Acosta-Hughes,2024-06-04 A central much studied feature of the poetry of 3rd cent BCE Alexandria is the artistic treatment of the cultural past the reception of earlier Greek poetry and artwork in the artistic creations of a new Greco Egyptian world

deracinated both geographically and temporally from the heroes and models of Archaic and Classical Greece Benjamin Acosta Hughes has devoted a 30 year professional scholarly career to the study of this reception one of both imitation and variation which took place concurrently with the massive collection and categorization of earlier Greek literature in the work of the scholars gathered under royal patronage at the Ptolemaic court in Alexandria a truly revolutionary new effort of cultural memorialization The poets of this period among them Callimachus Theocritus Apollonius and Posidippus vied in their efforts to compose works that at once celebrated their poetic heritage and at the same time marked their own poetry as original artistic creation and as critical commentary upon their earlier models This collection will be of interest not only for readers of Archaic and Hellenistic poetry but also for readers interested in the later reception of the Alexandrians at Rome

*Exemplary Spenser* Jane Grogan, 2016-12-05 Exemplary Spenser analyses the didactic poetics of The Faerie Queene renewing attention to its avowed attempt to fashion a gentleman or noble person in vertuous and gentle discipline and examining how Spenser mobilises his pedagogic concerns through the reading experience of the poem Grogan's investigation shows how Spenser transacts the public life of the nation heuristically prompting a reflective reading experience that compels engagement with other readers other texts and other political communities Negotiating between competing pedagogical traditions she shows how Spenser's epic challenges the more conservative prevailing impulses of humanist pedagogy to espouse a radical didacticism capable of inventing a more active and responsible reader To this end Grogan examines a wide variety of Spenser's techniques and sources including Philip Sidney's Defence of Poesy and the powerful visually couched epistemological paradigms of early modern culture ekphrasis among them Importantly Grogan examines how Spenser's didactic poetics was crucially shaped by readings of the Greek historian Xenophon's Cyropaedia a text and influence previously overlooked by critics Grogan concludes by reading the last book of The Faerie Queene the Legend of Courtesy as an attempt to reconcile his own didactic sources and poetics with the more recent tastes of his contemporaries for a courtesy theory less concerned with vertuous and gentle discipline Returning to the early modern reading experience Grogan shows the sophisticated intertextual dexterity that goes into reading Spenser where Spenserian pedagogy lies not simply in the textual body of the poem but also in the act of reading it

*The Symbolist Roots of Modern Art* Michelle Facos, 2017-07-05 With the words A new manifestation of art was expected necessary inevitable Jean Mor announced the advent of the Symbolist movement in 1886 When Symbolist artists began experimenting in order to invent new visual languages appropriate for representing modern life in all its complexity they set the stage for innovation in twentieth century art Rejecting what they perceived as the superficial descriptive quality of Impressionism Naturalism and Realism Symbolist artists delved beneath the surface to express feelings ideas scientific processes and universal truths By privileging intangible concepts over perceived realities and by asserting their creative autonomy Symbolist artists broke with the past and paved the way for the heterogeneity and penchant for risk taking that characterizes modern art The essays collected here which

consider artists from France to Russia and Finland to Greece argue persuasively that Symbolist approaches to content form and subject helped to shape twentieth century Modernism Well known figures such as Kandinsky Khnopff Matisse and Munch are considered alongside lesser known artists such as Fini Gyzis Koen and Vrubel in order to demonstrate that Symbolist art did not constitute an isolated moment of wild experimentation but rather an inspirational point of departure for twentieth century developments
