Research Methods Henrik Gert Larsen,2023-02-01 Eight Domains of Phenomenology and Research Methods is a unique
text that explains how the foundational literature representing our lifeworld experience aligns theory with research methods
Maintaining focus on the core problem of phenomenological investigations the author strives to bridge theory with applied
research by critically reviewing examples from the applied literature With the extensive use of the foundational literature s
original voices the book elaborates on how renowned scholars such as Husserl Heidegger and Sartre argued their ideas A
range of diverse voices is also explored through the perspectives of feminist and Black phenomenologists The text then goes
on to unpack the phenomenological methodologies with detailed explanations of signature techniques hereunder the epoch
and reduction from the perspectives of transcendental phenomenology phenomenological psychology and genetic generative
phenomenology Finally it addresses the problem of articulating phenomenological research questions as well as interview
questions that align with the different domains and methodologies This book is a must read for postgraduate students
