Teelucksingh, 2014-11-18 This book provides evidence that Labour in Trinidad and Tobago played a vital role in undermining British colonialism and advocating for federation and self government Furthermore there is emphasis on the pioneering efforts of the Labour movement in party politics social justice and working class solidarity Insanity, Race and Colonialism L. Smith, 2014-10-14 Despite emancipation from the evils of enslavement in 1838 most people of African origin in the British West Indian colonies continued to suffer serious material deprivation and racial oppression This book examines the management and treatment of those who became insane in the period until the Great War Forging a British World of Trade David Thackeray, 2019-01-31 Brexit is likely to lead to the largest shift in Britain's economic orientation in living memory Some have argued that leaving the EU will enable Britain to revive markets in Commonwealth countries with which it has long standing historical ties. Their opponents maintain that such claims are based on forms of imperial nostalgia which ignore the often uncomfortable historical trade relations between Britain and these countries as well as the UK s historical role as a global rather than chiefly imperial economy Forging a British World of Trade explores how efforts to promote a British World system centred on promoting trade between Britain and the Dominions grew and declined in influence between the 1880s and 1970s At the beginning of the twentieth century many people from London to Sydney Auckland and Toronto considered themselves to belong to culturally British nations British politicians and business leaders invested significant resources in promoting trade with Australia Canada New Zealand and South Africa out of a perception that these were great markets of the future However ideas about promoting trade between British peoples were racially exclusive From the 1920s onwards colonized and decolonizing populations questioned and challenged the basis of British World networks making use of alternative forms of international collaboration promoted firstly by the League of Nations and then by the United Nations Schemes for imperial collaboration amongst ethnically British peoples were hollowed out by the actions of a variety of political and business leaders across Asia and Africa who reshaped the functions and identity of the Commonwealth The

Foreign Office, Commerce and British Foreign Policy in the Twentieth Century John Fisher, Effie G. H. Pedaliu, Richard Smith, 2017-02-16 This book addresses the interface of the British Foreign Office foreign policy and commerce in the twentieth century Two related questions are considered what did the Foreign Office do to support British commerce and how did commerce influence British foreign policy The editors of this work collect a range of case studies that explore the attitude of the Foreign Office towards commerce and trade promotion against the backdrop of a century of relative economic decline while also considering the role of British diplomats in creating markets and supporting UK firms This highly researched and detailed examination is designed for readers aiming to comprehend the role that commerce played in Britain's foreign relations in a century when trade and commerce have become an inseparable element in foreign and security policies

Order and Rivalry Madeleine Lynch Dungy,2023-06-15 Traces the formation and development of multilateral trade structures in the aftermath of the First World War Global Perspectives on the Bretton Woods Conference and the Post-War World Order Giles Scott-Smith, J. Simon Rofe,2017-09-07 This book repositions the groundbreaking Bretton Woods conference of July 1944 as the first large scale multilateral North South dialogue on global financial governance It moves beyond the usual focus on Anglo American interests by highlighting the influence of delegations from Latin America India the Soviet Union France and others It also investigates how state and private interests intermingled collided and compromised during the negotiations on the way to a set of regulations and institutions that still partly frame global economic governance

in the early twenty first century Together these essays lay the groundwork for a more comprehensive analysis of Bretton Temple of Peace Ingo Trauschweizer, 2021-03-19 This Woods as a pivotal site of multilateralism in international history collection raises timely questions about peace and stability as it interrogates the past and present status of international relations The post World War II liberal international order upheld by organizations such as the United Nations the North Atlantic Treaty Organization and similar alliances aspired to ensure decades of collective security economic stability and the rule of law All of this was a negotiated process that required compromise and yet it did not make for a peaceful world When Winston Churchill referred to the UN framework as the temple of peace in his famous 1946 Iron Curtain speech he maintained that international alliances could help provide necessary stability so free people could prosper both economically and politically Though the pillars of international order remain in place today in a world defined as much by populism as protest leaders in the United States no longer seem inclined to serve as the indispensable power in an alliance framework that is built on shared values human rights and an admixture of hard and soft power In this book nine scholars and practitioners of diplomacy explore both the successes and the flaws of international cooperation over the past seventy years Collectively the authors seek to address guestions about how the liberal international order was built and what challenges it has faced as well as to offer perspectives on what could be lost in a post American world A Global History of Trade and Conflict since 1500 L. Coppolaro, F. McKenzie, 2013-11-20 This book explains the causes and consequences of the intersection of two transformative global forces trade and conflict since 1500 The nine historical case studies interspersed over 500 years and spanning the globe make a major historical contribution to the enduring debate about whether trade Australia's Boldest Experiment Stuart Macintyre, 2015-06-01 In this landmark book Stuart makes peace more likely Macintyre explains how a country traumatised by World War I hammered by the Depression and overstretched by World War II became a prosperous successful and growing society by the 1950s An extraordinary group of individuals notably John Curtin Ben Chifley Nugget Coombs John Dedman and Robert Menzies re made the country planning its reconstruction against a background of wartime sacrifice and austerity The other part of this triumphant story shows Australia on the world stage seeking to fashion a new world order that would bring peace and prosperity This book shows the 1940s to be a pivotal decade in Australia At the height of his powers Macintyre reminds us that key components of the society we take for granted work welfare health education immigration housing are not the result of military endeavour but policy planning politics and **Collision of Empires** G. Bruce Strang, 2016-05-23 Italy s invasion of Ethiopia in 1935 marked a turning popular resolve point in interwar Europe The last great European colonial conquest in Africa the conflict represented an enormous gamble for the Fascist dictator Benito Mussolini He faced a challenge not only from a stout Ethiopian defence but also from difficult logistics made worse by the League of Nations half hearted sanctions Mussolini faced down this opposition and Italian troops aided by air superiority and liberal use of yprite gas conquered Addis Ababa within eight months a victory that shocked many

military observers of the time with its speed and suddenness The invasion had enormous repercussions on European international relations In the midst of a national election campaign the British National Government had felt constrained to support the League despite fears that sanctions through the League could lead to war with Italy The concentration of the Royal Navy in the Mediterranean Sea alienated Mussolini and placed the French government on the horns of dilemma should France support its military partner Italy or its more important potential ally Great Britain French attempts to mark out a middle ground did little to placate the Duce and the crisis seemed to develop a deep rift between Fascist Italy and the Anglo French democracies while at the same time creating a crisis in Anglo French relations Mussolini turned towards Nazi Germany in an attempt to end his diplomatic isolation during the sanctions episode although Hitler considered the Duce s friendship a mixed blessing The question of American adherence to sanctions increased ill will between British politicians and the Roosevelt administration in Washington as each tended to blame the other for the failure of oil sanctions and the collapse of collective security The international crisis posed similarly thorny problems for the smaller powers of Europe and for Japan and the Soviet Union The crisis impeded common defence against Fascist expansionism while giving impetus to claims of the revisionist powers Despite the tremendous importance of the international crisis however little new work on the subject has appeared in recent decades In this volume an international cast of contributors take a fresh look at the crisis through the lens of new evidence and new approaches to international relations history to provide the most comprehensive coverage of the crisis currently possible and their work provides new frames of reference for exploring imperialism collective security and genocide Free Trade and Social Welfare in Europe Lucia Coppolaro, Lorenzo Mechi, 2020-01-24 This book deals with the historical relationship between international trade liberalisation one of the backbones of globalisation and the development of social welfare In Europe the issue has regularly been at the centre of the political debate for at least two centuries and still nowadays it continues to inspire decisions of the highest order as in the recent case of Brexit Analysing a number of particularly meaningful episodes and moments the eight chapters of this edited volume provide an overview of how the liberalisation welfare nexus has been addressed in Europe since the end of the 19th century Describing the oscillations from phases in which state non state and transnational actors saw the two elements as widely conflicting to others in which more harmonious visions prevailed the book uncovers the political complexity of the issue and contributes to clarifying its connections with the current economic situation political balances and general social conditions Britishness Felicity Barnes, 2022-07-26 From the 1920s until the outbreak of the Second World War Australia Canada and New Zealand filled British shop windows newspaper columns and cinema screens with British to the core Canadian apples British to the backbone New Zealand lamb and All British Australian butter In remarkable yet forgotten advertising campaigns prime ministers touring cricketers lady demonstrators and even boxing kangaroos were pressed into service to sell more Dominion produce to British shoppers But as they sold apples and butter these campaigns also sold a Dominion

styled British identity Selling Britishness explores the role of commodity marketing in creating Britishness Dominion settlers considered themselves British and marketed their commodities accordingly Meanwhile ambitious Dominion advertising agencies set up shop in London to bring British goods like Ovaltine back to the dominions and persuade their fellow citizens to buy British Conventionally nationalist narratives have posited the growth of independent national identities during the interwar period though some have suggested imperial sentiment endured Felicity Barnes takes a new approach arguing that far from shaking off or relying on any lasting sense of Britishness Dominion marketing produced it Selling Britishness shows that when constructing Britishness advertisers employed imperial hierarchies of race class and gender Consumption worked to bolster colonialism and advertising extended imperial power into the everyday Drawing on extensive new archives Selling Britishness explores a shared British identity constructed by marketers and advertisers during advertising s golden age

Colonial Switzerland P. Purtschert, H. Fischer-Tiné, 2015-05-26 States without former colonies it has been argued were intensely involved in colonial practices. This anthology looks at Switzerland which by its very strong economic involvements with colonialism its doctrine of neutrality and its transnationally entangled scientific community constitutes a perfect case in point
