Western Banker ,1942 Beyond Physicalism Edward F. Kelly, Adam Crabtree, Paul Marshall, 2015-02-19 The rise of modern science has brought with it increasing acceptance among intellectual elites of a worldview that conflicts sharply both with everyday human experience and with beliefs widely shared among the world's great cultural traditions Most contemporary scientists and philosophers believe that reality is at bottom purely physical and that human beings are nothing more than extremely complicated biological machines On such views our everyday experiences of conscious decision making free will and the self are illusory by products of the grinding of our neural machinery It follows that mind and personality are necessarily extinguished at death and that there exists no deeper transpersonal or spiritual reality of any sort Beyond Physicalism is the product of an unusual fellowship of scientists and humanities scholars who dispute these views In their previous publication Irreducible Mind they argued that physicalism cannot accommodate various well evidenced empirical phenomena including paranormal or psi phenomena postmortem survival and mystical experiences In this new theory oriented companion volume they go further by attempting to understand how the world must be constituted in order that these rogue phenomena can occur Drawing upon empirical science metaphysical philosophy and the mystical traditions the authors work toward an improved big picture of the general character of reality one which strongly overlaps territory traditionally occupied by the world's institutional religions and which attempts to reconcile science and spirituality by finding a middle path between the polarized fundamentalisms religious and scientific that have dominated recent public discourse

Romantic Review Henry Alfred Todd,1920 Sensing the Sacred Hanna J. Lucas,2023-08-08 This book offers a theological vision of learning informed by the mystagogical homilies of Ambrose of Milan Cyril of Jerusalem John Chrysostom and Theodore of Mopsuestia In dialogue with these four mystagogues Hanna Lucas walks through the rites and liturgy surrounding baptism and the eucharist in order to establish a theological epistemology that sees knowledge as part of the capacitation of our nature for heavenly mysteries and union with God The sacraments of initiation teach us that even the mundane aspects of knowledge including the rudiments of matter and sensation fit into a larger divine gift of capacitation This book offers a holistic and integrated theory of knowledge that envisions one all encompassing divine pedagogy that orients toward union with God This union is experienced fully in the eschaton but it breaks into time through the sacraments of the church and it echoes down through the ordinary modes of knowing we encounter in daily life Mundane knowledge beckons the knower to become capable of a sublime intelligence to become capable of union with the divine This integrative unitive and eschatologically oriented vision of knowledge stands in stark contrast to modern and postmodern epistemologies Sensing the Sacred positions mystagogy as a timely remedy for the incapacitations that modernity offers us Hop on Pop Henry Jenkins III,Jane Shattuc,Tara McPherson,2003-01-23 A major collection of fan based cultural studies work largely by a new generation of scholars Performance in the Texts of Mallarmé Mary Lewis Shaw,1993-03-01 Performance in the Texts of Mallarm offers a new theory of performance in the poetic and critical texts of Stephane Mallarm a theory challenging the prevailing interpretation of his work as epitomizing literary purism and art for art s sake Following an analytical presentation of the concepts of ritual and performance generally applied Mary Shaw shows that Mallarm perceived music dance and theater as ideal languages of the body and therefore as ideal forms of ritual through which to supplement and celebrate poetic texts She focuses on previously unexplored references to supplementary extratextual performances in four of Mallarm s major poetic texts Herodiade L apr s midi d un faune Igitur and Un coup de des revealing the consistent formal expression of his original conception of literature s relationship to the performing arts Shaw then discusses Mallarm s monumental project Le Livre a metaphysical book designed to be performed in a series of ritual celebrations She analyzes and describes the intrinsic structure and contents of this unfinished work as the fullest realization of the text performance relationship elaborated throughout Mallarm s corpus Shaw offers Le Livre as a prototype of avant garde performance drawing important parallels between Mallarm s literary experimentation and crucial developments in twentieth century arts The Oxford Handbook of Maximus the Confessor Pauline Allen,Bronwen Neil,2015 Maximus the Confessor c 580 662 has become one of

the most discussed figures in contemporary studies of Byzantine theology and philosophy This book integrates for the first time Maximus works and thought into the history of his life in the politically troubled times of seventh century Byzantium
