## **Mystic Dreams Notelets:**

**Mystic Dreams Notelets** Andrews McMeel Publishing, Lassen, 2001-10-01      **On Psychological and Visionary Art** C. G. Jung, 2025-07-22

The first English translation of Jung's landmark lecture on Nerval's hallucinatory memoir. In 1945, at the end of the Second World War and after a long illness, C. G. Jung delivered a lecture in Zurich on the French Romantic poet Gérard de Nerval. The lecture focused on Nerval's visionary memoir *Aurélia*, which the poet wrote in an ambivalent attempt to emerge from madness. Published here for the first time, Jung's lecture is both a cautionary psychological tale and a validation of Nerval's visionary experience as a genuine encounter. Nerval explored the irrational with lucidity and exquisite craft. He privileged the subjective imagination as a way of fathoming the divine to reconnect with what the Romantics called the life principle. During the years of his greatest creativity, he suffered from madness and was institutionalized eight times. Contrasting an orthodox psychoanalytic interpretation with his own synthetic approach to the unconscious, Jung explains why Nerval was unable to make use of his visionary experiences in his own life. At the same time, Jung emphasizes the validity of Nerval's visions, differentiating the psychology of a work of art from the psychology of the artist. The lecture suggests how Jung's own experiments with active imagination influenced his reading of Nerval's *Aurélia* as a parallel text to his own *Red Book*. With Craig Stephenson's authoritative introduction, Richard Sieburth's award-winning translation of *Aurélia*, and Alfred Kubin's haunting illustrations to the text, and featuring Jung's reading marginalia, preliminary notes, and revisions to a 1942 lecture, *On Psychological and Visionary Art* documents the stages of Jung's creative process as he responds to an essential Romantic text.

**Joseph Conrad and the Science of Unknowing** Camille R. La Bossière, 1979 *Buenos Aires 2022 - Analytical Psychology Opening to the Changing World: Contemporary Perspectives on Clinical, Scientific, Social, Cultural and Environmental Issues* IAAP, 2023-08-03 The XXII International Congress for Analytical Psychology was held in Buenos Aires, Argentina, and for the first time in South America. It was also the first such congress delivered in hybrid form, bringing together IAAP members from all over the globe in person and on screens. Guests interested in Jungian thinking from various other academic fields were invited and joined in the conversations. The theme of 'Opening to the Changing World' was explored as we come out of a pandemic and face the imperative of fast changes to our ways of working and relating to people, living beings, and the planet we inhabit. The Congress offered again ways of exploring themes via a rich programme of pre-congress workshops, masterclasses, plenary and breakout presentations, and posters. The Proceedings are published as two volumes: a printed edition of the plenary presentations and an e-book with the complete material presented at the Congress. To professionals as well as the general public, this collection of papers offers a cross-section and inspiring insight into contemporary Jungian thinking, spanning from classical theories to the latest scientific research.

**Encounters with C.G. Jung** Irene Gerber, Andreas Gerber, This volume presents the journal notes of Sabi Tauber, a young Swiss woman who recorded the experience of her encounters with C.G. Jung. She conscientiously noted Jung's responses to her questions and his comments on her dreams, mostly related to love, the creative principle, and the shadow. In the years 1951-1961, Sabi Tauber often visited Jung in Kessnacht and in his secluded tower in Bollingen. Jung also

went to her home in Winterthur a few times where he spontaneously explained his views in the circle of the Tauber family and their friends A reader today will immediately be touched by C G Jung s living spirit just as Sabi Tauber was then While addressing her personal situation Jung also repeatedly points to the archetype that he recognizes behind each problem In this way the scientific precision of Jung s thoughts is imbued with a unique feeling quality [The Teilhard Review](#) ,1972
