My Trade A Short History Of British Journalism:

My Trade Andrew Marr, 2004-10-12 How do you decide what is a story and what isn't? What does a newspaper editor actually do all day? How do hacks get their scoops? How do the TV stations choose their news bulletins? How do you persuade people to say those awful embarrassing things? Who earns what? How do journalists manage to look in the mirror after the way they sometimes behave? The purpose of this insider's account is to provide an answer to all these questions and more. Andrew Marr's brilliant and brilliantly funny book is a guide to those of us who read newspapers or who listen to and watch news bulletins but want to know more. Andrew Marr tells the story of modern journalism through his own experience. This is an extremely readable and utterly unique modern social history of British journalism with all its odd glamour, smashed hopes and future possibility.

Reporting from the Wars 1850 - 2015 Barry Turner, Daniel Barredo Ibáñez, Steven James Grattan, 2019-07-05 From the foundations of the world's first great empires to the empires of today, war has preoccupied human civilisation for as many as 4000 years. It has fascinated, horrified, thrilled, confused, inspired and disgusted mankind since records began. Provoking such a huge range of emotions and reactions and fulfilling all the elements of newsworthiness, it is hardly surprising that war makes good news. Modern technological advancements such as the camera and television brought the brutality of war into the homes and daily lives of the public. No longer a far away and out of sight affair, the public's ability to see what was happening on the frontline changed not only how wars were fought but why they were fought. Even when a war is considered popular, the involvement of the press and the weight of public opinion has led to criticisms that have transformed modern warfare almost in equal measure to the changes brought about by weapon technology. War reporting seeks to look beyond the official story to understand the very nature of conflict whilst acknowledging that it is no longer simply good versus evil. This edited volume presents a unique insight into the work of the war correspondent and battlefield photographer from the earliest days of modern war reporting to the present. It reveals how influenced by the changing face of modern warfare, the work of the war correspondent has been significantly altered in style, method and practice. By combining historical analysis with experiences of modern day war reporting, this book provides an important contribution to the understanding of this complicated profession which will be of interest to journalists, academics and students alike.

Religion and the News Owen Gower, 2016-04-08 In *Religion and the News*, journalists and religious leaders reflect on their interactions with one another and their experiences of creating news. Freemasonry and the Press in the Twentieth Century Paul Calderwood, 2016-04-15 By the end of the twentieth century Freemasonry had acquired an unsavoury reputation as a secretive network of wealthy men looking out for each others interests The popular view is of an organisation that if not actually corrupt is certainly viewed with deep mistrust by the press and wider society Yet as this book makes clear this view contrasts sharply with the situation at the beginning of the century when the public's perception of Freemasonry in Britain was much more benevolent with numerous establishment figures including monarchs government ministers archbishops and civic worthies enthusiastically recommending Freemasonry as the key to model citizenship Focusing particularly on the role of the press this book investigates the transformation of the image of Freemasonry in Britain from respectability to suspicion It describes how the media projected a

positive message of the organisation for almost forty years based on a mass of news emanating from the organisation itself before a change in public regard occurred during the later twentieth century This change in the public mood the book argues was due primarily to Masonic withdrawal from the public sphere and a disengagement with the press Through an examination of the subject of Freemasonry and the British press a number of related social trends are addressed including the decline of deference the erosion of privacy greater competition in the media the emergence of more aggressive and investigative journalism the consequences of media isolation and the rise of professional Public Relations The book also illuminates the organisation's collisions with nationalism communism and state welfare provision As such the study is illuminating not only for students of Freemasonry but those with an interest in the wider social history of modern Britain

Secrecy and the Media Nicholas John Wilkinson, 2009-05-28 Secrecy and the Media is the first book to examine the development of the D Notice system which regulates the UK media's publication of British national security secrets It is based on official documents many of which have not previously been available to a general audience as well as on media sources From Victorian times British governments have consistently seen the need in the public interest to prevent the media publishing secret information which would endanger national security The UK media have meanwhile continuously resisted official attempts to impose any form of censorship arguing that a free press is in the public interest Both sides have normally seen

the pitfalls of attempting to resolve this sometimes acrimonious conflict of interests by litigation and have together evolved a system of editorial self regulation assisted by day to day independent expert advice known colloquially as the D Notice System The book traces the development of this system from nineteenth century colonial campaigns through two world wars to modern operations and counter terrorism in the post Cold War era up to the beginning of the Labour government in 1997 Examples are drawn from media political and official sources some not yet open and cover not only defence issues including Special Forces but also the activities of the secret intelligence services MI5 MI6 and GCHQ These cases relate principally to the UK but also to American and other allies interests The story of how this sometimes controversial institution now operates in the modern world will be essential reading for those in the media and government departments and for academics and students in the fields of security defence and intelligence as well as being an accessible expos for the general reader Nicholas Wilkinson served in the Royal Navy 1959-98 and from 1999 to 2004 he ran the independent Defence Press and Broadcasting Advisory Committee He was a Press Complaints Commissioner from 2005 to 2008 and is a Cabinet Office Historian **The Journalistic Imagination** Richard Keeble, Sharon Wheeler, 2007-09-14 With an international focus and a broad historical scope this student friendly book focuses on the neglected journalism of writers more famous for their novels or plays and explores the specific functions of journalism within the public sphere and the literary qualities of journalism
