Loewen,2018-07-17 Every teacher every student of history every citizen should read this book It is both a refreshing antidote to what has passed for history in our educational system and a one volume education in itself Howard Zinn A new edition of the national bestseller and American Book Award winner with a new preface by the author Since its first publication in 1995 *Lies My Teacher Told Me* has become one of the most important and successful history books of our time Having sold nearly two million copies the book also won an American Book Award and the Oliver Cromwell Cox Award for Distinguished Anti Racist Scholarship and was heralded on the front page of the New York Times For this new edition Loewen has added a new preface that shows how inadequate history courses in high school help produce adult Americans who think Donald Trump can solve their problems and calls out academic historians for abandoning the concept of truth in a misguided effort to be objective What started out as a survey of the twelve leading American history textbooks has ended up being what the San Francisco Chronicle calls an extremely convincing plea for truth in education In *Lies My Teacher Told Me* James W Loewen brings history alive in all its complexity and ambiguity Beginning with pre Columbian history and ranging over characters

and events as diverse as Reconstruction Helen Keller the first Thanksgiving the My Lai massacre 9 11 and the Iraq War Loewen offers an eye opening critique of existing textbooks and a wonderful retelling of American history as it should and could be taught to American students Lies My Teacher Told Me James W. Ritchie, 2023-11-30 My life from my birthday to the last decade of 1900s is a spectrum of events both good and bad as I follow T S Elliot s lines We shall not cease

from exploration And the end of all our exploring Will be to arrive where we started And know the place for the first time
Growing up on my father s farm there was plenty of exploration but I never went back to the farm Far from it My
explorations took me where no teacher in my main field which is printmaking had gone because I was hired at 24 by a major
research university where its campus services gave me a head start exploring electronic arts and computers I could blend
with teaching printmaking Ironically while these brought opportunities there were hidden limitations In the 1980s I gambled
our home to take us on a vast sabbatical research project for the university We returned to find the school corrupt and so it
ended my career Fortunately I married well My high school sweetheart Lynda stayed with me even on my wayward ventures
In addition she brought two fine daughters to our lives And had it not been for her ability to restore our property my
exploring would have ended forever Because when the art school closed its door others opened Everything I learned in
nineteen years at the UW prepared me to continue privately By 1990 I was on cloud nine and the Internet was within my
grasp These are the words from one of two volumes I illustrated with a thousand pictures What autobiography of a teaching
artist s life would be complete without pictures Not only my art but my students and from collaborations with diverse artists
crafts people designers and writers Plus QR codes It is for anyone who loves a good read about teaching art as I was known
for in Seattle but also about an old professor s family friends art patrons and former students who made it possible It
continues in Volume 2 Volume 1 takes this farmboy to the approach of the information superhighway *You Don't Have To
