Etienne Decroux and his Theatre Laboratory Marco de Marinis, 2023-05-31 Etienne Decroux and His Theatre Laboratory is based on the long awaited translation of Marco De Marinis monumental work on mime in the twentieth century *Mimo e teatro nel Novecento* 1993 Now revised and updated the volume focuses specifically on the seminal role played by French mime artist and pedagogue Etienne Decroux Mime is a theatrical form of ancient tradition In the nineteenth century it saw both apogee and crisis in the west with the realistic and gesticulating white pantomime In the twentieth century it underwent a radical overhaul transforming into an abstract corporeal art that shunned imitation and narrative and which instead tended towards

the plastic elliptic allusive and symbolic transposition of actions and situations This book is the result of detailed investigations based on contemporary accounts and obscure or unpublished materials Through the examination of the creative pedagogical and theoretical work of the inventor of the new mime art Etienne Decroux De Marinis focuses on the different assumptions underlying the various modes of the problematic presence of mime in the theatre of the twentieth century from the utopia of a pure theatre attributed to the sole essence of the actor to its decline into a closed poetic genre often nostalgically stuck in the past from mime as a pedagogical tool for the actor to mime as an expressive and virtuosic means in the hands of the director

Performing the Body/Performing the Text Amelia Jones, Andrew Stephenson Nfa, Andrew Stephenson, 2005-08-12 This book explores the new performativity in art theory and practice examining ways of rethinking interpretive processes in visual culture Since the 1960s visual art practices from body art to minimalism have taken contemporary art outside the museum and gallery by embracing theatricality and performance and exploding the boundaries set by traditional art criticism The contributors argue that interpretation needs to be recognised as much more dynamic and contingent Offering its own performance script and embracing both canonical fine artists such as Manet De Kooning and Jasper Johns and performance artists such as Vito Acconci and Gunter Brus this book offers radical re-readings of art works and points confidently towards new models for understanding art

The Metaphysics of Night Matthew Del Nevo, 2014-04-18 The *Metaphysics of Night* acknowledges a post secular philosophy one that puts philosophy into serious dialogue with religion

rather than considering religion a thing of the past Matthew Del Nevo deals with the cultural unconscious inseparable from religious consciousness and draws on psychoanalysis and literature as well as philosophy The metaphysics of the night is Del Nevo's metaphor for the deep and mysterious expanse of the soul Philosophically the book is critical of Enlightenment presumptions about knowledge and truth and overly spiritualizing tendencies in religion Its critical edge cuts against materialist and historicist tendencies in the humanities and abstract intellectualism in philosophy Arguing for strong aesthetic values Del Nevo defends and explains soul and soulful experience the creation of depth the ineffable real presence beauty and saving words noting that the sources of all these are in us but often are blocked Each of the five parts of this book testify to what the author notes may be forgotten but which ought not to be forgotten It is necessary for life as socially religiously and educationally instituted within culture and as constitutive for culture Del Nevo deals with sensibility as a form of wisdom and instinct that is not cognitive or knowledge information based He argues for a shift of emphasis in culture from intellect to intuition This well written work filled with Catholic philosophic and artistic thought will be of interest to all philosophers theologians and students of culture
