High Cols and Deep Canyons Stephen Legault, 2024-05-24 I am drawn to the empty quarter to open country to the place on the map where there are dragons and giants and the vast open spaces of mountains canyons rivers prairies and oceans However as the subtitle of this book declares I am merely an ordinary adventurer in search of extraordinary places In this series of fascinating and beautifully written essays about his deep desire for meaningful connection with the natural world his steadfast commitment to protecting the wilderness and his life on this vast and precious planet Legault invites us to explore the intricate relationships that develop between people and place when we immerse ourselves in wild nature Whether comfortably ensconced in a favourite easy chair or bedded down by a raging river under a canopy of stars readers will slip between sheer canyon walls walk a wind torn ridge high in the mountains meet Blondie the grizzly bear and perhaps discover their feral selves and the possibilities for a better future that this awakening might bring

Forgotten Highways Nicky L. Brink, Stephen R. Bown, 2011-02-01 Traversing the historic trails of the Rockies today is done in much the same manner as it was two centuries ago primarily on foot with heavy packs with little better defence against mosquitoes or the elements Although accurate maps are available and modern technology such as global positioning systems stand as a bulwark to a complete wilderness experience in many cases it is as difficult and challenging to cross these mountain passes or even more so than it was two centuries ago Routes such as Athabasca Pass are far less travelled today than they were in the golden era of the fur trade If our society has become so rich that we continually seek out physical and mental challenges in the wilderness adventure and eco travel perhaps it would be a sign of respect to follow at least for a while in the footsteps of those who in many ways paved the way for generations to come We began to form the idea of hiking all the significant historical trails to see what we could learn from the early pathfinders about the difficulty of wilderness life and travel What window would be opened to times past in a land where the terrain has remained essentially unchanged from the authors introduction

The Diva & the Rancher Jennifer Hamblin, David Finch, 2006 Big dreams dashed hopes and romance are at the heart of this biography of Norma and George Pocatererra The story begins in 1903 when George Pocatererra left Italy and came to the Canadian Rockies with hopes of striking it rich George is best known for establishing the Buffalo Head Ranch in the foothills of Alberta He developed a close friendship with members of the Stoney Indians and was one of the first non Natives to explore much of what is now called Kananaskis Country In 1933 he

returned to Italy where he met and fell in love with Norma Piper a young Calgary singer who had moved to Italy to study opera They eventually married and George took over the management of Norma s rising operatic career World War II forced a return to Canada in 1939 In Calgary Norma became part of the local music scene giving concerts and teaching singing at Mount Royal College In 1955 she started her own studio and over the next 25 years became one of Calgary s most loved music teachers George meanwhile continued with his coal mining ventures although he suffered bitter disappointments Drawing on personal diaries and correspondence the authors have created an intimate portrait of these remarkable Albertans who became each in their own way legends in their lifetimes
