Nursing Older People Susan Carmody, 2017-12-04 This text consists of eleven chapters concisely summarizing general adult psychiatry in the form of notes It is primarily intended for junior hospital psychiatrists general practitioners and medical students however psychiatric nurses psychiatric social workers psychiatric occupational therapists and clinical psychologists may also find the book an asset **Healthy Ageing** Hazel Heath, Irene Schofield, 1999 This book is a UK adaptation of a Mosby US text Ebersole Hess Toward Health and Aging Human Needs and Nursing Response It outlines the theoretical foundations which underpin caring for elderly people before moving on to consider the specific physiological and psychological problems that the elderly face and that those caring for them have to deal with The latest research theory and discussions of current practice are integrated throughout the book The book acknowledges the diversity of older peoples lives and the environment they inhabit in the UK It also adopts a theoretical framework Maslow s Hierarchy of Needs This states that each individual has an innate hierarchy of needs that motivates all human behavior These human needs have different priorities When people achieve fulfillment of elementary needs they strive to meet those on the next level until the highest order of needs is reached Maslow s model is widely known and has been found particularly helpful in facilitating a holistic view of older people Adopts Maslow s Hierarchy of Needs model helpful in facilitating a holistic view of older people

Provides bridge between theoretical foundations of care and actual care provision Incorporates 115 illustrations which enhance the text and clarify concepts Provide Case Studies for real life learning Includes Chapter Introductions and Chapter Summaries which point out main concepts and provide a useful revision tool Features Further Reading lists with the most current book and journal articles for additional information Not available in the U S Caring for Older People Christine Brown Wilson,2012-11-19 Caring for Older People is a timely and welcome addition to the nursing and health care literature The book introduces and describes collaborative ways of working with older people ensuring that students and practitioners are better equipped to provide consistently high quality care that can make a positive difference to the lives of older people and their families Providing an accessible evidence based framework and a wealth of practical strategies which can be implemented on a daily basis Christine Brown Wilson takes the reader step by step through different approaches to nursing care and shows clearly how that care can move from being a task focused to a person focused experience Case based scenarios threaded throughout the book also illustrate how the quality of care can be enhanced and how students and practitioners can work effectively with older people while balancing the competing demands of the health and social care system The author also shows how nurses can influence current practice equipping the reader with key skills that can be used to challenge poor ways of working and to identify methods through which inadequate provision can be turned around This book will be indispensable reading for all nursing and healthcare students and practitioners who want to improve the quality of life for older people **Working With Older People And Their Families** Nolan, Mike,Davies , Nolan,Grant, Gordon,2001-02-01 This text combines reviews of specialist literatures with empirical data in an attempt to synthesise themes about making a reality of person centred care The Care and Wellbeing of Older People Angela Kydd,Tim Duffy,Raymond Duffy,2009-03-15 PART ONE 1 Values what older people have told us 2 Policy and politics disadvantaged 3 Sociology disadvantaged 4 Person centred care PART TWO 5 Communication 6 Promoting dignity and compassionate care for older people in hospital 7 Assessment and care planning 8 Involving relatives and carers 9 Advocacy and rights 10 Protecting older vulnerable adults 11 Inter professional working PART THREE 12 Lifestyle major physical and mental health risks 13 Promoting mental health and wellbeing 14 Promoting physical health 15 Transitions 16 Palliative care death and bereavement 17 Medicines concordance 18 The homeless 19 Life in care 20 Social networks Conclusion Glossary References **Human Rights and the Care of Older People** Maeve O'Rourke,2024-04-24 Set against the rapid aging of the world s population Human Rights and the Care of Older People explores the potential for the rule against torture and ill treatment in international human rights law to better protect older people from care related mistreatment The book s analysis is broadly relevant but is prompted by the widespread reports of older people s suffering due to lack of access to care and coercion in respect of care needs This includes the deprivation of liberty for care While recognizing that a new United Nations Convention on the rights of older people is on the horizon the book argues that there is a pressing need for older people and

all human rights actors to use and progressively interpret the established right to freedom from torture and ill treatment As an interpretive lens the book offers a conception of a dignity violation that may amount to prohibited ill treatment and thus trigger states positive obligations to protect including through systemic prevention measures This book is intended as a tool for advocacy and a call for critical awareness highlighting the anti torture norm s potential for more effective application and challenging current legal barriers to such effectiveness Meant for readers worldwide the book addresses the rule against torture and ill treatment from international law regional European Inter American and African perspectives This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on Oxford Academic and offered as a free PDF download from OUP and selected open access locations *Older People - E-Book* Rhonda Nay, Sally Garratt, Deirdre Fetherstonhaugh, 2013-10-01 Now in its fourth edition trusted textbook *Older People Issues and Innovations in Care* provides a unique collection of conversations and commentaries by leading international and local experts on a range of contemporary issues around the care of older people Featuring six new chapters current research and policy changes the esteemed author team continue to highlight the importance of interdisciplinary healthcare in providing a comprehensive person centred approach to care This edition encourages readers to explore care issues innovations and change and to utilise evidence based practice to improve the care of older people and their families Editors comments precede each chapter providing a snapshot of the issues addressed Dementia care has an increased focus New chapters include Caring for older people issues for consumers Younger people in residential aged care facilities Health and care of older Aboriginal and Torres Strait Islander peoples Alzheimer s dementia neuropsychology early diagnosis and intervention Self esteem dignity and finding meaning in dementia My journey of heartbreak my parents and Alzheimer s disease Vignettes highlight innovative approaches to care that result in improved health outcomes for older people Key points are woven through the text to reiterate vital information relevant to nurses and aged care workers Reflective questions encourage critical thinking as an instrument for improving practice In text references are made to video interviews available on the Evolve site

Intermediate Care of Older People Siân Wade, 2006-02-22 Intermediate care has become a buzzword within health and social care over the last few years Seen as the panacea for a number of woes particularly for older people intermediate care has been held up as a way forward within contemporary health and social care This text explores in detail what is understood by the concept of intermediate care and in particular ways in which the needs of older people can be best met by this new range of services Initial discussion centres on the concept of intermediate care and the motives for its development This is followed by a summary of the range of intermediate care services that have been developed with a discussion of some of the confusion that surrounds the concept The debate then moves on to centre on older people discussing first why older people have come to be perceived as one of the main client groups that may benefit from intermediate care and then how intermediate care could be developed to better serve their needs An overview of ageing and the uniqueness of older people is

then provided followed by an exploration of some of the challenges faced by older people within society and how this has extended into the delivery of health and social care
