Perfecting Justice in Rawls, Habermas and Honneth Miriam Bankovsky, 2012-02-23 In this exciting new work Miriam Bankovsky shows how the pursuit of justice requires two orientations The first is a practical commitment to the possibility of justice which is the clear starting point for the broadly constructive theories of Rawls Habermas and Honneth Indeed if justice were not possible it would be difficult to see why it is worthwhile for human beings to live on this earth However a second orientation qualifies the first It can be expressed as a deconstructive attentiveness to the impossibility of determining justice s content This impossibility results from the tension between the appeal for individual consideration and the appeal for impartiality demands that Derrida believes our historical concept of justice includes Framed by these two orientations this ambitious book explores the promise and shortcomings of the constructive theories Attentive to concrete experiences of injustice that these thinkers tend to overlook Bankovsky provocatively challenges Rawls account of civil disobedience Habermas defence of rational consensus and Honneth s ideal of mutual recognition providing new insights into deconstruction s relevance for contemporary theories of justice

The Skillful Self John Stopford, 2009-03-16 The Skillful Self Liberalism Culture and the Politics of Skill presents a political liberal theory of cultural participation and the goals of cultural policy in contemporary pluralistic democracies The ideal of cultural participation which many regard as central to the self conception of modern constitutional democracies is often subject to the distorting influences of state perfectionism paternalism consumerism and ideology These distortions and the problems they raise are intensified by the forces of social cultural and economic globalization Using the tools of contemporary liberal theory The Skillful Self develops an approach to the politics of culture that focuses on the concept of skill and its place in a liberal conception of the self Support for this approach is derived from the work of Nussbaum and Sen who make a conception of human capability basic to their views of public policy and the design of political institutions But the politics of skill modifies the capability approach by characterizing the central human functional capabilities as functions of the skillful self The final chapters of the book describe the competences of the skillful self elaborating a new typology of skills and explaining why

basic institutions are obliged to promote them To make the role of skill in the central capabilities explicit in this way is not to invoke the perfectionist ideal of a culture of skill but rather to focus on the structural role of skill in a nonperfectionist conception of truly human functioning and on the social conditions of individual capability viewed as a function of skill

Undoing Work, Rethinking Community James A. Chamberlain, 2018-02-15 This revolutionary book presents a new conception of community and the struggle against capitalism In Undoing Work Rethinking Community James A. Chamberlain argues that paid work and the civic duty to perform it substantially undermines freedom and justice Chamberlain believes that to seize back our time and transform our society we must abandon the deep seated view that community is constructed by work whether paid or not Chamberlain focuses on the regimes of flexibility and the unconditional basic income arguing that while both offer prospects for greater freedom and justice they also incur the risk of shoring up the work society rather than challenging it To transform the work society he shows that we must also reconfigure the place of paid work in our lives and rethink the meaning of community at a deeper level Throughout he speaks to a broad readership and his focus on freedom and social justice will interest scholars

and activists alike Chamberlain offers a range of strategies that will allow us to uncouple our deepest human values from the notion that worth is generated only through labor *Democracy and Authenticity* Howard H. Schweber, 2011-10-31 In *Democracy and Authenticity* Professor Howard Schweber examines a basic problem for liberal democracies When a political entity is characterized by a multitude of identities and values certain constraints apply to reasons for citizens and public officials to justify coercive political actions The author argues that justifications based on particular religious doctrines are not a proper basis for government actions that affect everyone He then develops a concept of public justification intended to guide citizens in a liberal democracy through the work of creating policies that satisfy their responsibilities to one another

Adding Insult to Injury Nancy Fraser, 2020-05-05 The collapse of communism the rise of identity politics and struggles over global governance have combined to create new challenges for the Left How to do justice to legitimate claims for multiculturalism and democratization without abandoning the Left's historic and still indispensable commitment to economic equality How to broaden the understanding of injustice by adding cultural and political insult to economic injury *Adding Insult to Injury* tracks the debate sparked by Nancy Fraser's controversial effort to combine redistribution recognition and representation in a new understanding of social justice The volume showcases Fraser's critical exchanges with leading thinkers including Judith Butler Richard Rorty Iris Marion Young Anne Phillips and Rainer Frost The result is a wide ranging and at times contentious exploration of varied approaches to rebuilding the Left
