My World The First 50 Years:

My World MICHAEL JEAN NYSTROM-SCHUT,2004-05-19 Let me tell you how much fun it is to be a book writer One of my friends recently said to me I dont even know anyone whos ever READ a book let alone WRITE one I was amused Well you know its really not so hard to write a book You just talk about what you feel and organize your thoughts along the way At some point as you stay determined to make it happen the book comes into the world For me now having compiled over 30 book length manuscripts of various topics and subject matter I have become more and more inclined to share the way I see the world with others along the way You might call what I like to write about as having to do with personal philosophy or individual world view Everyone has a way they see their world this book is part of how I see mine It seems that all kinds of people have something to say about what life is and is not I am like most people so am no exception I have come to enjoy giving such opinions and points of view with just about anyone who will listen I wrote this book MY WORLD The First 50 Years because I wanted to be sure and document the way life appeared to be to me at the half century mark in my personal growth and evolution I did it in a way that enables you to read right through it or if you prefer you can take it slowly over a one year span of time and think about the ideas and thoughts carefully How you read the book is entirely up to you Ten years earlier I had written a similar book Earth Dwelling An Owners Manual for Life in order to share thoughts about the meaning and purpose of life It is amazing the difference that ten years can make I like to think that I am growing Gee Could that be I sure hope so People from the worlds of philosophy religion and the popular culture are anxious to share the way they see the world with others I have a passion to do that also and so I wrote this book in order to summarize how things in life appeared to me I could be way off you decide for yourself At any rate my world is MY way of seeing life in YOUR world you will see it your special way and that is part of the beauty of this life Each person is free to see it differently and that is our basic right to do so I like that I actually feel so strongly about what I am saying here that I created a web site which is called HowIseetheworld com to talk about and share ideas with others Take a look at it some time Thoughts are powerful and have a tendency to either make you great or even destroy you before your time So think good thoughts And enjoy the book as well

Life Lessons for West African Youth Michael Jean Nystrom-Schut,Ms. Faustina Adzofia,Ms. Rabbi Jane Adanma,2023-08-10 This book LIFE LESSONS for West African Youth is dedicated to our students at B L E S S UNIVERSITY which originated in the late summer of 2019 It is for their growth and continuing formulation of a World View that will sustain them throughout their lives Every effort has been made to make the reading basic and simple readable and comprehensible to all of our students We desire that it will be a REFERENCE BOOK that will be used and referred to in order to help our students grow and learn in life It has been the honor of a lifetime to teach these amazing African Angels my kids during these past few years No greater thing have I ever done in my life and no greater passion have I ever had in my life than to be able to work with them **Earth School** Michael Jean Nystrom-Schut,2025-01-31 Earth School is a follow up to a

book written by Michael some 35 years ago named Earth Dwelling An Owner s Manual That book covered his overall World View at the time being his then rendition of Life on Earth as this book Earth School is his now account of earth life Earth School discusses our purposes for being here on this planet breaking down matters in the four 4 primary balanced aspects of life the Mental the Physical the Social and the Spiritual A fifth section is included that involves the subject of World View or Personal World Philosophy Then in section six a short Index of topics is provided This quarter million word manuscript was over two years in the making representing the most recent rendition of Michael s interpretation of life as he sees it As one s evolution of thought is ongoing it is thus just one more chapter in a long book of life that Michael has been writing

Foundations of Philosophy Michael Jean Nystrom-Schut,2019-06-30 This book is designed to provide basic philosophy and information regarding the vast number of subject matters covered This was assembled in the understanding that the publisher and the author are not engaged in rendering legal consultative or other professional services If such expert assistance is required the services of competent and appropriate professionals should be sought The author and the publisher shall have neither liability nor responsibility to any person or entity with respect to any loss or damage that may be indirectly or directly caused or alleged to be caused by the content of this book It is also not the purpose of this book to reprint information that is otherwise available to the author publisher or reader Rather it seeks to complement amplify and or supplement other texts available The reader is urged to review all relevant material and learn as much as possible about life tailoring that information to their individual situation Further efforts have been made to make this book as accurate as possible However there are undoubtedly editorial typographical and contextual errors contained herein Therefore the text should be viewed and utilized as a general guide not as an ultimate source of information related to the various topics This book also contains information that may no longer be relevant or accurate despite our desire to think our words and thoughts about life are timeless and perfect Finally the primary objective of this volume has something to do with the four Es to enlighten edify educate and entertain perhaps even in that order Personal philosophy and worldview are something we develop and maintain as individuals who evolve throughout life It is the ambition of the writer to amplify these Es hoping that in doing so it will allow the reader to experience a more meaningful balanced complete and productive encounter with life

Keeping It Real in an Unreal World Michael Jean Nystrom-Schut,2004 This book provides valuable information for all salespeople seeking to become better at their profession those seeking a higher level of success The Thirteen Virtues is different from most books on selling because it deals less with the sales process getting the prospect to say yes and instead emphasizes the entire spectrum of fundamentals required to be a well rounded professional Some of the fundamentals covered in the book include The importance of a cheerful attitude The connection between confidence and humility The importance of character The two components of business trust Five ways to build enthusiasm The connection between effort and success How to be proactive How to plan for success Three ways to improve time management Four ways to increase

empathy Seven listening techniques The importance of trust in relationships Persuasive communication Eleven conversation techniques The customer's buying process Four closing techniques Flowing with objections Handling rejection In addition to understanding these time tested fundamentals the reader will be given a unique method of internalizing them This book is a must read for all sales professionals **Welcome to My World** Charlie Walker,2000 This is an autobiographical account of

Charlie Walker's life from his impoverished childhood in 1930s Barnsley to huge success as a self made Wakefield businessman , San Juan: Glimpses in Time Michael Jean Nystrom-Schut,2004-07-02 From my home in San Juan a lovely sector of central Tibas situated just north of San Jose Costa Rica while the candle flickers I commence the writing of these varied glimpses Warning What you are about to read are personal memoirs They are much to do about self They amount to a large group of random thoughts sporadic observations I always feel I am somehow supposed to write my thoughts down what a big ego I must have because I like to think that if you put them all together they form a loose knit way of seeing the world They are a part of my worldview Everyone has one of these whats your view of the world look like I am going to be a world philosopher when I grow up you see That is what my intention is since I have always been preoccupied with how to see things how to process things How odd is life anyway Thats why my interest in philosophy to figure out the oddness of life Normally I think philosophy can be pretty dry and boring But for me its terribly exciting In this book what you are about to delve into will resemble the form of an ongoing story It will consist of a sequence of six weeks of shadows and lights i e days and nights After that time wherever I am at with it I will stop and simply and abruptly start to write another book about something else I know not what Here though I will I suspect be sharing with you a series of ideas dreams fears logical thoughts illogical thoughts wonderings wanderings and general psychobabble I say that because I intend to impart thoughts and ideas about whatever might be in my ongoing existence in being This could be anything I assure youas of course it could be for anyone Exactly what will appear in the pages that represent the next six weeks of my life I do not have any idea that for me is going to be much of the fun of writing it **Mountain Peeks** MICHAEL JEAN

NYSTROM-SCHUT,2004-06-17 In just about every book you pick up to read information is set forth that has the raw potential to affect you the reading inquirer in a variety of ways This particular book is perhaps especially like that since it covers a wide range of topics and spans a plethora of perception And it will frequently swerve far from the mainstream of conventional thinking As to the general thought presented some of it contained herein will no doubt make you want to yawn You will already personally know what I am suggesting about something and maybe even considerably more on it than I do You will wonder why I bothered to express an idea that was so obvious so basic so simple Perhaps the very next thought will cause you to bristle you wont appreciate or respect the point You will not agree You will see it differently You will object to the very insinuation that I would have thought to write it down At some point you might start to wonder about me the imperfect amateur writer thinker theorist philosopher that I am Still other thoughts will mildly pass in your book as either

amusing or entertaining or at least worth as much time to you had you spent the same amount of time petting your cat Every book has plenty of that this one no doubt included Finally though and this finally is why I applied myself very diligently to get this quite lengthy work written there will be the occasion when you will feel refreshed with the breeze of an enlightening concept it will smack you in a soft spot as you experience the euphoria of having had your mind stimulated and your spirits lifted For these times the book was written and in those few or many instances you will openly be openly thankful just as I was grateful to the Universe for showing to me these things in the first place Living a full life is in many ways a matter of simply passing on intelligent logic and inspiring hope doing so in the form of core concepts to those who come after we do I sincerely hope we are able to do some of that for you here **Principles of Philosophy** Michael Jean

Nystrom-Schut,2018-10-30 Not just anyone sits down to write their own personal Bible The famous one popular with millions of Christians was penned by 35 40 different authors over a span of some 1100 years As of 1995 it was still considered Guinness the world s 1 best seller of all time In stark contrast Michael s 2 volume Principles of Philosophy was meditated contemplated drafted and written in deep anonymity and solitude over a daily and nightly 30 month span His two books come in at over 800 000 words the same as ten 80 000 word works With the King James Old and New Testament totaling just over 783 000 words it is easy to see why Michael views himself as both prolific plentiful and loquacious talkative when it pertains to laying down thought As the Bible is for millions on the planet Michael feels his principles are also a template an owner s manual a guidebook for in particular how to 1 view life on earth 2 work on the detail of one s philosophy and worldview and 3 examine and conduct a balanced meaningful existence on this planet The Holy Bible consists of 80 books 39 in the Old Hebrew part 14 in the Apocrypha and 27 in the New Christian part Michael s Principles Volumes One and Two each cover 84 chapters of the basic areas of life as he views them with 21 chapters outlined each for 1 the mental 3 the social and 2 the material 4 the spiritual areas of our lives A detailed numbering system is in place for quick reference to topics Each volume happens to come in at 613 entries making a total of 1226 separate entries in the two books By dictionary definition a principle is defined as a fundamental truth or proposition that serves as the foundation for a system of belief or behavior or for a chain of reasoning This is precisely why he chose principles in the title His own personal philosophical principles are what he tries to practice daily Michael even states they are likely the reason he is still with us in bodily form on the earth and remains in relative possession of his right mind as well Since leaving organized religion early on in life these tenants practiced in balance have been what Michael has focused on for several decades They work well for him In the course of these pursuits he says he has come to thousands of conclusions And they all point to the balanced life As he insists for him it is all about equivalent portions of mind mental body material relationships social and spirituality God the Universe Basically everything can be summed up within these four primary areas of life Michael seems to never hesitate to conclude that he has found his own personal means of salvation in the midst of pursuing his balance of the Principles of Philosophy Tanya Walker

wife **Reflections of a Mad, Mad World** Michael Jean Nystrom-Schut, 2005-05-23 TRILOGY BOOK FOUR includes three recent books from my twenty years of writing Being a philosophical book writer dealing with world view and value systems I get to take time doing something that is considered the work of men of leisure While it may not be the toughest of jobs I assure you that most days I am worn out from just thinking about it And can I conclude anything yet Sometimes I think I am going in reverse Reflections of a Mad Mad World is the title of the book and it is the headline work followed by two more books Remaking Michael and Forty Songs All three were written with you the reader and fellow life mate in mind If you wonder about the madness and chaos that in the world today and what you can do about it maybe you will benefit from reading Reflections of a Mad Mad World Book One This work addresses the nutty whacky world in which we live and suggests ways to cope If you are trying to turn over a new leaf and need some insight and direction then Remaking Michael Book Two might be for you In my personal travels through life I have been remade over and over again its fun There are always two sides to every coin My book Forty Songs takes on 20 negative points of view and counterbalances them with 20 more points that are positive You be the judge as you weigh the evidence when the matter of Life itself is placed on trial I am hopeful that this three books in one volume will be rewarding and beneficial for you On my web site HowISeeTheWorld.com questions and answers about Life that continue to crop up in the human mind are addressed Come to the site and see what I am talking about **Worldview 101** Michael Jean Nystrom-Schut, 2004-06-02 In truth just about anyone of us can scribble out a book about personal answers to the many questions of life Worldview 101 or What is most basic and true to my own reality as a human upon the earth is my own response to a number of different concerns and issues in life You might think of this writing as a personal Platos handbook a general set of responses to the many questions of life As its writer it is only a part of the representation of my most current worldview I say current because how we see the world is always in a state of movement Concerning the book as you read it do so with the approach that you are first taking into account my way of seeing things thinking about it and then re shaping more of how you personally view things See if you relate to we think this or we came to know that If you do adopt the idea as your own If not move on In picking and choosing your position on the issues presented here you will probably come to know more of what you are all about more of what you know you know And what will that do It will give you a perspective in higher thought which is a good sort of perspective to possess This you can hopefully use to govern your own life more personally It can be very difficult to acclimate to this world of ours Perhaps the thoughts in this book will help change or reshape your overall acclimation to life for the better Knowing more never really stops If life is meant for anything for some reason that we dont really know about it seems meant for us to learn more about being In the end it is this being part of us that relays a story It also tells to others in our world who and what we are or were Our lives are personal narratives and play out as such for each of us Life speaks to our innermost parts what is it saying to you We can hear the messages if we listen carefully **Survival Thoughts for the Continually Depressed** Michael Jean
