## **Mythoempiricism Of Gnosticism:**

**The Mytho-empiricism of Gnosticism** S. Giora Shoham, 2003 The publication of *The Mytho Empiricism of Gnosticism* is to be saluted Shoham sheds light on religious and philosophical religious traditions Gnosticism Kabbala and existentialism for which as stated by the book's subtitle *The Centre Does Not Hold* The result is one of those rare books in which the newness of the view is accompanied by penetrating insights into the already familiar The Gnostic traditions examined in their great historical variability reveal some surprising similarities Born in a profound situation of crisis from the destruction of the Second Temple up to the destruction of the European Jews during World War II they have demonstrated their capacity to strike root Gnostic traditions with their capability of feeding a twofold politics of desire are explained by the author in the context of two great Greek mythical models the Sisyphean and the Tantallic In reality the mythogenes in the penetrating psychoanalytical rereading offered by Shlomo Shoham represent imaginatively life's fundamental phases commencing with the trauma of birth passing on to the constitution of a separate self via separation from the maternal bosom to a phase where complex mechanisms of desire repulse are formed which will thereafter accompany the infant throughout his or her life But it is not only individuals who engage in desire repulse formations and dichotomy It is the author's penetrating insight that demonstrates how a religious history may be retraced through the study of the great mythogenes *Ark in the Authentic Domain* Shlomo Giora Shoham, 2008-12-18 This volume is an innovative exposition of the person and teaching of Rabbi Johanan Ben Zakkai the Rivaz the 1st century Jewish sage who crossed the lines over to emperor Vespasian during the siege of Jerusalem He proclaimed that for the Jews the learning of the Torah was even more essential than independence Hence he asked for permission to study the Torah at Jabneh where after the destruction of the Second Temple he established the famous schools for religious studies He is very controversial within Orthodox circles until this very day However we claim that he saved Judaism as it is studied and upheld throughout the generations of scholarship in the diasporas of Babylon Spain North Africa and Europe The story and the saga of Rabbi Johanan Ben Zakkai is presented in this volume within the context of the history of the Jews and Judaism **The Measure of All Things** Shlomo Giora Shoham, 2014-09-01 *The Measure of All Things* is the final volume in a trilogy about man as related to the genesis of the world to metaphysics and to the ontological vicissitudes of the human species This book reviews the condition of man and his relationship with the forces of evolution in both a biological and a spiritual sense It is therefore an innovative excursion into the present day arguments between the evolutionist and creationist regarding the fate of man **And Man Created God** Shlomo Giora Shoham, 2011-08-08 *And Man Created God* presents a new theory of mytho empiricism based on the mythological concepts of Claude Lévi Strauss and the structuralism of Jeanne Piaget The whole nature of mythogenes as the creative force linking history and transcendence is then elucidated The corpus of myths in the books of Genesis and Exodus are presented in a new light and then compared with the Egyptian Mesopotamian and Greek mythologies to highlight the Judaic myths with the pagan contrast

**Gnosticism** John Glyndwr Harris, 1999 Harris former head of the religious studies department at Gwent and author of scholarly volumes on religious topics introduces the basic ideas and practices of Gnosticism a system of religious and philosophical beliefs which was widely embraced in the earlier centuries of Christianity Distributed by ISBS Annotation copyrighted by Book News Inc Portland OR *Eurasian Philosophy and Quantum Metaphysics* Juan Valdez, 2019-01-15 Eurasian Philosophy and Quantum Metaphysics Theology Reconsidered By Juan Valdez The science of our modern age is able to neither address nor solve our current global problems Author Juan Valdez believes we should study humanity's ancient wisdom and philosophy texts to develop a new intellectual paradigm that can respond and support our current needs Eurasian Philosophy and Quantum Metaphysics Theology Reconsidered is an in depth study of the origins and meanings of ancient philosophies before they were fractured into mythology and religions and attacked by modern science Beginning with creation mythology in Eurasia through the development of philosophical thought to the Scientific Revolution to our own modern Quantum Era the progression and abandonment of ancient wisdom is carefully studied Valdez reviews and analyzes the ancient texts themselves to understand what they truly say and not what later historians have said about them The Indo Aryan Vedas the Torah Rene Descartes Discourse on the Method and Principles of Philosophy Neils Bohr's Atomic Theory and more are all respectfully and critically assessed As enlightened as we may consider ourselves Valdez calls attention to how limited modern thought has become By reviewing past wisdom we can not only rediscover the roots of modern thought but place Wisdom itself at the top of intellectual pursuits Eurasian Philosophy and Quantum Metaphysics Theology Reconsidered is a rich and nuanced study on how humanity has thought of itself **The Gnostic Luciferian New Age** **Babylon Revisited** Gregory Lessing Garrett, 2019-09-30 The Gnostic Luciferian New Age Utopia will be based upon a Mystery Babylon re visitation of tolerance for all behaviors narcissistically self indulgent sexually perverse psychoactively induced and sinfully decadent with self worship and self adulation as the highest pinnacle of religious zeal Additionally utilizing the trickery and artifice of an Alien Antichrist Messiah Deception the Luciferian Elite seek to obliterate Christianity and replace it with a Gnostic Pantheistic Cosmogogenesis narrative where Ancient Aliens are our true genetic origins and Cosmic Evolution with Mankind in tow is the Grand Design of the Universe Since this is a very real situation which effects all the world in the direst sort of way the contents of this book are relevant to all citizens of the world This book bravely explores the various guises that this repackaged Babylonian Gnostic Luciferianism has taken and how it got to this point as well as offers answers to this nefarious situation *The Absence of Myth* Sophia Heller, 2012-02-01 In this provocative work Sophia Heller challenges the assumption that we cannot be without myth that myth is necessary to vital soulful living Indeed Heller argues we have been living in a world without myth for a long time The Absence of Myth examines the loss of a religious mode of being in the world and demonstrates how theorists who insist on the presence of myth deny its historical end Absence of myth may seem obvious evidenced by our lack of cult and ritual and by our de animated natural world as well as

in the emergence of conceptual thought and psychological awareness which could only arise with the dissolution of a prereflective mythic mode of being in the world But what appears to be straightforward becomes complicated when myth is intentionally conflated with thought and reflection usually in the attempt to cultivate a mythic consciousness that aims to restore meaning to life and assuage the spiritual malaise of contemporary culture Myth cannot rest in peace It must be continually unearthed redefined and recontextualized such that modern and postmodern notions of myth are made to substitute for something that has never been experienced only imagined
