Myriad-minded Shakespeare E.A.J. Honigmann,1989-03-15 **Myriad-minded Shakespeare** E.

Honigmann,1997-10-27 Myriad minded Shakespeare introduces readers to the great variety of approaches to Shakespeare The political and sexist implications of the plays their sources staging issues textual disputes and the dramatist s character and biography are all analysed here bringing out the interconnectedness of critical questions Ernst Honigmann plunges straight into his subjects and shows that it is rarely safe to seek solutions that are narrowly exclusive For the second edition a new preface places the essays in the context of recent critical debate and a new chapter on Shakespeare s will provides a fascinating insight into Shakespeare s independent spirit *Dynamism of Character in Shakespeare's Mature Tragedies* Piotr Sadowski,2003 The theory considers human behavior in terms of functional equilibrium between the stable properties of the mind independent from the pressures of the sociocultural environment and the immediate situational context What we call character thus denotes an autonomous configuration of psychological elements which remains stable despite the changing external circumstances The Palgrave Handbook of Early Modern Literature and Science Howard Marchitello,Evelyn Tribble,2017-02-27 This book is about the complex ways in which science and literature are mutually informing and mutually sustaining It does not cast the literary and the scientific as distinct but rather as productively in distinct cultural practices for the two dozen new essays collected here the presiding concern is no longer to ask how literary writers react to scientific writers but rather to study how literary and scientific practices are imbricated These specially commissioned essays from top scholars in the area range across vast territories and produce seemingly unlikely unions between physics and rhetoric math and Milton Boyle and the Bible plague and plays among many others In these essays so called scientific writing turns out to traffic in metaphor wit imagination and playfulness normally associated with literature provides material forms and rhetorical strategies for thinking physics mathematics archeology and medicine *Shakespeare Survey* Stanley Wells,2002-11-28 The first fifty volumes of this yearbook of Shakespeare studies are being reissued in paperback **THE TRAGEDY OF MACBETH BY WILLIAM SHAKESPEARE** SENGUPTA, GAUTAM,2022-04-04 The Tragedy of Macbeth is the shortest tragedy written by William Shakespeare Macbeth the protagonist of the play is portrayed as a successful Scottish general in the army of King Duncan Macbeth one day gets politically instigated by a trio of witches that he would become the King of Scotland soon Encouraged by his wife Lady Macbeth and taken over by greed and action Macbeth murders King Duncan and becomes the King of Scotland Key Features Clear language with complete annotations Act wise Scene wise summary given at the end of every Act Plot wise Commentary given at the end of the text Critical Essay explaining Themes that emerge out of Macbeth and Under the Critics Lens have been provided Target Audience B A M A English Othello William Shakespeare,1999-01-01 In a period of ten years Shakespeare wrote a series of tragedies that established him by universal consent in the front rank of the worlds dramatists Critics have praised either Hamlet or King

Lear as the greatest of these Ernst Honigmann in the most significant edition of the play for a generation asks why not Othello The third of the mature tragedies it contains as Honigmann persuasively demonstrates perhaps the best plot two of Shakespeares most original characters the most powerful scene in any of the plays and poetry second to none Honigmanns cogent and closely argued introduction outlines the reasons both for a reluctance to recognize the greatness of Othello and for the case against the play This edition sheds new light on the text of the play as we have come to know it and on our knowledge of its early history Honigmann examines the major critical issues the play in performance and the relationship between reading it and seeing it He also explores topics such as its date sources and the conundrum of double time Honigmann s extensive knowledge illuminates this play at every turn making this the best edition of Othello now available

Brian Vickers Review of English Studies **Shakespeare and the Culture of Paradox** Peter G. Platt, 2016-04-01 Exploring Shakespeare s intellectual interest in placing both characters and audiences in a state of uncertainty mystery and doubt this book interrogates the use of paradox in Shakespeare s plays and in performance By adopting this discourse one in which opposites can co exist and perspectives can be altered and one that asks accepted opinions beliefs and truths to be reconsidered Shakespeare used paradox to question love gender knowledge and truth from multiple perspectives Committed to situating literature within the larger culture Peter Platt begins by examining the Renaissance culture of paradox in both the classical and Christian traditions He then looks at selected plays in terms of paradox including the geographical site of Venice in Othello and The Merchant of Venice and equity law in The Comedy of Errors Merchant and Measure for Measure Platt also considers the paradoxes of theater and live performance that were central to Shakespearean drama such as the duality of the player the boy actor and gender and the play audience relationship in the Henriad Hamlet As You Like It Twelfth Night Antony and Cleopatra The Winter s Tale and The Tempest In showing that Shakespeare s plays create and are created by a culture of paradox Platt offers an exciting and innovative investigation of Shakespeare s cognitive and affective power over his audience

A. J. Honigmann, 2013-03-07 In a groundbreaking piece of scholarly detective work Professor Honigmann editor of the forthcoming Arden 3 edition of Othello uncovers in more detail than any previous study the hidden history of the two early texts of Othello the Quarto and the Folio He traces the crucial role played by two men in transforming Shakespeare's almost illegible manuscript to print Thomas Walkley the publisher of the Quarto and Ralph Crane the scribe who prepared the printer's copy for the Folio Through careful analysis of particular passages Honigmann exposes the extent to which versions of Othello adopted by editors and widely regarded as fundamentally Shakespearean were profoundly influenced by others than Shakespeare himself Questioning time honoured editorial procedures the findings of Texts of Othello have implications for many other of the plays of the Shakespeare canon and more widely for questions of authorship and the doctrine of the better text **Antony and Cleopatra** Yashdip S.
