PROBLEMS OF MYSTICISM AND ITS SYMBOLISM HERBERT. SILBERER, 2019 **Problems of Mysticism and Its Symbolism** Herbert Silberer, 1917 The Meaning and Value of Mysticism Emily Herman, 1922 Mysticism and Symbolism in Aitareya and Taittiriya Āraṇyakas B. D. Dhawan, 1988 The entire Vedic Literature had broadly speaking four different and distinct stages of development over a period of thousands of years since the very pre historic times The Aranyakas or the Forest Texts constitute the third important class of literary work Despite constituting a landmark and rather a turning point in the remarkable philosophic thought of the entire Vedic literature the Aranyakas have of the Vedic scholars researchers Whatever research had been undertaken in this branch of Vedic literature it has invariable been perfunctory or at the most touched only on in significant aspect of the other wise rich philosophic contents of the Hermit Texts A significant feature of this book is that it undertakes a comprehensive analysis of the most intricate spiritual mysteries of the universe Such deep seated intricacies of philosophy have been extricated from a plethora of ritualistic moss and characteristically archaic language of the texts under study The Supreme Being who transcends the duality of subject and object cannot ipso facto be a field of clear definition and demonstration but inspite of such inherent limitations the author has lucidly deciphered His characteristics including His omniscience omnipresence identity between the universal and individual souls permeation of the latter even up to the ends of the hair in the human body etc Even a cursory glance through the work reveals that these two principal Aranyakas are immensely rich in their metaphysical contents The author has rather boldly brought out some of the then prevailing social superstitions like observing of odd omens their ill effects and pseudo mysticism so much so that even the points of comparison and contrast between the two Aranyakas under study have also been meticulously but briefly brought out In short the book presents a panoramic view of the Aryan culture including social conceptions in that hoary past **Problems of Mysticism and Its Symbolism** Herbert Silberer, Smith Ely Jelliffe, 2014-03 This Is A New Release Of The Original 1917 Edition **Christian Mysticism** William Ralph Inge, 1918 An Anthology of Mysticism and Mystical Philosophy William Kingsland, 2024-11-01 First published in 1927 An Anthology of Mysticism and Mystical Philosophy is a valuable contribution to the literature of mysticism in general both in its theoretical and experimental aspects It contains over seven hundred and fifty quotations from one hundred and fifty eight ancient and modern mystical philosophical and scientific works This book also acts as a supplement to William Kingsland s previous volume Rational Mysticism for it is illustrative of the principles therein set forth **Symbolism of Alchemy and the Occult Arts** Herbert Silberer, Smith Ely Jelliffe, Ph.d, 2014-05-03 Prominent among the stones of a fireplace in my country den one large rounded giant stands out It was borne by the glacial streams from a more northern resting place and is marked by a fossil of a mollusk that inhabited northern seas many million years ago Yet in spite of the eons of time that have passed it can be compared with specimens of mollusks that live to day Down through the countless centuries the living

stream has carved its structural habitations in much the same form The science of Paleontology has collected this history and has attempted a reconstruction of life from its beginnings The same principle here illustrated is true for the thought life of mankind The forms in which it has been preserved however are not so evident The structuralizations are not so definite If they were evolution would not have been possible for the living stream of energy which is utilized by mind stuff cannot be confined if it would advance to more complex integrations Hence the products of mind in evolution are more plastic more subtle and more changing They are to be found in the myths and the folk lore of ancient peoples the poetry dramatic art and the language of later races From age to age however the strivings continue the same The living vessels must continue and the products express the most fundamental strivings in varying though related forms Nature Mysticism John Edward Mercer, 2019-11-26 In Nature Mysticism John Edward Mercer embarks on an intellectual exploration of the profound connections between nature and the human experience The book is characterized by its lyrical prose and philosophical depth weaving together elements of mysticism ecology and spirituality Mercer draws upon a rich tapestry of literary traditions from Romantic poets to contemporary environmental thinkers to illustrate how nature can serve as a conduit for transcendental insights Each chapter invites readers to contemplate their own relationship with the natural world inviting an experiential understanding that transcends mere observation Mercer an accomplished essayist and scholar of comparative literature has spent years studying the intersection of literature and environmental philosophy His background in both Western and Eastern mystical traditions informs his writing allowing him to synthesize complex ideas in a manner that is both accessible and thought provoking This dual perspective has led him to appreciate the timelessness of nature's influence on human consciousness and the essential role it plays in shaping our spiritual lives For readers seeking a deeper connection with the natural world and a richer understanding of the mystical dimensions of life Nature Mysticism is an essential read Mercer's thoughtful examination challenges us to reconsider our place within the ecosystem inspiring readers not only to reflect on their experiences but also to engage actively with the wonders of the world around them
