Jonathan Hill

Mystical Transformations The Imagery Of Liquids In The Work Of Mechthild Von Magdeburg:

Mystical Transformations James C. Franklin, 1978 Deals with the origins of Mechthild's water imagery motion and freedom as characteristics of liquids the nourishment of the soul the derogation of earth images and the imagery of specific liquids in *Das fließende Licht der Gottheit* The Flowing Light of the Divine

Mystical Transformations James C. Franklin, 1978 Mechthild of Magdeburg a Beguine was a Christian medieval mystic whose book *Das fließende Licht der Gottheit* described her visions of God She was the first mystic to write in German

Mechthild of Magdeburg Mechthild, Elizabeth A. Andersen, 2003 Mechthild of Magdeburg's *The Flowing Light of the Godhead* is one of the great surprises of German medieval literature Compiled between c 1250 and c 1282 it is an extraordinary piece of imaginative writing It integrates visions auditions dialogues prayers hymns lyrical love poems letters allegories and parables and draws creatively on features from hagiography the disputation the treatise and magic spells as the author documents her relationship with God and with her contemporaries Within the context of German literary history it is the first text in the tradition of mystical writing that was neither a translation nor a free adaptation of a Latin text but rather an independent composition in the vernacular Also of major significance is the fact that this text was written by a woman thus offering insights into the cultural and social historical context of the female religious Mechthild lived her adult life as a beguine and latterly as a nun in thirteenth century northern Europe Selections from the text are presented here in translation with introduction and notes Dr Elizabeth A Andersen teaches in the School of Modern Languages Newcastle University

Water in Medieval Literature Albrecht Classen, 2017-08-15 Ecocritical thinking has sensitized us more than ever before to the tremendous importance of water for human life as it is richly reflected in the world of literature The great relevance of water also in the Middle Ages might come as a surprise for many readers but the evidence assembled here confirms that also medieval poets were keenly aware of the importance of water to sustain all life to provide understanding of life's secrets to mirror love and to connect the individual with God In eleven chapters major medieval European authors and their works are discussed here taking us from the world of Old Norse to Irish and Latin literature to German French English and Italian romances and other narratives

The Writings of Medieval Women Marcelle Thiebaux, 2019-05-23 Published in 1994 The period surveyed in this anthology extends from the eve of Christianity's triumph in the third century to the new age of expansion in the fifteenth century an age marked by the advent of printing pressed the European discovery of the Caribbean islands which Columbus called the Indies the relentless stripping of medieval altars by Church reformists and perhaps a diminution of female autonomy

The Mystical Science of the Soul Jessica A. Boon, 2012-01-01 Ultimately I propose that considering internalization as embodiment is a critical methodological shift in understanding mystical methods in general and especially for probing recollection mysticism in depth The inner man as opposed to the outer man is a Pauline and Lutheran commonplace that is too frequently taken out of context leading historians of the Renaissance in general and of

Spanish Renaissance religion in particular to value references to internal or mental methods of spirituality as an improvement over external or bodily rituals This book takes its cue from the recent cognitive turn in medieval studies that complicates studies of the body in religion by focusing on the embodied aspects of cognition claiming a continuum between body and soul rather than a hierarchy I argue that medieval theories of cognition made the divorce of the body from the soul impossible for a Galenic doctor even one who spoke of the body and the world with contempt and by implication impossible for his Castilian audience Without serious consideration of Laredo's reliance on an embodied soul rather than on a body-soul dualism therefore no proper assessment of the unitive stage of recogimiento can be made Introduction p 67 **The**

Writings of Medieval Women Marcelle Theibaux, 2013-06-17 Royal and saintly women are well represented here with the welcome addition of women from the Mediterranean arc Garland has done a solid job of presenting this book *Arthuriana* The Anthology gives a fine sense of the great range of women's writing in the Middle Ages Medium Aevum **Introduction to**

the Medieval Mystics of Europe Paul E. Szarmach, 1984-01-01 The European Middle Ages bequeathed to the world a legacy of spiritual and intellectual brilliance that has shaped many of the ideals, preconceptions and institutions we now take for granted An Introduction to the Medieval Mystics of Europe examines this phenomenon in vivid and scholarly accounts of the lives and achievements of those men and women whose genius most inspired their own and subsequent ages These great mystics explored and consciously realized the relationship between human life and unconditioned transcendence

Representing both the contemplative and scholastic traditions the mystics in these studies often found their solutions to ultimate questions in radically different ways Some of them such as Eckhart Aquinas and Cusa may already be familiar and here the reader will benefit from a new approach and summary of extensive research Others such as Smaragdus and several of the women mystics are little known even to specialists Finally and unusually for a study of European mysticism the influence of Spanish Kabbalists is discussed in relation to the Zohar and two figures from the mystical school of Safed Cordovero and Luria Though the essays focus on individuals the cultural and social implications of their lives and work are never ignored for the mystic way did not exist separately from the rest of medieval life it functioned as an integral part of the whole influencing the development of Christian and Jewish religions in both their internal and external forms Medieval,

Renaissance and Enlightenment Women Philosophers M.E. Waithe, 1989-12-31 aspirations the rise of western monasticism was the most noteworthy event of the early centuries The importance of monasteries cannot be overstressed as sources of spirituality learning and autonomy in the intensely masculinized militarized feudal period Drawing their members from the highest levels of society women's monasteries provided an outlet for the energy and ambition of strong-willed women as well as positions of considerable authority Even from periods relatively inhospitable to learning of all kinds the memory has been preserved of a good number of women of education Their often considerable achievements and influence however generally lie outside even an expanded definition of philosophy Among the most notable foremothers of this early period were several

whose efforts signal the possibility of later philosophical work Radegund in the sixth century established one of the first Frankish convents thereby laying the foundations for women's spiritual and intellectual development From these beginnings women's monasteries increased rapidly in both number and in fluence both on the continent and in Anglo Saxon England Hilda d 680 is well known as the powerful abbess of the double monastery of Whitby She was eager for knowledge and five English bishops were educated under her tutelage She is also accounted the patron of Caedmon the first Anglo Saxon poet of religious verse The Anglo Saxon nun Lioba was versed in the liberal arts as well as Scripture and canon law

A History of Women Philosophers M.E. Waite, 1989-12-31 Aspirations the rise of western monasticism was the most noteworthy event of the early centuries The importance of monasteries cannot be overstressed as sources of spirituality learning and autonomy in the intensely masculinized militarized feudal period Drawing their members from the highest levels of society women's monasteries provided an outlet for the energy and ambition of strong willed women as well as positions of considerable authority Even from periods relatively inhospitable to learning of all kinds the memory has been preserved of a good number of women of education Their often considerable achievements and influence however generally lie outside even an expanded definition of philosophy Among the most notable foremothers of this early period were several whose efforts signal the possibility of later philosophical work Radegund in the sixth century established one of the first Frankish convents thereby laying the foundations for women's spiritual and intellectual development From these beginnings women's monasteries increased rapidly in both number and in influence both on the continent and in Anglo Saxon England Hilda d 680 is well known as the powerful abbess of the double monastery of Whitby She was eager for knowledge and five English bishops were educated under her tutelage She is also accounted the patron of Caedmon the first Anglo Saxon poet of religious verse The Anglo Saxon nun Lioba was versed in the liberal arts as well as Scripture and canon law

Dualities Michelle Voss Roberts, 2010-01-01 Philosophy and theology have each struggled with the problem of dualism the conviction that reality comprises material and nonmaterial entities Too often this split places God spirit mind and the masculine in opposition to evil body matter and the feminine These intellectual divisions support social structures that oppress rather than embrace women the poor people of color and others With this volume Voss Roberts expertly shows how comparative theology uproots dualism and fosters new modes of community built on cooperation instead of oppression

Trinitarian Theology and Power Relations M. Minister, 2014-11-06 This text crafts a trinitarian theology that reorients theology from presumptions about the immateriality of the Trinity toward the places where the Trinity matters material bodies in historical contexts and the intersecting ways political and theological power structures normalize and marginalize bodies on the basis of material difference

Mediation and Immediacy Jenny Ponzio, Robert A. Yelle, Massimo Leone, 2020-12-07 Religion like any other domain of culture is mediated through symbolic forms and communicative behaviors which allow the coordination of group conduct in ritual and the representation of the divine or of tradition as an

intersubjective reality While many traditions hold out the promise of immediate access to the divine or to some transcendent dimension of experience such promises depend for their realization as well on the possibility of mediation which is necessarily conducted through channels of communication and exchange such as prayers or sacrifices An understanding of such modes of semiosis is therefore necessary even and especially when mediation is denied by a tradition in the name of the ineffability of the deity or of mystical experience This volume models and promotes an interdisciplinary dialogue and cross cultural perspective on these issues by asking prominent semioticians historians of religion and of art linguists sociologists of religion and philosophers of law to reflect from a semiotic perspective on the topic of mediation and immediacy in religious traditions
