Red Funnelled Boat:

The Modern Railroad Edward Hungerford,1911 **The Nickums** John Joy Bell,1923 **Titanic and the Mystery Ship** Senan Molony,2011-08-31 As the Titanic was swallowed by a freezing sea over 800 miles from the nearest land her 2 200 passengers and crew attempted desperately to avert tragedy Lifeboats were lowered and constant SOS signals sent but most realised they would require a miracle to avoid their doom And then it came Approaching over the horizon was a ship coming ever closer and then stopping within five or six miles of the Titanic The joy on board the sinking ship was unimaginable the crew even reassured passengers that rescue was imminent Agonisingly however the vessel did not come to the rescue despite rockers of appeal but gradually turned and moved away abandoning over 1 500 people to their fate The search for the Mystery Ship began immediately and both Britain and the USA accused a ship called the Californian of deserting the Titanic in her hour of need But was the Mystery Ship the Californian For the first time this book explores the totality of evidence with the discovery of the Titanic s actual wreck site in 1985 allowing crucial insights not available during official investigations seventy three years earlier Combining a penetrating argument with an extensive collection of archive photographs and materials this book aims to find clear answers to the many riddles of the Titanic s Mystery Ship

characteristics forms colours and decoration types both represent significant developments and create rich opportunities for the future The geographical scope is dictated by the glass fragments which are from settlements located along the coast from Northumbria to Kent and along the south coast to Southampton Seven case studies of intra site glass distribution reveal that the anticipated pattern of peripheral disposal alongside dining waste is widespread although exceptions exist at the monastic sites at Lyminge Kent and Jarrow Tyne and Wear Overall the research themes addressed are the glass corpus and its typology glass vessels in Anglo Saxon society and glass vessels as an economic indicator of trade and exchange Analysis reveals new understandings of both the glass itself and the role of glass vessels in the social and economic mechanisms of early medieval England There is currently no comprehensive work examining early medieval vessel glass particularly the post sixth century fragmentary material from settlements and my monograph will fill that gap The space is particularly noticeable when considering books on archaeological glass from England the early medieval period is the only one with no reference volume no recent thorough and accessible source of information The British Museum published a monograph entitled Catalogue of Anglo Saxon Glass in the British Museum in 2008 but as the title suggests it is a catalogue at heart and of a collection of fifth and sixth century grave goods in a single museum Chronologically a volume on the subject would fill the space between various books on Roman glass from Britain and Medieval glass vessels found in England c AD 1200 1500 by Rachel Tyson This book on early medieval vessel glass and the contexts from which it came will also make a significant contribution to early medieval settlement studies and the archaeology of trade in this period both are growth areas of scholarship and interest and vessel glass provides a new tool to address key debates in the field
