**Mawdudi and the Making of Islamic Revivalism** Seyyed Vali Reza Nasr, 1996-01-04 Nasr examines the life and thought of Mawlana Mawdudi, one of the first and most important Islamic ideological thinkers. Mawdudi was the first to develop a modern political Islamic ideology and a plan for social action to realize his vision. The prolific writings and indefatigable efforts of Mawdudi's party, the Jamaat-i Islami, first in India and later in Pakistan, have disseminated his ideas far and wide. His views have informed revivalism from Morocco to Malaysia. Nasr discerns the events that led Mawdudi to a revivalist perspective and probes the structure of his thought in order to gain fresh insights into the origins of Islamic revivalism. He argues that Islamic revivalism did not simply develop as a cultural rejection of the West; rather, it was closely tied to questions of communal politics and its impact on identity formation, discourse of power in plural societies, and nationalism. Mawdudi's discourse, though aimed at the West, was motivated by Muslim-Hindu competition for power in British India. His aim, according to Nasr, was to put forth a view of Islam whose invigorated, pristine, and uncompromising outlook would galvanize Muslims into an ideologically uniform and hence politically indivisible community. In time, this view developed a life of its own and evolved into an all-encompassing perspective on society and politics and has been a notable force in South Asia and Muslim life and thought across the Muslim world.

The Muslim Brotherhood Barbara Zollner, 2009-01-13 The Muslim Brotherhood is one of the most influential Islamist organisations today. Based in Egypt, its network includes branches in many countries of the Near and Middle East. Although the organisation has been linked to political violence in the past, it now proposes a politically moderate ideology. The book provides an in-depth analysis of the Muslim Brotherhood during the years of al-Hudaybi's leadership and how he sought to steer the organization away from the radical wing inspired by Sayyid Qutb into the more moderate Islamist organization it is today. It is his legacy which eventually fostered the development of non-violent political ideas. During the years of persecution, 1954 to 1971, radical and moderate Islamist ideas emerged within the Brotherhood's midst. Inspired by Sayyid

Qutb's ideas a radical wing evolved which subsequently fed into radical Islamist networks as we know them today. Yet it was during the same period that al-Hudaybi and his followers proposed a moderate political interpretation which was adopted by the Brotherhood and which forms its ideological basis today. *David in the Muslim Tradition* Khaleel Mohammed, 2014-12-24 In Chapter 38 21-25 the Qur'an relates a very short narrative about the biblical King David's seeking and receiving God's forgiveness. The earliest Muslim exegetes interpreted the Qur'anic verses as referring to the Hebrew Bible's story of David's adultery with Bathsheba as related in 2 Samuel 12:1-13. Later Muslims, however, having developed the concept of prophetic impeccability, radically reinterpreted those verses to show David as innocent of any wrongdoing since in the Muslim tradition he is not only a king but a prophet as well. *David in the Muslim Tradition: The Bathsheba Affair* outlines the approach of the Qur'an to shared scriptures and provides a detailed look at the development of the exegetical tradition and the factors that influenced such exegesis. By establishing four distinct periods of exegesis, Khaleel Mohammed examines the most famous explanations in each stratum to show the metamorphosis from blame to exculpation. He shows that the Muslim development is not unique but is very much in following the Jewish and Christian traditions wherein a similar sanitization of David's image has occurred. **Islam and Ideology in the Emerging Indonesian State** Howard M. Federspiel, 2001-01-01 This publication reveals the thinking of a group of Indonesian Muslim activists known as the Persatuan Islam. The group entered national debates in the period from 1923 to 1957 about the role that religion was to take in the emergence of an independent Indonesia. **The Devil's Rebirth** Noor Dahri, 2021-03-01 The Devil's Rebirth: The Terror Triangle of Ikhwan IRGC and Hezbollah is the work of leading academics and researchers from around the world who have spent their days and nights to pen this comprehensive research which aims to disclose the secret networking of globally recognised terrorist organisations: Ikhwan Ul Muslimeen, IRGC and Hezbollah. These organisations are rooted in public and have been in existence for more than seventy years. Their prime goal is to begin a non-violent struggle in order to win the hearts and minds of the local public before turning them into the menace of terrorism. Another objective is also to topple the Arab kingdoms as well as democratically elected governments in the Middle East. The reader will analyse the latest tactics, aims, recruitment process, financing, training, relations with the drug cartels and networking of these three organisations with European terrorist and criminal mafia syndicates. The reader will also find how these organisations use both soft and peaceful religious activities to lure vulnerable people from across the world in order to attract them into the fire of the Middle East. Many secrets and disclosures of these organisations have been exposed in this compelling work. *Toward a Phenomenology of Terrorism* David Polizzi, 2021-07-16 This book examines the socio-psychological dynamics and drivers of terrorism from a humanistic perspective. Most interpret terrorism as meaningless, asocial violence, but this book argues that it is not just a case of seeing who is killing whom but that defining and understanding terrorism is configured by historical context and immediate experience. The author argues that these acts of terrorist violence can be interpreted as the external

expression of repressed feelings and impulses that have been tabooized by mainstream society Upon release these terrorists gain a new nomos which generates a sense of meaning and significance for them This book draws on psycho analytical theories of repression Heideggerian existentialism Berger s anthropological concept of culture as nomos and Roger Griffin s analysis of terrorist fanaticism adding to the understanding terrorism and criminality from a new perspective and beyond the usual literature situated in political science security war and peace studies This book seeks to provide a definition of terrorism an account of the psychological theory an explanation of the nomic dimension of terroristic violence an exploration of the relevance of the new approach to understanding Salafi jihadism Al Qaeda Islamic State the Taliban White Supremacism the rise of the Radical Right and reflections on this for combating terrorism It appeals to those interested in terrorism conflict terrorist radicalization and motivation international relations politics and religious politics and to counter terrorism agencies
