Mystical Experience Overview

- 'Mystical Experience' is a broad term that encompasses various types of religious experience, including dramatic accounts where people have had visions and hear voices, or moments where people feel an overwhelming sense of being in the presence of God or even a sense of unity with God whichever way they feel like they can describe the experience.
- The term 'mysticism' was introduced in the late 19th and early 20th century in an attempt to search for common ground between the major world religions. There was a growing movement in which people wanted to demonstrate how world religions, although different in practice, came from the same beliefs about the nature of the world and our ultimate reality which we experience as human beings.
- When religious experience is referred to as 'mystical', therefore it carries connotations of the idea that underneath the different doctrines and practices, perhaps everyone is connecting with the same God, even though this may be in various unique ways.

Mysticism And Experience:

Mysticism Jess Hollenback, 1996-11-01 This sweeping study of mysticism by Jess Hollenback considers the writings and experiences of a broad range of traditional religious mystics including Teresa of Avila Black Elk and Gopi Krishna It also makes use of a new category of sources that more traditional scholars have almost entirely ignored namely the autobiographies and writings of contemporary clairvoyants mediums and out of body travelers This study contributes to the current debate about the contextuality of mysticism by presenting evidence that not only are the mystic's interpretations of and responses to experiences culturally and historically conditioned but historical context and cultural environment decisively shape both the perceptual and affective content of the mystic's experience as well Hollenback also explores the linkage between the mystic's practice of recollection and the onset of other unusual or supernormal manifestations such as photisms the ability to see auras telepathic sensitivity clairvoyance and out of body experiences He demonstrates that these extraordinary phenomena can actually deepen our understanding of mysticism in unexpected ways A unique feature of this book is its in depth analysis of empowerment an important phenomenon ignored by most scholars of mysticism Empowerment is a peculiar enhancement of the imagination thoughts and desires that frequently accompanies mystical states of consciousness Hollenback shows its cross cultural persistence its role in constructing the perceptual and existential environments within which the mystic dwells and its linkage to the fundamental contextuality of mystical experience

Mysticism and Experience Russell H. Hvolbek, 1998-08-27 Attempts to talk about and put into perspective mystical religious and personal existential experiences and the knowledge that such experiences give us seeking to justify and champion the knowledge derived from those experiences Examines the nature of experience as it takes place in science and the humanities and then analyzes the mystical experiences of the German mystic Jacob Bohme Annotation copyrighted by Book News Inc Portland OR Mystical Experience of God Jerome Gellman, 2017-11-01 This title was first published in 2001 Engaging contemporary discussion concerning the validity of mystical experiences of God Jerome Gellman presents the best evidential case in favor of validity and its implications for belief in God Gellman vigorously defends the coherence of the concept of a mystical experience of God against philosophical objections and evaluates attempts to provide alternative explanations from sociology and neuropsychology He then carefully examines feminist objections to male philosophers

treatments of mystical experience of God and to the traditional hierarchal concept of God Gellman finds none of the objections decisive and concludes that while the initial evidential case is not rationally compelling for some it can be rationally compelling for others Offering important new perspectives on the evidential value of experiences of God and the concept of God more broadly this book will appeal to a wide range of readers including those with an interest in philosophy of religion religious studies mysticism and epistemology

Phenomenology and Mysticism Anthony J. Steinbock,2009-12-22 Exploring the first person narratives of three figures from the Christian Jewish and Islamic mystical traditions St Teresa of Avila Rabbi Dov Baer and R zbih n Baql Anthony J Steinbock provides a complete phenomenology of mysticism based in the Abrahamic religious traditions He relates a broad range of religious experiences or verticality to philosophical problems of evidence selfhood and otherness From this philosophical description of vertical experience Steinbock develops a social and cultural critique in terms of idolatry as pride secularism and fundamentalism and suggests that contemporary understandings of human experience must come from a fuller more open view of religious experience

Mysticism and the Mystical Experience Donald H. Bishop,1995 Mysticism and the Mystical Experience examines both the variety and universality of mysticism both currently and historically It considers how various authors have defined mysticism and raises questions about acceptable definitions It also considers the nature of the mystical experience its prerequisites and results and takes up the arguments of proponents for and against the claim of a single universal mysticism in contrast to a multiplicity of mysticisms

C. Gabriel, 2003

Mysticism is proving to be the chosen type of religion for future generations of believers in the West As traditional institutional religion continues to decline mystical thought is celebrated as a vital subversive alternative Evidence for this religious cultural shift towards the mystical the experiential and indeed the creation centered can be found in bookstores most of which devote a large amount of shelf space to mystical themes and writers from the world religions While this shift is not new an increasing number of westerners are turning east because they find the fundamentally mystical thought of Asian religious traditions appealing Furthermore numerous westerners have actually become gurus and mystics within Eastern traditions Mysticisms East and West examines the worldwide phenomenon of mystical experience across the world religions In examining both Christian and non Christian expressions of mysticism this unique volume brings together a number of prominent evangelical scholars to analyze the central historical cultural and theological issues Beginning in the East these studies in mystical experience gradually move to the West and to Christian mysticism before concluding with a number of philosophically reflective essays examining the implications and nature of mysticism **Zen and the**

Unspeakable God Jason N. Blum, 2015-09-21 Zen and the Unspeakable God reevaluates how we study mystical experience Forsaking the prescriptive epistemological box that has constrained the conversation for decades ensuring that methodology has overshadowed subject matter Jason Blum proposes a new interpretive approach one that begins with a mystic's own beliefs about the nature of mystical experience Blum brings this approach to bear on the experiential accounts of three mystical exemplars Meister Eckhart Ibn al Arabi and Hui neng Through close readings of their texts he uncovers the mystics own fundamental assumptions about transcendence and harnesses these as interpretive guides to their experiences The predominant theory first path to interpretation has led to the misunderstanding and misrepresentation of individual mystical experiences and fostered specious conclusions about cross cultural comparability among them Blum's hermeneutic invites the scholarly community to begin thinking about mystical experience in a new way through the mystics eyes Zen and the Unspeakable God offers a sampling of the provocative results of this technique and an explanation of its implications for

theories of consciousness and our contemporary understanding of the nature of mystical experience *The Shape of the Soul* Paul Marshall, 2019-03-18 An essential read for any true seeker Eben Alexander MD Neurosurgeon author of *Proof of Heaven* and *Living in a Mindful Universe* When Paul Marshall began to pay attention to his dreams he could not have anticipated the transformative experience that would follow A tremendous expansion of consciousness exposed the insignificance of his everyday self but also revealed unsuspected depths of mind and hinted at a deeper self that holds the universe within In *The Shape of the Soul* Marshall now a mysticism scholar draws on personal experiences along with a wealth of religious philosophical and scientific ideas to explore this deeper self sometimes experienced in mystical and near death states as spherical in form Drawing inspiration from the philosophers Plotinus and Leibniz Marshall takes mind to be more fundamental than matter and views the basic units of nature as perceptual beings We ourselves are such beings striving for fulfilment in a long evolutionary journey of soul making Bringing together mysticism philosophy biology and even some physics *The Shape of the Soul* offers a deeply integrated vision of the self and the universe Addressing the mind body problem the origin of the world evolution reincarnation suffering and the nature of God Marshall delivers what will surely prove an intellectual classic *A Scientific Assessment of the Validity of Mystical Experiences* Andrew Papanicolaou, 2021-04-14 In this book the approach of the natural sciences is adopted to confront the ontological question of how far mystical experiences can be considered as reports of an objective reality rather than reports of subjective delusions Moving beyond traditional philosophical or cultural and theological interpretations of mystical phenomena the author uses inductive inference to analyze claims made by secular and religious mystics highlight links between altered states of consciousness and neurochemistry and counters reductionist claims that mystical states are exclusively products of neurochemical neurophysiological or psychopathological factors The text also considers the positive long term effects of proper use of psychedelics and meditation This fresh approach to mystical experiences will be of interest to scholars researchers and postgraduate students working in the areas of psychology and neuroscience and with an interest in mysticism in religious studies and philosophy *The Immediacy of Mystical Experience in the European Tradition* Miklós Vassányi, Enikő Seps, Anikó Daróczi, 2017-01-19 This volume examines mystical experiences as portrayed in various ways by authors such as philosophers mystics psychoanalysts writers and peasant women These mystical authors have throughout the ages attempted to convey the unsayable through writings paintings or oral stories The immediate experience of God is the primary source and ultimate goal of these mystical expressions This experience is essentially ineffable yet all mystical authors either consciously or unconsciously feel an urge to convey what they have undergone in the moments of rapture At the same time they are in the role of intermediaries the goal of their self expression either written painted or oral is to make others somehow understand or feel what they have experienced and to lead others toward the spiritual goal of human life This volume studies the mystical experiences and the way they have been described or portrayed in West European culture

from Antiquity to the present from an interdisciplinary perspective and approaches the concept of immediate experience in various ways

Women and Mystical Experience in the Middle Ages Frances Beer, 1992 Original and thought provoking study of three medieval women mystics based on writings and biographical material A wholly feminine voice within Catholicism they express the inexpressible better than any amount of rational thinking about God THE TIMES The three women who are the subject of this fascinating study left a rich legacy of medieval spirituality Frances Beer explores their writings and draws on available historical evidence to bring the experience of all three women closer to a 20th century audience She sees Hildegard's perception of her Creator as informed by the heroic ideal while Mechthild's erotic experience seems to show the influence of the minnesingers Julian's experience of tender intimacy with her Lord demonstrates an egalitarian confidence in the ability of the individual soul to progress towards oneness with the divine Their individual natures are also further revealed through the author's examination of their resolution of a number of theological problems In contrast the works of two medieval men writing for women are also explored FRANCES BEER is Associate Professor of English at York University Toronto

Mysticism and Language Steven T. Katz, 1992 Taken collectively the original essays in this new collection make up the most important exploration of mysticism and language to appear in many years Written from diverse perspectives on a wide variety of religious and mystical traditions ranging from Judaism and Christianity to Zen Buddhism and Hinduism all the essays exhibit great erudition a mastery of the original mystical sources and philosophical and hermeneutical sophistication Further all recognize the inadequacy of treating the questions surrounding this subject a contextually outside of their historic intellectual and sociological circumstances As such these studies deepen the on going revisionist contextualist study of mysticism so

powerfully and influentially inaugurated by two previous collections also edited by Steven Katz *Mysticism and Philosophical Analysis* and *Mysticism and Religious Traditions* Like its predecessors the present collection includes work by some of the world's leading authorities on mysticism including Moshe Idel William Alston Bernard McGinn Ewert Cousins Bimal Matilal Carl Ernst and Steven Katz It is sure to become essential reading for everyone interested in mysticism as well as those who study religion comparative religion philosophy and history
