Praise for 44 Days What if Alexis de Tocqueville were fluent in Mandarin and traveling through China by backpack and bullet train He would record every encounter and analyze China's national character with remarkable lucidity He would produce a book full of telling insights that functioned like a five dimensional chess game It would be a guide book travel companion memoir political history and plain old pleasure for someone who likes their prose with pith in it Oklahoma's latter day Tocqueville Jeff J Brown is one hell of a good story teller and traveling with him deep into China is an adventure not to be missed Thomas Bass Author of *The Spy Who Loved Us* *Vietnam* *Camping with the Prince* *Reinventing the Future* and *The Eudaemonic Pie* 44 Days is a delightful romp through a changing China and Jeff Brown is an excellent guide John Pomfret author of *Chinese Lessons* *Five Classmates* and *The Story of the New China* 44 Days is a fascinating exploration of the people of China and the land in which they live Brown is very knowledgeable of China's government and the country's millennia old history He obviously enjoys not just his travels but the people he meets While he journeys we journey with him Jeff Brown is an intelligent articulate and entertaining writer and 44 Days is absolutely enthralling I highly recommend it Mick Winter author of *Cuba for the Misinformed* *Facts from the Forbidden Island* Much more than just a travelogue 44 Days is an intimate dialogue with China's peoples their histories regions economies cultures work foods and future Unabashedly iconoclastic and a contrarian's delight Jeff brings down many a golden calf as he writes as few travelers do putting China's relations and rapid arc of development in perspective with the United States and Europe making 44 Days a fascinating and unique approach to today's critically important world affairs Traveling over 12 000km by train and bus walking hundreds more while climbing a few of those in vertical ascent join Jeff as he reports from the ground up on the greatest socioeconomic transformation ever seen 21st century China our planet's soon to be greatest superpower How will Baba Beijing China's central government behave while honoring its 2 200 year old Heavenly Mandate for 20% of the human race After 500 years of being masters of the world what will the great historical Industrial Age powers do in response adapt or lash out All of our standards of living and lifestyles even our species survival depend on these soon to be events Funny enlightening with an eye for the right details 44 Days provides unique perspectives to these new century issues It will keep you amused and thinking as Jeff takes you traveling in across and over five wild and wooly Western China provinces face to face with the local people Includes 125 photos maps and charts Read less *The Publishers' Trade List Annual* , 1986 **The Cumulative Book Index** , 1980 A world list of books in the English language **Books in Print** , 1977 **Books Out-of-print** , 1986 **City Between Worlds** Leo Ou-fan Lee, 2010-05-01 Hong Kong is perched on the fault line between China and the West a Special Administrative Region of the PRC Leo Ou fan Lee offers an insider's view of Hong Kong capturing the history and culture that

make his densely packed home city so different from its generic neighbors The search for an indigenous Hong Kong takes Lee to the wet markets and corner bookshops of congested Mong Kok remote fishing villages and mountainside temples teahouses and noodle stalls Cantonese opera and Cantopop But he also finds the real Hong Kong in a maze of interconnected shopping malls a jungle of high rise residential towers and the neon glow of Chinese owned skyscrapers in the Central Business District where land development global trade capital accumulation consumerism and free market competition trump every value except family Lee illuminates the relationship between Hong Kong s geography and its colonial experience revisiting colonial life on the secluded Peak in the opium filled godowns along the harborfront and in crowded plague infested tenements He examines with a critic s eye the Hong Kong story in film and fiction romance in the bars and brothels of Wan Chai crime in the walled city of Kowloon ennui on the eve of the 1997 handover Whether viewed from Tsing Yi Bridge or the deck of the Star Ferry from Victoria Peak or Lion Rock Hong Kong sparkles here in all its multifaceted complexity a city forever between worlds

Transmigratory Moves Congress on Research in Dance. Conference,2001 This year s conference explores the ways in which dance forms circulate across communities regions and nations acquiring new meanings as they travel While the term globalization has gained currency in scholarly debates of recent years the dispersion of performance practices is hardly a new phenomenon Thus the conference includes both historical and contemporary analyses of dances migrations What happens when dances migrate It is common knowledge that founding figures in European and Euro American modern dance appropriated Asian movement vocabularies in their choreographies But scholars are only beginning to examine the ways in which Latin American African and Asian folkloric dance convention has been inflected by European concert dance training and stage practice as well as MTV choreographers By focusing on the circulation of movement styles pedagogies and performance conventions we hope to trouble some of the categoric distinctions which have tended to divide dance research between Western and non Western classical and folkloric and ritual social and theatrical genres Arguably the histories of many contemporary dance forms are more complex than such restrictive categories would admit
