The Chinese of Indonesia and Their Search for Identity Aimee Dawis, 2009 This book examines how the Indonesian Chinese who were born after 1966 negotiate meanings about their culture and identity through their collective memory of growing up in a restrictive media environment that specifically curtailed Chinese language and culture The restrictive media environment was the result of a series of policies administered during the Suharto era 1965 1998 According to the regulations the Indonesian government closed all Chinese language schools and prohibited the use of Chinese characters in public places the import of Chinese language publications and all public forms and expressions of Chinese culture In the past century and particularly in the past decade much attention has been given to China and its rising status as a world economic power Scholarship on overseas Chinese has also shed light on their relationship with their mythic homeland China In their work scholars discovered that the Chinese of Southeast Asia have created a prominent economic political and cultural presence in countries such as Indonesia Malaysia and Singapore In the 1960s scholars such as George Kahin Ruth McVey and Benedict Anderson were drawn to the political upheavals in Indonesia and the various roles that the Chinese of Indonesia have played in the economic political and cultural arenas of their country In later years Charles Coppel and Leo Suryadinata have published extensively on various aspects of the Chinese in Indonesia such as their religious affiliations and education Despite the considerable attention given to the Chinese of Indonesia scholars have not specifically studied through the lens of the media how a certain group of Chinese Indonesians grew up in a restrictive media and cultural environment during the 33 years when Indonesia was ruled by Suharto This book takes the first step in examining this generation s collective memory of growing up in a state controlled environment that has had a significant impact on their identity formation maintenance and the re negotiation of Chineseness in their everyday lives This book will appeal especially to media cultural studies and Southeast Asian studies scholars researchers and students

The Death Master Chronicles R.C. Beale, 2014-02-17 The old sailor pulled out a stub of a pencil from a soiled shirt pocket and began to cross out letters on the drink coaster The circular piece of paper had the words The Brass Monkey in a nice scroll at the top and then a picture of three monkeys in the center with the additional words see hear speak no evil underneath He first removed no evil and then began to systematically pencil out all the letters in The Brass Monkey which were not contained in see hear speak This left H E Rasske on the face of the coaster An alert waitress soon picked up the empty drink glass and paper coaster returning both items to the bartender In this manner word reached Rasske quickly that someone needed to talk to him

The Ultimatum H. E. Rasske, 2010-12 *Hidden in Plain Sight* Ellis Amdur, 2018-08-09 Ellis Amdur's writing on martial arts has been groundbreaking In *Dueling with O sensei* he challenged practitioners that the moral dimension of martial arts is expressed in acts of integrity not spiritual platitudes and the deification of fantasized warrior

sages In Old School he applied both academic rigor and keen observation towards some of the classical martial arts of Japan leavening his writing with vivid descriptions of many of the actual practitioners of these wonderful traditions His first edition of Hidden in Plain Sight was a discussion of esoteric training methods once common but now all but lost within Japanese martial arts These methodologies encompassed mental imagery breath work and a variety of physical techniques offering the potential to develop skills and power sometimes viewed as nearly superhuman Usually believed to be the provenance of Chinese martial arts Amdur asserted that elements of such training still remain within a few martial traditions literally hidden in plain sight Two thirds larger this second edition is so much more Amdur digs deep into the past showing the complexity of human strength its adaptation to varying lifestyles and the nature of physical culture pursued for martial ends Amdur goes into detail concerning varieties of esoteric power training within martial arts culminating in a specific methodology known as six connections or internal strength With this discussion as a baseline he then discusses the transfer of esoteric power training from China to various Japanese jAajutsu systems as well as Japanese swordsman ship emanating from the Kurama traditions Finally he delves into the innovative martial tradition of DaitAAryAA and its most important offshoot aikidAA showing how the mercurial complicated figures of Takeda Sokaku and Morihei Ueshiba were less the embodiment of something new than a re imagining of their past

Beyond Bruce Lee Paul Bowman,2013-03-26 In order to understand Bruce Lee we must look beyond Bruce Lee to the artist s intricate cultural and historical contexts This work begins by contextualising Lee examining his films and martial arts work and his changing cultural status within different times and places The text examines Bruce Lee s films and philosophy in relation to the popular culture and cultural politics of the 1960s and 1970s and it addresses the resurgence of his popularity in Hong Kong and China in the twenty first century The study also explores Lee s ongoing legacy and influence in the West considering his function as a shifting symbol of ethnic politics and the ways in which he continues to inform Hollywood film fight choreography Beyond Bruce Lee ultimately argues Lee is best understood in terms of cultural translation and that his interventions and importance are ongoing
