10 Short Stories Volume 1 Martin Lundqvist, 2021-02-16 This Anthology contains the following short stories The Dinner at Darkwood Mansion Keila halts the Terran drug smugglers in the year 2869 Daydreaming in the shoe shop The Escargot Conspiracy How I met your mother and almost got arrested for murder The Snailkeeper at Lupusserra The Cathedral Date The Clinic Murders The Golden Duck Dinner The Escape from the Tang Emperor Telling the Untold Story Steve Weinberg, 1992 Author of his own controversial unauthorized biography of Armand Hammer Steve Weinberg here shows how a new generation of biographers is revealing the lives of powerful individuals in dramatic and important new ways Trained as investigative journalists today's writers have entered a domain once dominated by university scholars Unlike their more academic predecessors who often wrote nonjudgmental books on the public lives of long dead individuals these new biographers are willing to tackle such powerful living subjects as Nancy Reagan Henry Kissinger Hugh Hefner Pete Rose and Fidel Castro Few of these books are adoring Without cooperation from their subjects and sometimes under threat of lawsuit these writers are probing into private lives and enabling readers to make up their own minds about public figures Tracing the evolution of the craft of biography up to the present day Weinberg draws on interviews with some of today's best biographers as well as his own experience with the Hammer biography to highlight the careers of some of the writers whose work exploded the boundaries of traditional biography When Robert Caro became the first journalist to win a Pulitzer Prize for Biography for his book on Robert Moses it marked the dawn of a new approach to the craft Weinberg also explores the techniques of Philadelphia Inquirer journalists Donald Barlett and James Steele whose jointly authored biographies of Howard Hughes and Nelson Rockefeller mark another sign of how far the genre of biography has come The book is enriched by samples of investigative biography at its best including a scathingly honest profile of the reigning queen of unauthorized biography Kitty Kelley and Calvin Trillin's fascinating New Yorker profile of the Miami Herald's inimitable police reporter Edna Buchanan The living of a life is more difficult than the chronicling of it but the chronicling is certainly no simple task writes Weinberg Telling somebody else's life fully fairly and compellingly is probably an impossible task But it is important to keep pushing the limits of the possible For writers reviewers publishers and general readers Telling the Untold Story is a fascinating look at how a new kind of biographer has forever changed our expectations of the genre and continues to push biography to exciting new limits *Radioactive Clouds of Death over Utah* Dr. Daniel W. Miles, 2013-01-31 I have completed the manuscript with the tentative title Radioactive Clouds of Death Over Utah From 1950 to the 1958 moratorium on atmospheric testing the Atomic Energy Commission detonated over 100 atomic bombs at the Nevada Test Site The inhabitants of St George Utah the so called downwinders were repeatedly in the fly zone of these toxic wind blown clouds so much so that St George became known nationwide as Fallout City USA According to the back cover of John Fuller's 1984 best seller The Day We Bomb Utah America's Most Lethal Secret Within a few years a plague of cancer and birth defects had

ripped through the area a plague that may have caused the cancer related deaths of John Wayne and over 100 other cast and crew members of The Conqueror which was filmed only miles from the test site Actually it was filmed only five miles from St George Utah Congressman Jim Matheson alleged in a recent op ed article in the Deseret News that the horrendous legacy of radioactive fallout is still killing downwinders Thousands of citizens throughout the West continue to get sick and die from radiation exposure caused illnesses From an editorial in the February 15 2001 issue of the Deseret News the federal government literary sacrificed the health of thousands of unsuspecting Utahans and Nevadans The focus of Radioactive Clouds of Death Over Utah is to retrospectively consider both the short term and long term health effects of radioactive fallout exposure on downwinders from the perspectives of the downwinders the tort lawyers the government itself politicians producers of five television documentaries writers of six popular books hundreds of magazine and newspaper articles and many scientific studies on fallout health effects on Utah residents Recently the Utah press has featured many fallout cancer stories giving much weight to anecdotal accounts downwinders have been featured in the Deseret News 265 times in the last decade On April 12 2011 U S Senator Tom Udall D NM led a bipartisan group of senators in introducing S 791 the Radiation Exposure Compensation Act Amendments of 2011 which would among other things expand compensation to downwinders in all counties in Idaho Montana Colorado New Mexico and to areas not now covered in Utah Nevada and Arizona Today with heightened fears about radiation leaks from damaged nuclear power plants in Japan and the possibilities of nuclear terrorism the discussion of fallout induced cancers in this book provides valuable basic information about what is known about exposure to radiation and its health risks A balanced perception of the health risks of ionizing radiation is of great societal importance to issues as varied as radiological terrorism the future of nuclear power nuclear waste storage occupational radiation exposure the clean up of nuclear waste sites medical x rays whole body scanning by computed tomography results in much higher organ doses of radiation than conventional single film x rays manned space exploration and frequent flyer risks
