Astrogeographia Robert Powell,David Bowden,2012-10-01 There are many books on the sacredness and the spirituality of our Earth Few books however deal with the relationship between the Earth and the cosmos which is the central theme for the research presented in this book Its point of departure is the one to one correspondence between the encircling starry heavens the celestial sphere and the sphere of the earthly globe David Bowden has not only worked out the mathematics of this one to one correspondence but has also written a computer program that applies it in practice Thus a new science has been born Astrogeographia concerning the one to one correspondence between the earthly sphere and the celestial sphere

Rosicrucianism Renewed Rudolf Steiner,2006-03 After Rudolf Steiner had left us in the body the gifts of the spirit that were offered by him in such overflowing measure could not continue It must now happen that a community of human beings takes over the results of his spiritual research takes them in such a way that they remain alive in the community People must come together in anthroposophic work united in such a way that Anthroposophy comes into its own Carl Unger Oct 29 1928 This volume provides perhaps the most comprehensive and profound exegesis of Rudolf Steiner s Anthroposophy especially his book titled Anthroposophical Leading Thoughts That book provides Steiner s final and most complete explanation of his Spiritual Science through brief aphoristic thoughts or meditations on the profound esoteric meaning of the modern spiritual path he called Anthroposophy In The Language of the Consciousness Soul Carl Unger unfolds and expands Rudolf Steiner s leading thoughts in 78 brief meditative chapters to help the reader comprehend the deeper meaning behind the Leading Thoughts Unger helps us see how Steiner created a mandala like image of Anthroposophy revealing an ever expanding cosmology and epistemology that goes far beyond mere philosophy or a belief system to a practical path of spiritual investigation and knowledge for modern humankind Rudolf Steiner had this to say about Carl Unger Dr Carl Unger for many years past has always been the most industrious and devoted collaborator in the anthroposophic movement At an early date Dr Unger saw that Anthroposophy before all needs a strong foundation of the

theory of knowledge With a deep understanding he took up what I myself many years ago was able to give in my books Goethe's Theory of Knowledge Truth and Knowledge and Intuitive Thinking as a Spiritual Path A Philosophy of Freedom he developed independently what I had intimated Supported by mental discernment his goal was to see through the nature of the human process of knowledge in a clear analysis and from that to form its true picture Dr Unger is not dialectical but an observer of empirical facts This is why through the years he has been able to give results of the highest value showing how the process of knowledge in ordinary consciousness produces always and everywhere out of itself the impulses to anthroposophic investigation Moreover Dr Unger's method of thinking trained through technical problems is free from subjective vagueness and thus his scientific collaboration in Anthroposophy is the most important that we can have The Language of the Consciousness Soul is an indispensable guidebook for group study and for individuals who wish to penetrate the depths of Anthroposophy and apply its principles both inwardly and to daily life This volume is an edited translation by Effie Grace Wilson of *Aus der Sprache der Bewusstseinsseele Unter Zugrundelegung der Leitsätze Rudolf Steiners*

Learning Centers for Intermediate Classrooms Casey Null, 1999-08 Collection of ideas and materials for creating a variety of learning centers for the intermediate or middle school grade levels *Spiritualism, Madame Blavatsky and Theosophy* Rudolf Steiner, 2002-11 This work builds on the foundation of the Popol Vuh the document that retraces in mythical language the four ages or stages of civilization that all of America has undergone to some degree It also moves from the Popol Vuh into later times through myths and legends of the Aztec and Iroquois Myth and history are placed side by side in a scientific and imaginative approach that documents the correlation between pre historical and historical periods and the spiritual events that ushered them in as narrated in the myths and legends of North America This approach reconciles Western analytical consciousness with the Native American language of myths and legends All of this is placed first in the perspective of Maya spiritual tradition and then from the perspective that the twentieth century research of Rudolf Steiner brought to light especially in relation to the events that took place in Central America two thousand years ago about which only Rudolf Steiner has spoken The first part of the work explores events of 2 000 years ago and their consequences in the onset of Maya civilization The second part researches the rise of new spiritual influences around the time just before the arrival of Columbus in America At the extremes of the spectrum we find Aztec and Iroquois worldviews Both cosmologies have links subtle or obvious with the Popol Vuh whether continuing or reinterpreting its original message This polarity

carries momentous consequences for global social trends in modern world history Spiritual Turning Points of North American History brings a fresh perspective to North American history and the meeting of European and First Nations worldviews

Powell,2007-03 Robert

Powell uncovers a secret stream of wisdom that flows through the heart of Christianity the feminine principle known in Greek as Sophia the being of Holy Wisdom herself This sacred embodiment named in the Old Testament as the first living being made by God has comforted and guided seekers of truth in every age and in every human culture Powell surveys the wonders and teachings associated with this unacknowledged treasure of Christianity s mystical past a stream running from the Greek philosophers and King Solomon through the cosmic visions of Hildegard von Bingen Our Lady of Guadalupe and the relation of Sophia to Mary the mother of Christ The Sophia Teachings provides accessible and informative insights into the being of Sophia generally overlooked by modern patriarchal Christianity and misinterpreted by new age and and other movements that often trivialize the meaning and purpose of this significant cosmic entity **Earthly Knowledge and Heavenly**

Wisdom Rudolf Steiner,1991 9 lectures Dornach February 1923 CW 221 There is a great difference between the meaning of know yourself in the ancient mystery centers and its meaning today In ancient times one tried to achieve after death what one can now attain during earthly life In order to reach higher stages of development after we die we must become fully human during life on Earth Such matters have changed over millennia of human and earthly evolution At the center of the evolution human consciousness is the Christ event Today we must experience the Christ within ourselves as light life and love By adopting the appropriate path of knowledge we can become citizens of the universe rather than hermits on the Earth These lectures are crucial reading for a deeper understanding of the anthroposophic view of our place as human beings in the cosmos This volume is a translation of Erdenwissen und Himmelerkenntnis GA 221 READ BOBBY MATHERNE S
