"*Naked and a Prisoner*", 1980 The First Taint of Civilization Francis X. Hezel, 2021-05-25 Hezel writes clearly and with erudition and commands an impressive body of information His book is a tour de force Not only will it be read eagerly by Pacific scholars but it should find a wide audience among well educated Micronesians hungry for greater understanding of how their islands have become ensnared in world geopolitics Ethnohistory **Submerged Cultural Resources**

Assessment of Micronesia Toni Carrell, 1991 Naked and a Prisoner Edward C. Barnard, 1980 **The Sacred Remains** Richard J. Parmentier, 1987-11-05 At one level this book is a compilation of political traditions of Belau in Micronesia from the divine foundation of political systems to the present day It offers an analysis of the structures and dynamics of Belauan history identifying several forms of order and some of their potentials for change Also the author develops a critique of standard approaches to history in small scale societies He argues for a semiotic approach that recognizes the historical consciousness of actors in the society under study *Native American Whalemens and the World* Nancy Shoemaker, 2015-04-27 In the nineteenth century nearly all Native American men living along the southern New England coast made their living traveling the world s oceans on whaleships Many were career whalemens spending twenty years or more at sea Their labor invigorated economically depressed reservations with vital income and led to complex and surprising connections with other Indigenous peoples from the islands of the Pacific to the Arctic Ocean At home aboard ship or around the world Native American seafarers found themselves in a variety of situations each with distinct racial expectations about who was Indian and how Indians behaved Treated by their white neighbors as degraded dependents incapable of taking care of themselves Native New Englanders nevertheless rose to positions of command at sea They thereby complicated myths of exploration and expansion that depicted cultural encounters as the meeting of two peoples whites and Indians Highlighting the shifting racial ideologies that shaped the lives of these whalemens Nancy Shoemaker shows how the category of Indian was as fluid as the whalemens were mobile **Strangers in Their Own Land** Francis X. Hezel, 2003-09-30 Hezel has written an authoritative and engaging narrative of a succession of colonial regimes drawing upon a broad range of published and archival sources as well as his own considerable knowledge of the region This is a conventional history and a very good one focused mostly on political and economic developments Hezel demonstrates a fine understanding of the complicated relations between administrators missionaries traders chiefs and commoners in a wide range of social and historical settings Pacific Affairs The tale of Strangers in Their Own Land is one of interplay between four sequential colonial regimes Spain Germany Japan and the United States and the diverse island cultures they governed It is also a tale of relationships among islands whose inhabitants did not always see eye to eye and among individuals who fought private and public battles in those islands Hezel conveys both the unity of purpose exerted by a colonial government and the subversion of that purpose by administrators teachers islands and visitors The history is thoroughly supported by archival materials first person testimonies

and secondary sources Hezel acknowledges the power of the visual when he ends his book by describing the distinctive flags that now replace Spanish German Japanese and American symbols of rule the scene epitomizes a theme of the book global political and economic forces whether colonial or post colonial cannot erode the distinctiveness each island claims American Historical Review

Drinking Smoke Mac Marshall, 2013-08-31 Tobacco kills 5 million people every year and that number is expected to double by the year 2020 Despite its enormous toll on human health tobacco has been largely neglected by anthropologists Drinking Smoke combines an exhaustive search of historical materials on the introduction and spread of tobacco in the Pacific with extensive anthropological accounts of the ways Islanders have incorporated this substance into their lives The author uses a relatively new concept called a syndemic the synergistic interaction of two or more afflictions contributing to a greater burden of disease in a population to focus at once on the health of a community political and economic structures and the wider physical and social environment and ultimately provide an in depth analysis of smoking s negative health impact in Oceania In Drinking Smoke the idea of a syndemic is applied to the current health crisis in the Pacific where the number of deaths from coronary heart disease cancer diabetes and chronic obstructive pulmonary disease continues to rise and the case is made that smoking tobacco in the form of industrially manufactured cigarettes is the keystone of the contemporary syndemic in Oceania The author shows how tobacco consumption particularly cigarette smoking after World War II has become the central interstitial element of a syndemic that produces most of the morbidity and mortality Pacific Islanders suffer This syndemic is made up of a bundle of diseases and conditions a set of historical circumstances and events and social and health inequities most easily summed up as poverty He calls this the tobacco syndemic and argues that smoking is the crucial behavior the glue holding all of these diseases and conditions together Drinking Smoke is the first book length examination of the damaging tobacco syndemic in a specific world region It is a must read for scholars and students of anthropology Pacific studies history and economic globalization as well as for public health practitioners and those working in allied health fields More broadly the book will appeal to anyone concerned with disease interaction the social context of disease production and the full health consequences of the global promotional efforts of Big Tobacco
