explores the possibility one possibility among many that this time we have gone too far One last word It is possible that we have gone too far This possibility has to be considered if we as a species as a history are going to get anywhere at all The Oxford Handbook of European Romanticism Paul Hamilton,2016-01-14 TThe Oxford Handbook to European Romanticism brings together leading scholars in the field to examine the intellectual literary philosophical and political elements of European Romanticism The book focuses on the cultural history of the period extending from the French Revolution to the uprisings of 1848 It begins with a series of chapters examining key texts written by major writers in languages including French German Italian Spanish Russian Hungarian Greek and Polish amongst others A second section then explores the naturally inter disciplinary quality of Romanticism exemplified by the different discourses with which writers of the time set up an internal comparative dynamic These chapters highlight the sense a discourse gives of being written knowledgeably against other pretenders to completeness or comprehensiveness of self understanding of the time Discourses typically advance their own claims to resume European culture collaborating with and at the same time trying to assimilate each other in the process The main examples featured here are history geography drama theology language philosophy political theory the sciences and the media Each chapter offers an original and individual interpretation of an inherently comparative world of individual writers and the discursive idioms to which they are historically subject Together the forty one chapters provide a comprehensive and provocative overview of European Romanticism Encyclopedia of the Romantic Era, 1760-1850 Christopher John Murray,2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism **The House in the Garden** John Randolph,2018-07-05 Aspiring thinkers require a stage for their performance and an audience to help give their actions distinction and meaning To be made durable and influential their charismatic stories have to be framed by supporting ideals practices and institutions Although the biographies of the Empire s most famous thinkers have a comfortable platform in modern Russia s printed record scholars have yet to explore fully the intimate context surrounding their activities in the early nineteenth century There is as a result a certain homeless quality to our understandings of Imperial Russian culture which this history of one extremely productive home will help us correct from The House in the Garden The House in the Garden explores the role played by domesticity in the making of Imperial Russian intellectual traditions It tells the story of the Bakunins a distinguished noble family who in 1779 chose to abandon their home in St Petersburg for a rustic manor house in central Russia s Tver Province At the time the Russian government was encouraging its elite subjects to see their private lives as a forum for the representation of imperial virtues and norms Drawing on the family s vast archive Randolph describes

the Bakunins attempts to live up to this ideal and to convert their new home Priamukhino into an example of modern civilization In particular Randolph shows how the Bakunin home fostered the development of a group of charismatic young students from Moscow University who in the 1830s sought to use their experiences at Priamukhino to reimagine themselves as agents of Russia s enlightenment Some of the story Randolph tells is familiar to historians The anarchist Mikhail Bakunin whose early philosophical evolution Randolph describes was born at Priamukhino while the radical critic Vissarion Belinsky claimed to have been transformed by his experiences there When Tom Stoppard sought to portray the spiritual history of the Russian intelligentsia in his trilogy The Coast of Utopia he chose Priamukhino as the scene for act 1 Yet Randolph s research allows us to watch this drama from a radically different perspective It shows how the culture of Russian Idealism so long presumed to be a product of alienation actually relied on the support provided by the cult of distinction that the Russian government had built around noble homes It also allows us to see the other actors and agents of private life and most notably the Bakunin women as participants in the creation of modern Russian social thought The result is a work that revises our understanding of Russian intellectual history while also contributing to the histories of women gender private life and memory in nineteenth century Russia
