Barrett, Ronald Gots, 2010-12-31 Chemical sensitivity or multiple chemical sensitivity describes people with numerous troubling symptoms attributed to environmental factors from simple housepaint to complex building structures and materials in offices and schools Many such people are seeking special accommodations applying for disability benefits and filing lawsuits claiming that exposure to common foods and chemicals has made them ill Their efforts are supported by some physicians who refer themselves as clinical ecologists They use questionable diagnoses and treatment methods while critics charge that these approaches are bogus and that chemical sensitivity is not a valid diagnosis The complaints associated with chemical sensitivity include depression irritability poor memory fatigue drowsiness constipation sneezing wheezing skin rashes headache chest pain pounding heart swelling upset stomach paralysis AIDS like illnesses psychotic experiences and just about every other symptom noted in medical textbooks One prominent clinical ecologist even claimed that chemical sensitivity patients may well be human canaries on an increasingly poisoned planet and others have actually labeled chemical sensitivity as a disease While some people are adversely affected by exposure to some chemicals there is an overwhelming

increase in false claims and reports from misled obsessive patients and opportunistic doctors Chemical Sensitivity examines this phenomenon in depth and the scientific legal ethical and political issues that surround it The authors explore the speculations about environmental exposure in the light of scientific knowledge of human physiology allergy and immunology pathology toxicology and clinical medicine They evaluate cases of chemical sensitivity relative to controlled tests and reveal that symptoms were brought on by psychological factors rather than physical ones Chemical Sensitivity also critically assesses claims related to sick building syndrome mercury amalgam toxicity yeast allergy and Gulf War syndrome
