Almond,2015-02-06 No detailed description available for Mystical Experience and Religious Doctrine *Mysticism and the Spiritual Quest* Phyllis Zagano,2013 A crosscultural exploration of the meanings definitions practices and common themes of mysticism via a study of original texts in translation from different parts of the world It brings together the writings of the mystics from Christianity Judaism Islam Buddhism Hinduism Taoism and Confucianism in one volume *Mysticism in Religion* William Ralph Inge,1959 **Mystics of the Church** Evelyn Underhill,2002-07-08 Evelyn Underhill s classic book on mysticism shows not only the historic development of Christian mysticism and its influence on the Church but gives a deep insight into the spiritual growth of the individual mystics their struggles achievements and influence Covering the whole development of the Christian Church from St Paul to the present century the author illustrates the differing backgrounds and approach of many of the great mystics such as St Augustine of Hippo whose writings helped to create the Church s understanding of its mystical character and St Francis of Assisi whose example proved an inspiration to many The book gives much more than an opportunity to meet the great mystics it also provides a framework for the analysis of true mysticism and false contrasting Catherine of Sienna a girl of the people whose transcendental mysticism benefited many in an age of ecclesiastical degradation with the well born and beautiful Madame Guyon whose excesses brought mysticism into disrepute Evelyn Underhill illuminates the whole of her subject by drawing attention to the differences of approach that can bring mortals along the road to the divine from the zealous militancy of a Loyola to the passivity of the Quietists This absorbing study by one of the great writers on mysticism covers every aspect of the subject and gives a clear understanding of the mystics world in writing that is both informative and stimulating **The Mystic Heart** Wayne Teasdale,2001 Drawing on experience as an interreligious monk Brother Wayne Teasdale reveals the power of spirituality and its practical elements He combines a profound Christian faith with an intimate understanding of ancient religious traditions **Teaching Mysticism** William B. Religion and Reality, a Study in the Philosophy of Mysticism James Henry Tuckwell,1915

Constructions of Mysticism as a Universal Annette Wilke,2017-06-01 This volume charts the fascinating history of the multiple roots and interactions which underlie the modern popular understanding of mysticism as a universal phenomenon across epochs and cultures In an unprecedentedly broad interdisciplinary exchange international scholars from different disciplines critically examine the concept and mental maps of the term mysticism which enjoyed a central role in classical theories of religion as developed in fields like psychology sociology history or phenomenology However mysticism lost its prominence after the controversial debates in the second half

of the twentieth century about whether mystical experience should be considered universal or socio culturally constructed After four decades of silence this volume ventures a stimulatingly novel approach to mysticism as a universal transcultural category from the perspective of the cultural studies of religion This includes the question of how a European concept fraught with Christian notions was transferred to non European cultures and secular contexts and thereby attained new meanings and functions in daily life Fresh insights are gained by examining three major areas a mysticism s potential for boundary crossing in earlier centuries of European history b the history of mysticism research in context from the mysticism boom at the fin de siecle and early twentieth century to its renewed attractiveness in American counterculture and the psychedelic movement to its transformation into postmodern spirituality and c universal mysticism s absorption of Eastern religions notably Buddhism Hindu traditions and Daoism as well as Asian insiders self conceptions

Signposts to Silence
J.S. Krüger, 2018-12-01

Signposts to Silence provides a theoretical map of what it terms metaphysical mysticism the search for the furthest most inclusive horizon the domain of silence which underlies the religious and metaphysical urge of humankind in its finest forms Tracing the footsteps of pioneers of this exploration the investigation also documents a number of historical pilgrimages from a variety of cultural and religious backgrounds Such mountaineers of the spirit who created paths trodden by groups of followers over centuries and in some cases millennia include Lao Tzu and Chuang Tzu Siddhattha and Jesus Sankara and Fa tsang Plato and Plotinus Isaac Luria and Ibn Arabi Aquinas and Hegel Such figures teachings and traditions including the religions of Judaism Christianity and Islam Hinduism Buddhism and Taoism are understood as at their most sublime not final destiny and the end of the road but signposts to a horizon of ultimate silence The hermeneutical method employed in tracking such pioneers involves four steps sound historical critical understanding of the context of the various traditions and figures reconstruction of the subjective intentional structure of such persons and their teachings design by the author of a theoretical map of the overall terrain of metaphysical mysticism on which all such journeys of the spirit are to be located while providing a theoretical context for understanding them tendentially i e taking the ultimate drift of their thinking essentially to transcend their subjective intentions drawing out within the space available some political taken in a wide sense implications from the above such as religio political stances as well as ecological and gender implications Continuing the general direction of thought within what the author endorses to be the best in metaphysical mysticism in its historical manifestations the book aims to contribute to peace amongst religions in the contemporary global cultural situation It relativizes all claims to exclusive absolute truth that might be proclaimed by any religious or metaphysical mystical position while providing space for not only tolerating but also affirming the unique value and dignity of each This orientation moves beyond the stances of enmity or indifference or syncretism or homogenisation of all as well as that of mere friendly toleration It investigates the seemingly daunting and inhospitable yet immensely significant Antarctica of the Spirit the meta space of silence behind the various forms of wordy inter relationships It affirms *pars pro toto totum pro*

parte and pars pro parte that each religious mystical and metaphysical orientation in its relative singularity represents or contains the whole and derives value from that and that each represents or contains every other This homoversal solidarity stimulating individual uniqueness is different from and in fact implies criticism of the process of globalisation While not taking part in a scientific argument as such Signposts to Silence aims at promoting an understanding of science and metaphysical mysticism as mutual context for each other and it listens to a number of voices from the domain of science that understand this
