whose story is told by three narrators and a host of other voices Who was Ge Ren really Just about the only thing anyone can agree on is that he is dead But how he died and who he was when alive are less than certain Was Ge Ren a hero a Nationalist or Communist a poet translator scholar or spy or some combination of all these identities And how much of his story is merely fanciful coloratura nonsense As different factions fight for control of China Ge Ren traverses the political and intellectual life of the country managing to affect countless lives Years later in the present day his final surviving descendant the intriguing compiler of the novel pieces together the stories of her enigmatic ancestor from a patchwork of narrators

reliable or otherwise and historical documents real or invented But readers also will wonder if she has an agenda of her own The search for Ge Ren takes us from Chairman Mao s stronghold at Yan an to a barren People s Commune and then farther afield with excursions into Russia Japan and even a small town in England Many of the characters and incidents are actual historical figures and events woven seamlessly into the fictional storyline Told with swashbuckling brio and painstaking historical detail Coloratura is both an illuminating journey through twentieth century Chinese history and a profound exploration of the elusive nature of truth

A rogue wave hits the ship and Jessie and Eddie are washed overboard into the choppy sea fighting off sharks. They are pulled into the magnetic field forcing them deeper and deeper into the ocean landing on top of a spaceship. The hatch pops open and they are sucked inside. Sitting on the bridge are two aliens who are ill. They are dying. They find seven more aliens with the same sickness. Jessie and Eddie get in touch with Crystal and her team in hopes they can help her and Eddie find a way to fly the ship out of Earth's ocean and return them back to the planet of its destination. While in flight White Cloud finds a alien game called Meet the Master of Your Fate but he did not read the instructions. On the last level he is sucked into the game and must find his master before all of the monsters, ghouls and demons get him. **Not My**

Shame Martina Zangger, 2025-08-26 A testament to the power of female courage and strength this intensely personal memoir reveals how one woman confronted her dark past and broke free from lifelong trauma bonds. Not content with only healing herself author Martina Zangger has dedicated her life to helping other sexual assault survivors as they navigate both their healing journeys and the complexities of the criminal justice system. Her frankness in narrating her startling life choices displays the potency of shedding shame and the freedom that follows. Sexually abused by her grandfather and uncle as a small child Martina's early years became the foundation for a life of struggles and wrong turns. Like many victim survivors Martina kept her trauma a secret a suppression that led her into sex work and ultimately into the grip of the notorious cult of the Indian guru Rajneesh. For decades Martina believed she was a magnet for abusers that the sexual violence she endured was somehow her fault. But healing has allowed Martina to bravely face the tragedies she once buried and to place the blame where it belongs. No longer silenced by shame Martina's greatest discovery is that love doesn't have to be dangerous that it can be respectful and kind instead. This is her story and it is a story of hope for all survivors. The Grim Raynetta J.
